ALLIES VYING FOR F. D. R. NOD ON WAR NEEDS

Scramble Is On for Men and Arms.

Beaverbrook on Way

New York, March 22 [Specila].—Lord Beaverbrook, assigned by Prime Minister Winston Churchill to the task of pooling allied war resources, arrived in Lisbon today on his way to New York by Clipper, the British Broadcasting corporation announced. The broadcast was picked up here by the Columbia Broadcasting system.

BY ARTHUR SEARS HENNING.
[Chicago Tribune Press Service.]

Washington, D. C., March 22.—America's vast reservoir of man power and "arsenal of democracy" have become the object of a scramble by our allies for the share each deems essential to its defense.

Lord Beaverbrook.

President Roosevelt's transfer of Gen. MacArthur from the Philippines to Australia to take supreme command of a grand offensive against the Japanese constituted impressive assurance that the United States would furnish all the troops and arms possible.

Subsequently, however, there were developments that gave the Australian government considerable uneasiness. The British government was taking steps to obtain aid from America on a large scale for the defense of the near east against a possible drive by Hitler to gain the oil wealth of that region and join the Japanese in India.

Beaverbrook's Mission.

To that end, Lord Beaverbrook was ordered to Washington to take a hand in the allocation of the production of American arms factories to the allies. He is due to arrive shortly.

Also associated with the British plans for defense of the near east was Prime Minister Winston Churchill's appointment of Maj. Richard G. Casey, Australian minister to the United States, to be an empire minister of state representing the British war cabinet at Cairo. This precipitated an empire row, for Australian Prime Minister John Curtin was loath to lose the services of Minister Casey who has been extremely successful for 2½ years in getting lend-lease equipment for his country and finally the assignment of MacArthur to take charge there.

Curtin, after grudgingly agreeing to the transfer of Casey, rushed his foreign minister, Dr. Herbert Vere Evatt, to Washington to see that Australia is not given the short end in the division of America's war resources. Dr. Evatt, arriving last Friday, went immediately to the White House for a conference with the President "especially in relation to the Pacific theater, for the outcome of the struggle there may determine the very life of our country."

Month May Be Too Late.

Afterward, at a press conference, Dr. Evatt revealed his country's anxiety.

"American soldiers in Australia," he said, "know that they are fighting for America but above all they are fighting for the same elemental things which finally make life worth living. This valorous spirit can destroy Japanese aggression, but for it to do so all the implements of war, especially aircraft, must be provided

U. S. WAR MATERIEL AND TROOPS IN PERU, GOVERNMENT SAYS

LIMA, Peru, March 22 (AP).—The war ministry announced officially tonight that "at the request of the Peruvian government some quantities of United States war materiel have been sent to strategic points in Peruvian territory. This materiel has been accompanied by personnel of the United States army, which will remain under Peruvian command during the time required for training."

ROUNDUP OF WAR NEWS FROM MAIN FIGHTING FRONTS

Latest war developments:

Cannon-armed Airacobra fighting planes from America have been sent to the Russian front for a spring air offensive against the Germans, according to reports from Moscow. The Reds also claimed 12,000 Nazis had been killed in 10 days on the Kalinin front, northwest of the Red capital. Berlin reported successful "offensive operations" on various fronts, including heavy Nazi air attacks in the Donetz basin and Crimea.

British Strike at Axis.

In Libya, British mobile columns with American tanks battered axis positions 85 miles west of Tobruk in the first major desert action in six weeks, field dispatches from the 8th army revealed. The raiders captured 150 Germans and Italians. Axis communiques claimed the sinking of six British naval units in the Mediterranean—four submarines, a destroyer, and a "small unit."

A Japanese demand to "surrender or suffer the consequences" was ignored by Gen. Wainwright's American-Filipino defenders in the Philippines, the war department said in Washington. Increased enemy activity was reported on Bataan peninsula and in siege operations against Manila bay forts.

Bag 23 Jap Planes.

Melbourne reported that the combined American and Australian air force had wrecked 22 Japanese planes in raids on Japanese invasion bases on the Islands of New Britain, New Guinea, and Timor. Another Jap plane was shot down in enemy air raids on Darwin and Katherine, the latter an inland town on the Australian defense railway from Darwin to Birdum.

American volunteer and RAF flyers fought Burma's greatest air battle in staving off a mass raid by 60 Japanese bombers and 20 fighters on an airport in the south, Chungking dispatches said.

OFFENSIVE NEAR, NORWAY TOLD BY FILIPINO LEADER

Washington, D. C., March 22 (AP).—J. M. Elizalde, Philippine resident commissioner, said in a message broadcast to Norway today that the united nations soon will be on the offensive and when that happens the cause of the axis is doomed.

In his address, Elizalde said Norwegians and Filipinos have the same goal—"the redemption of our homelands from the invader."

"Knowing Norwegians as I do, I am confident that they will carry on their fight against the axis until they are victorious," Elizalde asserted. "That is certainly true of the Filipinos. We will never give up."

U. S. AND AUSSIE BOMBERS BLAST 23 JAP PLANES

3 Invasion Bases in Pacific Raided.

(Map on back page.)

MELBOURNE, Australia, March 23 [Monday]—(AP).—United States and Australian airmen, smashing 23 Japanese planes in mighty week-end air offensives, have carried out "one of the most successful operations of the air war in the Pacific," Prime Minister John Curtin declared today.

His communique, issued in Canberra, said that in devastating new blows on the northern arc of the Japanese off Australia and in defense of Darwin, the allied airmen destroyed four enemy bombers and damaged two, destroyed 10 fighters, probably destroyed three others, and damaged four.

In one of the allied assaults, a direct hit was scored on an ammunition dump, the communique said.

Planes Over Townsville.

Unidentified planes, presumably Japanese scouting craft, were reported over Townsville, on the Australian east coast about 700 miles south of Cape York, over the weekend. If these were Japanese craft, the flight represents the furthest aerial exploration the enemy has undertaken in that area.

Japanese planes raided Darwin for the sixth time but failed to hit their targets. They also struck for the first time at Katherine, 175 miles south of Darwin, killing one aborigine and wounding another, but failing to cause military damage. Katherine is on the defense railway which runs 100 miles farther to the southwest to Birdum where it connects with the trans-Australian highway.

Strike Three Invaded Islands.

Rabaul, 800 miles from Australia, in northeastern New Britain; Lae, Japanese operations base in northeastern New Guinea, 400 miles from this continent, and Koepang, in Dutch Timor, 500 miles northwest of Darwin, felt the sting of growing American and Australian air power.

The communique said 20 of the 23 Japanese planes were destroyed or probably destroyed early today at Lae, one of the three landing places from which the Japanese are attempting an invasion of southern New Guinea, with Port Moresby on the south coast as the presumed objective.

Three big Japanese bombers and nine fighters on the ground were set ablaze. Two other bombers and three fighters were damaged when the allied planes in the face of heavy anti-aircraft fire swept over with blasts of bombs and machine gun fire. Japanese soldiers were strafed while scurrying for shelter.

Repel Japanese Fighters.

A "standing patrol of three Zero fighters dived on our aircraft over Lae," said the communique, but a "burst of 500 rounds fired by one of our aircraft was seen to enter one of the Zero fighters."

Altho the communique said the destruction of this plane could not be definitely confirmed, another was seen to crash into the sea when it received bursts of 1,000 rounds, and the third fighter was damaged.

Following the probable sinking of a Japanese cruiser and damaging of another by American four motored bombers at Rabaul on Friday, allied airmen returned to the attack on that New Britain base and hit harbor and airdrome target areas. Two Jap planes were reported destroyed.

At Koepang, too, the airdrome as well as the town was the target, and the communique said every bomb found its mark.

Four U. S. Bombers Hit Cruisers.

Washington, D. C., March 22 (AP).—A war department communique revealed today that four American army heavy bombers took part in Friday's attack on the harbor of Rabaul on the Island of New Britain, north of Australia, in which direct hits were scored on two enemy cruisers, one of which was probably sunk and the other severely damaged. This action increased the destruction of Japanese ships since the fall of Java to at least 26.

AMERICAN LABOR: "O. K., MAC; YOU AIM IT, I'LL LOAD IT!"

MacArthur Insists on One-Man Rule; Puts It Up to U. S., Britain

BY JACK TURCOTT.
[By Wireless to the New York News and The Chicago Tribune.]

AMERICAN ARMY HEADQUARTERS, Australia, March 22.—Gen. Douglas MacArthur's first day as united nations southwest Pacific commander saw him plunging today into a huge pile of work. The tasks to which the general applied himself included delicate dealings with Washington and London to make certain that a unified command of all allied armies, navies, and air forces is established under a single man—himself!

An authoritative source disclosed that Gen. MacArthur already has drawn up strategy and personnel recommendations for all anti-axis forces in this region as well as plans for welding them together under his own command. But it has not been decided, for example, whether the general is authorized to issue orders to units of the British fleet in this area. Therefore he is taking up this and other questions of unified authority with the two capitals.

Brings Staff; Finds One Here.

An informed source points out that MacArthur must make certain personnel changes, due to the fact that upon his arrival he found an almost complete setup of the American organization already established under Lieut. Gen. George H. Brett. The Brett organization, of course, had been arranged some weeks before, when it had not been confirmed that MacArthur would assume the command—in fact before his dash from Bataan with his personal staff was an accomplished fact. The fact that MacArthur succeeded in bringing his own staff with him added other complexities to the situation.

The entire MacArthur staff was busy today working out unification details for the allied command, which includes Australian, United States, Dutch, British, "Free French," New Zealand, and other anti-axis army, navy, and flying personnel, to enable the hero of the Philippines to push the fight against the Japanese in the most efficient manner.

May Announce Setup Today.

The general himself, after conferring with Lieut. Gen. Brett, and Vice Adm. H. F. Leary, spent the most of the remainder of the day clearing up a voluminous pile of "paper work," accumulated since the daring exodus from Luzon.

His aides say MacArthur will meet all hands tomorrow morning, probably announcing his permanent setup.

The general is regarded as a masterful administrator and is noted for his ability to pick excellent subordinates for key posts. The changes to be made may damage the prestige of some intermediate commanders, but, as one informant points out, "MacArthur's chief desire is to hurt nobody except the Japs."

The general was flooded today with congratulatory telegrams from the officials of all the united nations.

Buttons Go on Sale

Buttons bearing a picture of Gen. Douglas MacArthur, hero of the Philippines, who is now commander of the united nation's forces in the southwest Pacific, go on sale today in the Tribune public service offices at 1 South Dearborn street and in Tribune Tower at 435 North Michigan avenue. They sell for 2 cents each over the counter and 5 cents by mail. Proceeds will go to purchase comforts for service men in one or more training camps in this area.

Warns Japs of Bombs.

TOKIO, March 22 [from Japanese broadcasts]—(AP).—The Japanese were told today of the prospects that United States planes will raid Japan from either the Aleutian Islands or Chinese bases or both.

Lieut. Gen. Asaburo Kobayashi, commander of the home defenses, urged the people in a radio address to "maintain the greatest watchfulness."

He warned that weather conditions in Alaska and the Aleutian Islands soon would permit raids on Japan and that "the enemy is working out plans for an attack from the north Pacific."

Defense Drills Ordered.

He pointed out that United States "efforts to reenforce Chiang Kai-shek's air forces might result in attempts to attack Japan from bases in unoccupied China."

Extensive air defense drills will be conducted for five days starting tomorrow in the Moji and Shimonoseki area.

Local "young men's associations" will take active part in the drills under supervision of army and prefectural authorities.

Norse Clergymen Threaten to Quit on Education Issue

STOCKHOLM, Sweden, March 22 (AP).—Many Norwegian clergymen read an announcement in their churches today declaring they would not remain in office unless the church's stand on the education of youth and other matters in dispute with the Nazi dominated government were respected, it was reported here. A few clergymen belonging to the Quisling party declined to read the announcement, which said, "The church cannot leave the people's education to the state."

BATAAN SCORNS JAP ULTIMATUM

No Reply to Demand for Surrender.

(Map on back page.)

Washington, D. C., March 22 (AP).—The Japanese, after weeks of apparent preparations for a major new offensive in the Philippines, called on the American-Filipino defenders to surrender by noon today or "suffer the consequences"—and were ignored.

Gen. J. M. Wainwright.

The ultimatum from the new Japanese commander, Gen. Tomoyuki Yamashita, who directed the successful Malayan campaign, was reported in a war department communique which told also of increasing enemy activity, indicating the offensive already was in its early stages.

"No Reply Necessary."

"No reply was necessary and none was made" by Lieut. Gen. Jonathan M. Wainwright, the communique said.

The Japanese increased their activity both on the Bataan peninsula and in siege operations against the Manila bay forts.

Enemy batteries hammering at the Manila bay fortifications concentrated their fire on Forts Frank and Drum, nearest to the bay's south shore. One shell caused several casualties, the communique said, but otherwise the fire was ineffective.

Forts Two Miles Away.

Forts Frank and Drum are on small islands two miles or less from the Cavite province shore, where the enemy batteries are located. The other American fortifications are on the northern side of Manila bay, 10 miles from the Cavite shore.

On the Bataan peninsula, the Japanese carried on aggressive patroling resulting in frequent local skirmishes.

Canada's Sugar Rationing Works Without Coupons

OTTAWA, Ont., March 22 (AP).—Canada's informal sugar rationing appears to be working "very well" and there is no immediate intention to follow the United States' lead in instituting coupon rationing, S. R. Noble, sugar administrator for the Canadian wartime prices and trade board, said tonight.

Canadians are allowed three-quarters of a pound per person each week, without having to present coupons.

SUBS GET 3 IN NEW RAIDS; 737 KILLED IN 105 DAYS

18 Believed Dead; Planes Drop Depth Bombs.

Norfolk, Va., March 22 (AP).—Submarines torpedoed three more medium sized American merchant ships off the Atlantic coast last week, and planes appeared overhead after one attack and dropped depth charges, the navy announced today.

The announcement said 11 were killed and 20 rescued on one ship, 5 were missing and 31 saved from the second, and 2 were killed and 32 rescued on the third.

One of the ships was attacked in daylight while two other vessels were in view, the navy said. Names of the ships, their tonnage, and the exact areas in which the attacks occurred were not made public.

Depth Charge Dropped.

James J. Galvani of Brooklyn, N. Y., third mate of the ship from which the 20 survivors were taken said two planes flew overhead in the vicinity of the attack and dropped "certainly one and possibly two depth charges." This vessel was hit by one torpedo. The rescue came 30 minutes after the men had taken to lifeboats.

The explosion of the torpedo fractured both legs of Leo Bajarski, 23 years old, of Scranton, Pa., an oiler, who was below deck. He dragged himself to a barrel which was floating in the rapidly filling ship, draped himself over the barrel, and paddled to a hole in the deck above his head. Two shipmates saw him trying to pull himself thru the hole and carried him to a lifeboat.

Captain Tells of Attack.

Capt. Sigmund Schultz of Staten Island, N. Y., the skipper of the ship, was on the bridge when the torpedo struck.

"I saw that the ship would not sink immediately, but I gave the order to stand by the lifeboats," Schultz said.

"When it was apparent the submarine had no intention of firing on us again I sent three men below to make an inspection. They reported that 11 were dead and four injured. We abandoned ship about 25 minutes after the torpedo struck. I never saw the submarine."

Wesley Phillips of Lynnbrook, N. Y., a mess man, said the blast hurled débris of the ship's refrigerator thru the deck and high into the air.

31 in Two Lifeboats.

The 31 survivors of the second ship, which sank Thursday morning after being hit by one torpedo, were picked up from two lifeboats an hour after they had abandoned ship. They were landed at Morehead City, N. C.

Five seamen who were on duty in the ship's engine room at the time of the attack were missing and presumed to be lost.

Albin Johnson, the ship's captain, said one torpedo hit the vessel amidships on the port side. He said he gave orders to abandon ship within 20 minutes, and the ship sank 10 minutes later. None of the survivors saw the submarine.

Hit by Two Torpedoes.

The third ship was struck by two torpedoes Wednesday night and her survivors were picked up 11 hours later.

Capt. Raymond Zalnick of Houston, Tex., the master of the ship, said the two crew members who lost their lives were killed by the torpedoes or drowned in water which filled the fire room rapidly.

He said an S O S was sent out when the attack began and that a reply was received from a shore station. He added that the ship's superstructure was damaged, either by the explosion of the second torpedo or by shellfire from the submarine.

846 Missing; Half of Raid Victims Are Americans.

BY JOHN FISHER.
[Chicago Tribune Press Service.]

Washington, D. C., March 22.—With the announcement today of three more ships torpedoed and sunk in the Atlantic—with a loss of 18 lives—the toll of enemy submarine attacks on allied shipping during the recent siege off American shores has reached at least 94 vessels sunk and 737 persons killed, a survey by THE CHICAGO TRIBUNE disclosed.

Dating from the Japanese attack on Pearl Harbor 105 days ago, these losses include 46 American vessels sunk and at least 311 American lives lost, or approximately half the casualties.

An additional 276 Americans were among 846 reported missing in these submarine attacks. Those rescued totaled 2,327, of which 1,171 were from vessels of the United States.

A table listing the 94 ships known to have been sunk off American coasts since Pearl Harbor will be found on Page 6.

Actual Figures Withheld.

These figures are considered conservative since the navy department, under the censorship restrictions imposed by Secretary of the Navy Frank Knox, has been reluctant to admit actual losses. To date it has announced officially only 65 merchant ships of allied or friendly nations either sunk or damaged. The unofficial figures show 94 sunk, not counting the vessels damaged but not sunk in the battle of the Atlantic and Pacific. Neither do these losses include successful attacks on warships of the united nations.

Nazi U-boats are considered primarily responsible for the allied losses, as most of the sinkings have been reported in the Atlantic, and audaciously close to American shores at that, while the Japanese concentrated on the western Pacific campaign. Only 9 of the 94 vessels lost were sunk in the Pacific, according to current data.

Six Sunk in Two Days.

Altho the navy department claims it is taking steps to protect merchant shipping against the U-boat attacks, the situation steadily has become worse instead of better. The three ships reported lost today made six sinkings reported in the last two days. The sinkings are confined mostly to the western Atlantic and range from the Canadian coast to the Caribbean.

Among the steps which the navy department says it is taking to counteract the submarine siege are armed convoys of ships, plane and surface patrols, and arming of merchant vessels. Last Wednesday, Knox, who not many months ago reported the Atlantic cleared of U-boats, ordered merchant vessels in coastwise shipping to travel only in specified northbound and southbound lanes. These are to be cleared by surface and plane patrols, according to Knox, who said such patrols will be expanded rapidly.

Reports reaching here are that the

BISHOP ASSAILS MOVE FOR WOMEN IN ARMY SERVICE

New York, March 22 [Special].—Bishop John J. O'Hara, former president of the University of Notre Dame, today condemned proposals to put women in the army as another threat "to the sanctity of the home."

Bishop O'Hara is auxiliary bishop of the Roman Catholic chaplains and men in the armed forces.

"I think a good many of you men did kitchen police duty in the last war," he continued. "You don't like to peel potatoes, darn socks, or sew on buttons. But I think that for the sanctity of the home you would prefer to do it yourself rather than have women in the army for that purpose."

COMMONS LABORITE TELLS CHURCHILL TO DROP ONE-MAN RULE

[Copyright: 1942: By the New York Times.]

LONDON, March 22.—Richard B. Stokes, Laborite member of parliament, in a speech tonight called for a change in British leadership, saying that the cabinet ministers do not seem to realize that the criticism which they resent has been leveled because of their unsuccessful prosecution of the war.

"There has been much said about croakers," said Stokes, "and a threat to suppress a daily newspaper [The Daily Mirror] by the government, which seems to have forgotten that criticism should not be confused with croaking.

"It is becoming a more and more widely held opinion that the war cannot be brought to a successful conclusion so long as Mr. Churchill combines the offices of prime minister and minister of defense. As a strategist he has a lamentable record. He must drop his monopoly on the control of strategy. There is urgent necessity for a change of outlook and policy, neither of which is possible with the present prime minister."

A 'HELL'S ANGEL' MEETS 45 JAPS OVER RANGOON

U. S. Flyer Downs His First Bomber.

San Diego, Cal., March 22 (AP).—An American fighting pilot's story of "how an average fellow thinks and acts when he really plays war for keeps" was told today by Pilot Officer Ed Overend of the Chinese air force's American Volunteer group.

Overend wrote his parents here, describing savage aerial dogfights over Burma, with tiny squadrons of American pursuit planes pitted against overwhelming forces of powerful Japanese bombers.

Overend, a former United States marine aviator with the AVG's "hell's angels" squadron, told of his first aerial victory when Japanese bombers raided Rangoon and Mingaladon airdrome Dec. 23.

Pounced in Very Close.

He said he thought he was dreaming when he leveled off his Tomahawk pursuit plane at 3,000 feet and saw a formation of 45 Jap bombers protected by many fighting planes.

"I made three or four attacks," he wrote, "and one of the bombers started to drop behind, so I pounced on him and came in very close. I could see the turret gunner firing at me. Then I fired. His engine started to burn and then a wing and almost immediately he went into a dive and smashed into a paddy field.

"Strangely enough, I felt no emotion at having been the cause of it. At last I had the satisfaction of knowing I had been able to do what Uncle Sam had trained me to do.

Ready on Christmas Day.

"We were ready for them on Christmas day," Overend wrote concerning the raid on Rangoon. "There were six of us in our formation.

"My heart jumped when I counted 30 Japs in one formation. We swung out in line and swooped very deep under the bombers.

"My first burst slammed into one of the bombers' engines. It caught fire, and he pulled directly in front of me. I followed him with my guns blazing and his wing came off, with the gasoline spraying a sheet of flame behind him.

"As I climbed back I could see two others falling. After three more attacks, I pulled behind a bomber and felt bullets striking my 'Tommy-hawk.' I tried to pull away but couldn't.

"I had had a thousand forced landing practices and now I was in the real McCoy—with my controls jammed. I could only go forward in a flat dive.

"With little feeling I watched the bomber crash. I decided not to jump in my parachute because one of my buddies had and they machine-gunned him all the way down."

Suffers Bruised Arm.

Overend brought the little plane down in a rice field, with the landing gear retracted. He suffered only a bruised arm. "On the way back to the 'drome we came upon the wreckage of the second bomber I had shot down. The pilot was dead at the controls and one gunner was dead. The bombardier had jumped—without a parachute—when the plane was 300 feet high.

Overend rejoined his squadron to discover that one of his buddies had been shot down, but that the group had destroyed 26 Japanese planes.

"It was a good day's work," he added, "tho I missed both my lunch and dinner."

YANKS AND RAF BATTLE 80 JAP PLANES IN BURMA

Outcome of Biggest Aerial Clash Still Vague.

(Map on back page.)

CHUNGKING, March 22 (AP).—One of the biggest air battles yet fought in Burma occurred Saturday when a swarm of 80 Japanese planes attempted a mass attack on an allied airfield and was met by a combined force of American volunteer group and royal air force pilots.

The 60 Japanese bombers and 20 fighters which made the attack somewhere in south Burma comprised one of the largest forces of invading planes yet seen in Burma. The attack was taken here as an indication that the Japanese are heavily reenforcing their air strength in a determined effort to knock out the AVG and RAF.

Since the start of the war these American volunteers with the Chinese air force and their British comrades have given the Japanese a terrific beating in the air, and have constituted the most serious impediment to the Japanese advance.

Two Jap Planes Bagged.

The Chinese Central News agency dispatch from Kunming in South China, which told of the battle, said only two Japanese planes were claimed to have been shot down in first reports, while "several" allied planes were still unaccounted for.

This report, however, was based on information at 1:40 p. m. Saturday [1:40 a. m., Chicago war time, Saturday] apparently only a few hours after the battle, and there was a possibility that more complete reports would be received later. There was no mention of any damage, if any, that had been caused at the airdrome.

At the same time an AVG communique, the 12th issued at Kunming, told of a lone American plane which attacked a Japanese armored column in South Burma Friday, demolished five tanks and returned without a scratch.

Lull in Land Fighting.

British headquarters in Burma, reporting both land fronts on the Irrawaddy and Sittang rivers were quiet, said the RAF made a successful raid on the Japanese-held air base at Mingaladon, just north of Rangoon, Saturday. No details were given.

The land situation indicated the British were still holding their positions around Pyu, 30 miles south of Toungoo, and Letpadan, 65 miles south of Prome. Toungoo and Letpadan are about 220 miles south of Mandalay.

An airdrome in central Burma was heavily bombed by the Japanese Saturday, the communique said, and some damage and some casualties to RAF pilots and mechanics were caused.

FATHER'S WATCH WILL CARRY WAINWRIGHT THRU, SAYS HIS SISTER

Seattle, Wash., March 22 (AP).—So long as "Skinny" Wainwright has his big silver pocket watch, the Japanese on Bataan peninsula might just as well save their shells.

So thinks Mrs. Jennie Mears, sister of "Skinny," otherwise Lieut. Gen. Jonathan Mayhew Wainwright, commander of the American and Filipino army in Luzon.

"I'm not nearly as worried about him as I would be if I didn't know that he had with him the big silver watch with a waterproof case that our father, Maj. Robert Powell Page Wainwright, carried with him all thru his campaigns," Mrs. Mears said. "It's a family tradition that no harm ever came to him while he had the watch in his pocket."

Skinny gained his nickname at West Point.

Chicagoans Brave Wind to Stroll in Sunshine

Strong winds blew Chicagoans' hats off yesterday. But losing their hats and getting dust in their eyes failed to discourage thousands from continuing their strolls in the bright sunshine. Forecaster A. J. Knarr said today will be somewhat warmer.

DARING ACTION IS NEEDED, SAYS PHILIPPINE ENVOY

Only by daring and ferocious action can we win the war, Francis B. Sayre, United States high commissioner to the Philippines, said yesterday in a brief stopover here on his way to Washington, D. C., to report to President Roosevelt. Sayre, who arrived in San Francisco last Wednesday after a secret trip from the Philippines, plans to return to the southwest Pacific after his visit.

Francis B. Sayre.

Sayre would not answer questions but issued a statement in which he declared that neither gigantic planning nor stupendous outlay of money alone will win the war.

"At the battlefront from which I have come," he said, "American soldiers are going thru the tortures of hell for us in America. They cannot continue to hold the line unless we get planes and supplies to them and get them there in a hurry."

Sayre is taking a Japanese officer's sword to the President, but he refused to give any information about it.

MRS. ROOSEVELT SAYS DON'T BLAME HUSBAND FOR WAR POLICIES

Los Angeles, Cal., March 22 (AP).—The President and the administration should not be held solely responsible for policies such as freezing prices, profits, and wages, Mrs. Franklin D. Roosevelt said tonight in her weekly sponsored broadcast [Blue network].

Declaring that the nation must look to the grass roots of America for leadership in the war effort, Mrs. Roosevelt said in her prepared address:

"People seem to forget that for a long time groups like the chambers of commerce have clamored for freezing of wages, but they haven't clamored for the freezing of profits and prices in the same way."

Declaring that the people themselves will have to take the lead, the President's wife said:

"I am not minimizing the value of what the higher-ups can do, but the beginnings I firmly believe must come from the grass roots. This is an all-out war."

WOMAN RESCUED FROM FIRE.

Miss Ophelia Tracy, 70 years old, 5487 Lake Park avenue, was rescued by firemen yesterday when a blaze attacked the four story building in which she lives. Damage was estimated at $3,000 to the building and one next door at 5485 Lake Park.

BATTERY OF AEF BESTS BRITONS WITH BRITISH GUN

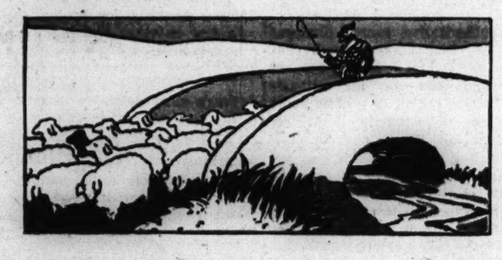

WITH THE UNITED STATES ARMY, Northern Ireland, March 22 (AP).—A battery of United States artillerymen rated by British artillery experts, scored 233 out of a possible 300 during a monthlong course of instruction on the principal field piece of the British, the 25 pounder.

The battery, commanded by Capt. E. A. Thomas of Minneapolis, Minn., was rated the best of all units in the United States Northern Ireland command. The seven man battery was awarded $25 by the artillery commander.

The battery scored one hit out of every two rounds fired at a target resembling a tank, which was towed over the rolling country by a truck. This contrasted with a one-out-of-three average for other batteries and a three-out-of-five average for an experienced battery of selected British gunners.

The United States forces have adopted the 25 pounder, a little larger than the United States 75 millimeter rifle, as their own equipment. It is a dual purpose gun, used for direct fire and as a howitzer. It is the nearest approach to the United States 105 millimeter howitzer, regarded as the American army's finest all around weapon and scheduled to be the backbone of United States artillery.

RED ARMY HURLS GERMANS BACK INTO NEW SECTOR

Battle in Bryansk Zone 210 Miles from Moscow.

MOSCOW, March 22 (AP).—Airacobra fighter planes built in America were rushed to the front today by the Red army for a spring air offensive while on the frozen land the soviet armies were reported unofficially to be pushing steadily forward supported by artillery fire.

The army publication, Red Star, datelined a dispatch "from the Bryansk front," which means that the main Russian army, rather than advanced units, now is actively operating in this area 210 miles southwest of Moscow.

Another dispatch said the Russians had repulsed a major German counterattack by four German divisions and one Rumanian division on the southwestern front, killing 2,250 men. The Reds were said to be pursuing the enemy.

Kill 12,000 in 10 Days.

Savage fighting on the Kalinin front northwest of Moscow was indicated in a special announcement which said 12,000 Germans had been killed in this region between March 11 and 21. Several populated places were recaptured on the Kalinin front today and many German prisoners were taken.

In the Crimea, the communique said, the "Germans repeatedly launched counterattacks which were repulsed with heavy losses for them.

Fighting in the Staraya Russa area, 140 miles south of Leningrad, where the 16th German army is trapped, was said unofficially to be growing in violence and the Nazi forces were said to be "melting away" under the constant attacks. The 260th German regiment, after being reenforced, was said to have been reduced to four soldiers and one noncommissioned officer. The 2d battalion of the 480th infantry regiment, also reënforced, was said to have only 50 effectives left.

Second Large U. S. Shipment.

A captured German flying officer was quoted as saying the Germans were transferring planes from Africa and from the central front to ferry supplies to the trapped army.

The cannon equipped Airacobras [Bell P-39s] were being assembled by Russian and British technicians, Red Star said. A second large shipment arrived recently.

Red Star said Russian flyers liked the swift fighters, but had made suggestions for changes in the automatic guns.

"The Airacobra is a good plane with strong guns, and is simple to operate," a veteran soviet technician said, "its speed considerably exceeds that of modern [German] Messerschmitts."

Red Star said the first shipments of Airacobras arrived in 1941, when no British technicians were on hand to instruct in their assembly. The Russians undertook the job and put the first planes together and in the air within four days. Now the task requires only two.

Storm Rumanian Position.

LONDON, March 22 (AP).—A German radio announcer today said the Russians stormed a Rumanian position on a hilltop at dawn in the Donetz area and succeeded in occupying it for a time. A Rumanian counterattack drove them out, he declared.

Nazis Take Offensive.

BERLIN, March 22 [from German broadcasts]—(AP).—The German high command declared today that "offensive operations" were successful on a number of sectors of the Russian front and claimed for the air force heavy bombings in the Crimea and Donetz basin.

With the stirrings of the day old spring on the still cold battlefront, Hitler's generals dropped the term "defensive" in their official report.

The Germans said renewed Russian attacks on the Kerch peninsula—the Crimea shortcut route to the Caucasion oil fields—were repulsed and that the Black sea port of Kerch was bombed.

German planes also were said to have supported land forces in the Staraya Russa sector south of Lake Ilmen, in the Donetz region, and in the central sector.

They claimed to have destroyed 51 Russian planes, and to have heavily bombed 54 Red supply trains. The Finnish air force was credited with destroying motorized Russian columns at an unspecified point.

First U. S. Trained Chinese Flyers End Study Friday

Moffett Field, Cal., March 22 (AP).—The first detachment of United States trained Chinese airmen will return home soon to fight the Japanese. Moffett field officials said today that graduation exercises will be held Friday at Luke Field, Ariz. The Chinese cadets were selected by their officers in China after preliminary tests.

Dunham Jr., Mr. and Mrs. Willard N. Drown, and Miss Joan Dunham.

"INVADE AND WIN IN 1942," CRY OF BRITISH EXPERTS

Second Front to Help Russia Demanded.

BY LARRY RUE.

[Chicago Tribune Press Service.]

LONDON, March 22.—The growing desire of many Britons for offensive action against the enemy has already been translated into popular demand for the opening of a second front in Europe when Adolf Hitler launches his heralded spring offensive against Russia.

Nonpolitical public meetings have been held thruout the country clamoring for action. The speech of Maxim Litvinov, Russian ambassador to the United States, in America recently, set the ball rolling for an attack calculated to relieve the military pressure against Russia. Another such meeting which, sponsors say, will be the biggest this country has ever known, will take place next Sunday in Trafalgar square.

Frank Owen, editor of Lord Beaverbrook's Evening Standard, will preside, with another Beaverbrook editor, John Gordon of the Sunday Express, as well as members of parliament and a communist speaker on the platform. The speakers will urge "victory in 1942" and will state that the opening of a second front in Europe is essential.

Discuss France Invasion.

Gordon writes in the Sunday Express today: "We must get into Europe. The moment Hitler launches his new attack is a moment when we must pull ourselves together with all our might to answer Stalin's call and fight."

The Sunday Pictorial runs a double page spread in which military and naval experts discuss the question. Maj. Gen. O. F. C. Fuller and Lieut. Comm. Robert Tatton Bower, member of parliament, discuss the possibilities of an invasion of Norway, the channel coast, Italy and Denmark. Both point out the advantages to Britain if the channel coast, including Belgium and Holland, could be reopened as a battlefield.

Italy Another Possibility.

"In the event of our landing there," Fuller says, "our home base automatically becomes one vast airdrome from which our bomber and fighter aircraft could operate." Fuller regards a campaign in Norway as particularly important, as rendering the British supply route to Archangel more secure.

Bower believes that because of the lack of airdromes in Norway this territory is less defensible than the channel coast, as Commando raids by Britain recently have proved. Bower, however, foresees no prospect of a large scale invasion there because of the danger of a big sea battle.

Both experts agree that if Italy is successfully invaded, Britain's object would be achieved in breaking axis power in Europe.

KING OF BULGARS LEAVES SOFIA ON TRIP TO GERMANY

Franz Von Papen Speeds Home from Turkey.

[A series of dispatches yesterday from various European points indicated that Germany again has embarked upon a pressure campaign similar to the "war of nerves" and propaganda drives which preceded the Nazis' previous European offensives. The present campaign appears designed to point up new offensive preparations against Russia or cloak Adolf Hitler's intentions toward Turkey.]

SOFIA, Bulgaria, March 22 [from Italian broadcasts]—(AP).—King Boris of Bulgaria left by special train today on a visit to Germany. Franz von Papen, German ambassador to Turkey, reached this city today on his way home to Berlin. He was greeted by Bulgarian officials, including the Bulgarian minister to Turkey, now in his home capital. Von Papen is expected to continue on his way tomorrow.

Turkish Envoys Gather.

ISTANBUL, Turkey, March 21 [Delayed]—(AP).—Turkey's ambassador to Germany, Husrev Gerede, arrived today to join this country's envoys to Rumania, Spain, and Iran [Persia] in foreign office consultations and declared:

"Turkish-German relations continue to develop in an atmosphere of friendly cordiality."

Gerede told interviewers his visit to Turkey had no relation to the home-going of German Ambassador Franz von Papen.

[A dispatch from Berne, Switzerland, to the New York Times, told of a rumored German offer to Turkey for coöperation with Hitler. For permission to transport troops across Turkey or use Turkish bases for German troops operating against the southern Caucasus and Iraq, Hitler was said to have offered Turkey 50 per cent of the output of the Mosul oil fields and full possession after the war, a Turkish mandate over Syria for 15 years, cession to Turkey of Greek islands off the western Turkish coast, and revision of the western frontier of European Turkey by cession of parts of Grecian Thrace.]

Von Rundstedt at Post.

BERLIN, March 22 [from German broadcasts]—(AP).—Field Marshal Gerd von Rundstedt "once more is at a responsible post" on the eastern front "after a short vacation for restoration of his health," the German press stated today in connection with his 66th birthday.

Of his present assignment all the papers used the phrases quoted above, but none said exactly what the new post it. "Until he had his holiday," the press stated, "he was in command of an army group in the south [Russia] which did its most conspicuous fighting in the battles of the pockets of Uman and Kiev, as a result of which followed the conquest of the Ukraine and of a major portion of the Donetz basin."

[Von Rundstedt was among the Nazi generals reported dismissed during the German winter reverses in Russia and last week was listed among those reported to have been called back by Hitler to plan Germany's spring and summer campaign.]

Claim Winter Line Held.

German news agencies circulated a dispatch from the Bucharest [Rumanian] newspaper Universal which claimed that the "approximate line" which the German supreme command mapped as the springboard for the coming offensive in Russia had been held "even tho in some sectors considerable, but strategically necessary and even advantageous retreats had to be carried thru."

"Nevertheless on the front as a whole, no essential changes took place even tho the Bolshevists have held the initiative," the report said.

"The fierceness of the soviet attacks in the southern sector and the Kerch peninsula indicates the soviets fear German action in these sectors where the German winter retreat was less than at other points. It is premature to speak of the coming offensive but there is no doubt that preparations have begun already behind the lines."

Tells Mate's Death

MRS. VESPER HAGEMANN.

A coroner's inquest will be held this morning in the death of John F. Hagemann, a merchandise buyer for Marshall Field & Co., who shot himself Saturday night in his home at 1924 Cleveland street, Evanston. Police said he seized a gun and fired a bullet into his left temple during an argument with his wife, Vesper. She tried in vain to take the gun from him, she told the police.

Hagemann, who was educated at Beloit college and the University of Wisconsin, was 36 years old. Mrs. Hagemann is 31. Their daughter, Susan, 2 years old, was sleeping upstairs when Hagemann shot himself as he sat in the living room with his wife. He died in St. Francis hospital. The funeral will be held at 2 p. m. Wednesday in the chapel at 1567 Maple avenue, Evanston, where the inquest will be held.

U. S. AND VICHY REPORTED NEAR PACT ON FLEET

LONDON, March 23 [Monday]—(AP).—The Daily Mail said in a Madrid dispatch today that French Vice Premier Darlan had announced a full agreement between the Vichy government and the United States was near, pledging among other things the neutrality of the French fleet. The sending of food to French North Africa will be resumed, the report said.

"It is stated," the dispatch said, "that over and above guarantees already given as regards the French West Indies, Vichy is prepared to extend similar assurances in regard to the neutrality of all her African colonies. American consular officials will be allowed the fullest opportunities of inspection and communication with American Ambassador Leahy at Vichy and with Washington."

The guarantees were said to "include, naturally, the neutrality of the French fleet."

State Department Refuses Comment.

Washington, D. C., March 22 [Special].—The state department tonight declined to comment on a report that Adm. Darlan had announced "full agreement" between Vichy and the United States. It was reported Friday that satisfactory assurances had been received from Vichy against the use of French possessions in the western hemisphere by axis submarines and that "other matters" had been agreed upon.

DIES AFTER DRINKING AMMONIA.

Miss Catherine Clark, 60 years old, 1822 West 23d street, died yesterday in the Bethany hospital from pneumonia following an accidental swallowing of a cupful of ammonia. Miss Clark drank the liquid, believing it to be water, while cleaning her home, police were informed.

FRENCH SCHOOLS TO STRESS NEED FOR BIG FAMILIES

Call Low Birth Rate Danger to Nation.

[Copyright: 1942: By the New York Times.]

VICHY, France, March 22.—The depopulation of France and the necessity of combatting the falling birth rate will form a part of the curriculum in the elementary and secondary schools, for which detailed instructions to teachers are published in the official journal here today.

"A pupil of 10 or 11 years of age," says the circular, "can easily understand that many hands are needed to harvest the crops that the land produces. He can also be made to understand that a depopulated nation without strength and without defense, far from escaping wars, will invite invasion.

Prey of Foreigners.

"When the teacher has sufficiently deplored the depopulation of our villages and countryside, he will explain to the children that for lack of French colonists our empire is in danger of becoming the prey of foreigners, and by graphs and statistics he will be taught the rising trend of population in other countries.

"It will be shown that during the two centuries of France's greatest strength she owed a large part of her glory and prestige to the fact that hers was the most densely populated territory in Europe.

Provinces Are Colonized.

"And finally it will be shown especially that the consequence of the depopulation of France has been an influx of foreigners who arrive to 'colonize' certain of our provinces."

The course will include talks on the dangers of celibacy, individualism, and egotism as well as instruction to inculcate honoring large families and the realization that children are a source of happiness for parents, assuring prosperity of the family and power to the state.

JANITOR STABBED BY TENANT.

William Vering, janitor of a building at 7851 South Aberdeen street, was knifed in the abdomen yesterday by a tenant of the building who complained because children were trampling the new grass about the place.

150 AXIS TROOPS SEIZED IN 2 DAY LIBYAN ASSAULT

British Mobile Columns Raid Desert Front.

BY SAM BREWER.
[Chicago Tribune Press Service.]

CAIRO, Egypt, March 22.—British, South African and "Free French" troops have completed a successful two day raid along the entire Libyan desert front, and brought back more than 150 prisoners, destroyed numerous axis vehicles, and disrupted axis supply services, British headquarters announced today.

The operation began on Friday with widespread scouting and fighting patrol activity in all parts of the desert. Using the information thus gained on the enemy's dispositions and strength, stronger mobile columns pushed into the Tmimi-Martuba region near the coast about 85 miles west of Tobruk. They shelled two enemy airdromes as well as outposts in the area.

Call Operation "Successful."

Besides the prisoners taken, an undetermined number of axis troops were killed or wounded. The forces withdrew late Saturday after what headquarters said was a "successful action which achieved its object."

A bad turn of the weather probably cut the scale of the operations. There were heavy duststorms with high wind and the air forces were not able to take a full part in support of the columns. Planes can fly in a sandstorm, but not much is gained because the flyers are unable to see their objectives and risk hazardous landings.

The ground operation was typical of the British desert tactics. The columns dart in, strike at the enemy wherever he is vulnerable, then dart away before reënforcements arrive. The columns make valuable use of a 25 pounder gun [about 3 inch bore] to reduce strong opposition. By means of a round tray with raised rim placed on the ground and the gun's wheels on it, the gun can be swung around quickly, as if on a pivot, for use against tanks.

Bomb Nazi U-Boat Base.

Such a column pays high dividends in results. It is a potential destroyer of a great deal of enemy equipment. It risks only a few vehicles and guns, and a few men. The risks are fewer than with almost any other force in proportion to what can be achieved.

British bombers struck at the Cretan port of Candia, and at the Libyan airdromes at Barce, Berka, Derna, and Bengazi. The German submarine base at the Greek port of Eleusis near Athens was raided Friday night.

At least 17 German planes were shot down yesterday over Malta, British island base off Italy, by fighter planes and anti-aircraft guns instead of the 14 originally announced.

CLAIM 4 BRITISH SUBS SUNK.

The Italian communique claimed four British submarines were sunk by chasers, presumably in the Mediterranean, and that a "small British naval unit" was blown up in the western Mediterranean and another damaged by reconnaissance aircraft.

The Germans claimed a 1,695 ton British destroyer of the Jervis class was sunk by a U-boat off Sollum, Egypt, in an attack on a strongly protected convoy of warships and transports. [Vessels of the Jervis class, built in 1939, had a normal complement of 183 men.]

The Germans said Malta was attacked all day Saturday and that 10 British planes were destroyed and the La Venezia airdrome badly damaged.

Both the Italians and Germans asserted that British formations which attempted to infiltrate thru their Libyan positions were thrown back with heavy losses of armored equipment.

REPORT SHUFFLE OF BRITISH EAST COMMAND NEAR

[Chicago Tribune Press Service.]

LONDON, March 22.—With indications growing that a major axis move in Libya may take place soon, it is reported tonight that Britain is contemplating a big reshuffle in the middle east command.

Changes which may be made as a result of parleys between Lieut. Gen. Archibald E. Nye, vice chief of the imperial general staff, and Sir Stafford Cripps [whose arrival in India was reported today] in Cairo, are said to be:

FIRST—Senior officers commanding in that area may be replaced by younger men.

SECOND—The extension of the Indian command of Gen. Sir Archibald Wavell to include all forces instead of only the army on both eastern and western flanks in India.

THIRD—Aggressive steps to encounter the dangerous concentration of enemy strength now facing Syria in Greece and the Greek Islands.

The Inquiring Camera Girl — BY FREIDA ZYLSTRA.

THE QUESTION.

What was one of the most interesting experiences you've had on the job? [Asked of detectives.]

WHERE ASKED.

Central police station, 1121 South State street.

THE ANSWERS.

James J. Quinn, 3142 West 62d street—Eight school children were bitten by a mad bulldog that was running all over the school building looking for new victims. It was my job to corner him and shoot. There was lots of chasing and screaming before the job was finished.

James A. Patterson, 225 South Winchester avenue—Two holdup men had kidnaped a high school boy to use him in drug store stickups. We had their license number and found their car near a drug store. Before we arrived they shot a dog in the store and emptied the register. We surprised them on their way out.

Thomas F. Meagher, 6214 North Talman avenue—More than 20 years ago [I was a rookie then] I suspected a tavern owner of various confidence games. Before I got into the case he left. Just recently I got a letter from Scotland Yard saying he had died in prison. He had been operating games on boats between New York and England.

John J. Hanrahan, 5701 Emerald avenue—I was riding in one of three squad cars that were chasing two cars of bandits. We were exchanging shots and one of the bullets grazed my shoulder so I was sent to a hospital. When I removed my coat the bullet dropped to the floor. Reminded me of a close shave.

John F. Mangin, 7843 Eberhart avenue—For years we had been trying to track down a narcotics peddler. Driving along a street, I recognized a woman on the corner who had been implicated. Imagine the thrill when we found the man she was talking to was the man we wanted. It was easy then.

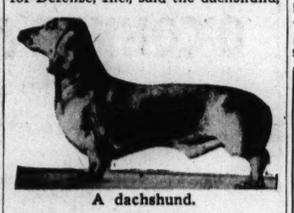

John Warren, 4925 North Rockwell street—I had been waiting in a station for hours trying to spot a confidence man who was supposed to be operating there. I was about ready to give up when a man took me by the sleeve and asked me if I wanted to make some money in a hurry. He was my man, and I gave him the cuffs.

C'EST LA G-R-R! BAR DACHSHUND AS ARMY SENTRY

New York, March 22 (AP).—Two hundred dogs are being trained for army sentry duty here to guard supply depots against spies and saboteurs—and there isn't a rookie dachshund among them.

Harry I. Caesar, president of Dogs for Defense, Inc., said the dachshund,

A dachshund.

which is trained in its native Germany to drag the fox and badger from their holes, is too small for army sentry work.

He paid tribute to the dachshund's audacity, but said the job requires a dog with a bite to match his bark. He declined to say which breed is best but asserted almost any medium sized dog can be trained.

Caesar called upon owners of suitable dogs to volunteer their pets for training, which is conducted by Dogs for Defense.

CRIPPS REACHES INDIA AS CRISIS SPLITS MOSLEMS

Punjab Premier Says He Will Quit Council.

LONDON, March 22 (AP).—Sir Stafford Cripps arrived in India today on his ticklish assignment to win India's full cooperation in the war by offering some sort of formula for Indian freedom.

Sir Stafford Cripps.

The socialistic special emissary reaches India at a critical moment in the British empire's history, with the war already at India's doorstep and with the country's internal political cross currents complicating the problem; but as he arrived there came reports of brightened prospects for the success of his mission.

Sir Stafford and his party arrived from London by seaplane at Karachi and were received at the marine port by the governor of the province of Sind, Sir Hugh Dow. A special plane is to take the party tomorrow to New Delhi, the capital.

Rift Between Moslems.

The improved prospects for success of the Cripps mission were the result, paradoxically, of a rift between two powerful Moslem leaders. This rift was expected in London to better the chances of collaboration between Hindus and Moslems in setting up a national self-government.

Sir Sikandar Hyat Khan, premier of Punjab, informed friends at New Delhi that he intended to resign from the Moslem league's working committee and council. This was promptly interpreted as an indication that he had quarreled with Mohammed Ali Jinnah, president of the All-India Moslem league, and that he and others would henceforth coöperate more effectively with the British.

One report said Sir Sikandar had quarreled with Jinnah specifically on the question of coöperation with the British.

Jinnah's Attitude Vital.

The attitude of Jinnah has been perhaps the greatest of several imponderable factors upon which the success of the mission appears to depend. Sir Sikandar long has advocated coalition with the all-India congress in forming provincial governments. He has not supported Jinnah's demand for separate Moslem states where Moslems predominate over the Hindus.

Some Indian sources in London have been confident that many Moslem leaders have maintained the appearance of unity under the auspices of the Moslem league merely as a means of obtaining the best possible terms in setting up coalition governments.

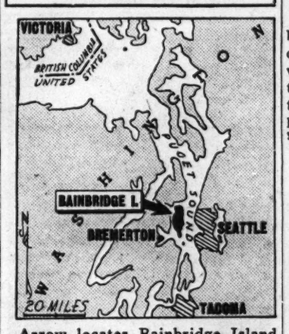

Leader Tours Provinces.

This belief apparently was supported by the New Delhi reports today. It appeared that nonleague and noncongress Moslems were preparing to get together to present their views to Sir Stafford, primarily to advocate coalition governments, both national and provincial.

One report said a prominent Moslem member of the central assembly had left New Delhi on a tour to obtain indorsement of influential Moslems in Bengal, Bihar, the United provinces, Punjab, and Bombay for their program.

There have been reports that Jinnah himself might accept a high office if a coalition national government were formed with the Moslems being given a share of the key positions.

Japs Ordered Out

Arrow locates Bainbridge Island in Puget Sound, where Japanese were ordered evacuated yesterday.

San Francisco, Cal., March 22 (AP).—Forcible evacuation of all Japanese from Bainbridge Island in Puget sound, opposite the Bremerton, Wash., navy yard, was ordered today by the army, effective March 30.

The order, signed by Lieut. Gen. J. L. DeWitt, commanding general of the western defense command and 4th army, was the first compulsory exclusion action taken by the army against west coast Japanese.

Evacuations already under way in southern California and elsewhere are still on a voluntary basis.

Gen. DeWitt's headquarters said some 300 Japanese, including aliens and native born living on Bainbridge Island, would be affected.

TWO AMERICANS SAFE IN FLIGHT FROM HONGKONG

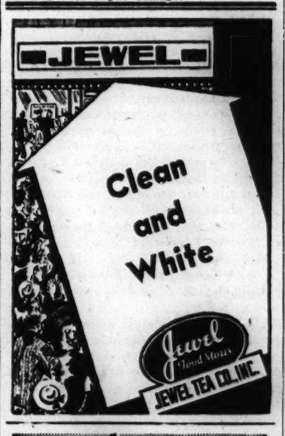

CHUNGKING, China, March 22 (AP).—Two sailors, among the first Americans to escape from Japanese occupied Hongkong, have reached the safety of free China, dispatches to Chungking said today.

The two seamen, whose names were not disclosed, joined volunteers in the defense of Hongkong and fought thruout the Japanese siege of that British crown colony.

They escaped to a small island on Dec. 26, the day after the surrender of the city.

FIRE ON BRITISH FREIGHTER.

New York, March 22 (AP).—A blaze caused by spontaneous combustion broke out tonight in a coal bunker of a large British merchant vessel, anchored in upper New York bay. It was extinguished in 45 minutes with slight damage.

BLACKOUT DEFI CAN MEAN JAIL IN MASSACHUSETTS

Stiff Fines Also Provided Even for Tests.

Boston, Mass., March 22 (AP).—When the blackout signal sounds in Massachusetts, it's lights out or face a year in jail, a heavy fine or both.

Leverett Saltonstall.

It makes no difference whether it's a warning of a real air raid or merely a rehearsal.

That's the edict of the state's civilian defense committee, which is preparing for any eventuality.

Under emergency executive orders issued by Gov. Leverett Saltonstall, fines up to $500 and jail sentences can be imposed—and already have.

Flaunting Not Tolerated.

Air raid wardens and auxiliary police have been empowered even to enter private homes without a warrant to see that the blackout regulations are carried out.

"We mean business," asserts Gen. Daniel Needham, who is head of the committee's protection division. "We can forgive mistakes but when any one flaunts in our face a refusal to coöperate, we accept the challenge as a declaration of war."

At least a half dozen persons—householders and cafe and tavern proprietors—can testify to that, too.

A Boston man told an air raid warden who called his attention to lights: "Cut out the fooling, there isn't going to be a raid."

It cost him $100 and a reprimand from the judge, who declared "we are not going to spend time fooling with people who do not obey orders."

Sentenced to Year in Jail.

A Norwood resident greeted an auxiliary policeman, who rang his door bell to tell him to extinguish his light, "What the hell are you, another one of those air raid wardens?"

An air raid warden and a regular policeman returned a few minutes later and said their warnings again fell on deaf ears.

The householder was sentenced to a year in jail and fined $500—the maximum penalty. He appealed the District court sentence to the Superior court and is under $1,000 bail.

Commented one judge: "I don't know how we are to get going if we don't have tests."

LAUD NAVY DEAD ON SCARRED DECK OF OLD IRONSIDES

Boston, Mass., March 22 (AP). —Rolling gently at her berth on an ebbing tide, "Old Ironsides," the most famous warship in American history, today was the scene of memorial services for the hero dead of the Destroyers Jacob Jones and Truxtun which were lost last month while on fighting duty.

On the same battle scarred quarter deck where many a vanquished foe of yesteryear knelt in surrender, naval clergymen and fighting officers of the present war offered prayers or promised vengeance for the more than 200 officers and men of the two vessels who lost their lives while fighting a new enemy. Flowers were strewn on the water.

The Jacob Jones was torpedoed by a submarine off the Jersey coast, and the Truxtun was wrecked in a raging sou'easter off the rocky Newfoundland shore.

Yost, Bloomington, Kappa Kappa Gamma; Adele B. Kaplan, Chenoa, Alpha Epsilon Phi; Eleanor Miller, Cairo, Delta Delta Delta, and Marge J. North, El Paso, all seniors.

13 Survivors of Australian Sloop Yarra Found on Raft

CANBERRA, Australia, March 22 (AP).—Thirteen survivors from the Australian sloop Yarra, which went down with her guns blazing in the battle of Java, have been picked up from a raft and now are in a British port, Prime Minister John Curtin announced today. The little sloop was sent to the bottom with most of her crewmen while making a gallant but hopeless defense of a convoy against three heavy Japanese cruisers and two destroyers.

REYNOLDS URGES 6% PROFIT, END OF 40 HOUR WEEK

Would Abolish Overtime in War Industry.

[Chicago Tribune Press Service.]

Washington, D. C., March 22.—Sen. Robert R. Reynolds [D., N. C.], chairman of the senate military affairs committee, tonight declared that successful prosecution of the war calls for an outlawing of strikes, suspension of the 40 hour week and overtime pay, and a 6 per cent limit on war profits.

Sen. R. R. Reynolds.

"I dislike very much to take issue with our President and commander in chief, and with Mrs. Frances Perkins, head of the labor department of our government, who have stated that congress should not take any action now in reference to the labor situation," said Reynolds in a statement, but, he added, "We Americans should be thinking more in terms of 'giving' and not so much in terms of 'getting' insofar as our war production program is concerned."

Asks for Unselfishness.

"The paramount need in America today is an unimpeded war production program," he continued. "Maximum production is needed now, and this goal can only be attained by the complete abandonment of all selfish desires on the part of all financial or labor groups. We cannot reach our production peak if certain individuals and groups—financial and labor—insist on the status quo of operation prior to Dec. 8, 1941."

Concerning the current rising sentiment in congress for modification of wage and hour legislation and enactment of other labor legislation, despite administration opposition, Reynolds said:

"I am now ready and willing to vote for legislation to outlaw strikes in defense industries, suspend the 40 hour week, ban overtime payments, and prohibit double time payments, outlaw the closed shop on war contracts, permit any American to work unmolested who desires to aid in the war program without becoming affiliated with any labor organization, and place a 6 per cent maximum ceiling over all war profits for the duration—during the emergency.

"Capital and labor must share equally of the sacrifices necessary to win this great conflict so that they may better enjoy the sweets of victory when it is won."

Sacrifices Are Urged.

The matter of overtime payments beyond a 40 hour work week was debated also on the American Forum of the Air tonight, broadcast coast to coast over the Mutual Broadcasting system.

W. T. Piper, president of Piper Aircraft corporation, said to be the largest producer of light airplanes in the world, told the radio audience: "Our boys in the army and navy get no overtime pay. They too get less for their dollars. When millions of our sons are leaving home to face untold discomforts and possible death it's only fair for us behind to sacrifice something. The least we can possibly do is to cheerfully work longer and harder without seeking special benefits."

L. Metcalfe Walling, administrator of the wage and hour law, repeated the favorite administration argument that the wage and hour legislation does not prohibit working more than 40 hours a week—but merely provides for payment of overtime. He said overtime payments don't restrict war production and don't constitute a financial burden on taxpayers.

Expose New Axis Trick to Get Norwegian Ships

LONDON, March 22 (AP).—Axis orders to all Norwegian ships in the Pacific or Indian oceans to proceed to Japanese held ports were said by the Norwegian government here today to be a new attempt to seize Norwegian shipping. Norwegian sources said the orders were broadcast from Oslo in the name of the Norwegian Shipowners' association and offered "rewards" to seamen who complied.

Roosevelt Sole Arbiter of Where They Go.

[Continued from first page.]

at once. Next month may be a month too late."

Dr. Evatt urged the establishment of a Pacific war council in Washington which would be concerned with the selection of the theaters of war and the allocation of war supplies, by which he meant the division of the product of American war industries. He wanted Australia to have a voice in this council equal to that of any other of the united nations. Under such an arrangement Dr. Evatt thought that Australia would be safe from discrimination by England or any other ally in the division of American war resources.

The President Allocates.

Mr. Roosevelt is and has been from the beginning of the war the arbiter of the allocation of the military resources of the United States. His policy from the start was to furnish American assistance in arms or man power or both to the foes of the axis in every theater of war. Thus it was that he sent American planes, tanks, guns and other arms to Europe, Asia and Africa for which the Philippines and Hawaii were in crying need for American defense. He justified his course with the argument that it was vitally necessary to halt the Nazi attack in each of these theaters of war.

Just how much armament the President diverted from the Philippines and Hawaii to the trans-Atlantic fronts the administration refuses to state. Lord Halifax, the British ambassador, stated that Britain furnished 9,000 airplanes to Russia in 1941 of which 2,000 were obtained from the United States. How many more the United States furnished directly to Russia our lend-lease administration declines to state.

The administration does not dispute the contention, however, that even 2,000 planes distributed in the Philippines and Hawaii would have spelled the difference between victory and disaster on Dec. 7.

Resources Dispersed.

The President sent American naval forces to the southwest Pacific, where they were disastrously defeated in the battle of the Java sea. He sent troops to Australia and to Java, where they were captured, and to Ireland and England where they form the nucleus of the A. E. F. that eventually is to storm the European continent. He also has established a naval base in Eritrea on the Red sea from which to control American participation in the protection of the Near East and has organized the supply of Russia from Murmansk in the Arctic and the Persian gulf on the south.

To the argument that American resources thus are being disastrously dispersed to many far flung fronts instead of being concentrated on the defeat of Japan the President has turned a deaf ear, contending that Hitler must be prevented from gaining an advantage wherever he may strike if the war is to be won.

Ignores Plea for Experts.

Likewise, he has ignored the pleadings of his closest apologists that he delegate war strategy to an expert. Altho he had no battlefield experience in the first World war when 36 years old, Mr. Roosevelt feels that his service as assistant secretary of the navy gave him ample war experience. "I know war," he said in his Chatauqua speech.

The most pointed criticism of the Roosevelt war policy at the moment is being directed against the dispersion of American naval forces that makes it impossible to cope with the torpedoings of tankers and other merchantment off the United States Atlantic coast.

Two months ago, Secretary of the Navy Frank Knox was boasting that the American navy had cleared the Atlantic of the German submarines; menacing shipping around the British Isles. Since Dec. 7, however, 94 merchantment have been torpedoed off our coasts.

Russia, while asking a greatly accelerated volume of arms from the United States, is urging Britain and America to launch an offensive on Hitler's western front. The British are hesitating until there are enough American troops in the British Isles to make the risk worth taking. On the other hand, the United States thinks it would be comparatively easy to defeat the Japanese if the Russians would only come into the war against Japan and make Vladivostok and other Siberian bases available to the United States for the bombardment of Tokio.

There have been numerous conferences between the President and Russian Ambassador Maxim Litvinov on this question but to no avail. Mr. Litvinov explains that Russia has her hands full on the western front and that the Russian people never would tolerate an attack on Japan so long as the Nazis occupy Russian soil.

Likewise, the British are pursuing a policy of Britain first. They are getting all the American arms and troops possible for protection of various parts of the British empire.

Under that agreement the British will be able to offset the lend-lease bill with claims based on the theory that Britain was fighting America's war from Sept. 1, 1939, until March, 1941, when the lend-lease arrangement was adopted. So, it may turn out that America on the final balancing of account will find herself indebted to Britain.

104 Rescued from Sea by Planes

New York, March 22 [Special].—Twenty men came home from the sea today to tell how they and 28 others were rescued from lifeboats in the enemy dotted Celebes sea by a single Dutch flying boat.

The rescue was made on Dec. 31, when the unnamed Dutch pilot sighted their bobbing lifeboats a few hours after their ship, the American freighter, Ruth Alexander, was bombed and sunk by a Japanese plane.

When the Dutch bomber made a landing beside them on the choppy sea many of the lifeboat passengers leaped overboard in terror, believing the Japanese plane had returned to machine gun them.

The Dutch captain announced he intended to attempt a mass rescue. He opened the hatches and dropped his entire bomb load to make room, and he and his crew of six helped the occupants of three lifeboats aboard. A fourth boat had drifted out of sight.

After a terrific pull, the pilot got his craft aloft and searched for the missing boat. It was spotted and the plane came down again. When all had been transferred the bomber was carrying 55 persons—the seven crew members and 48 survivors of the Ruth Alexander. This was the entire personnel of the Ruth Alexander except the cook, who was killed in the bombing.

With its unprecedented cargo the Dutch plane flew the refugees to an East Indies port. They finally reached Batavia, and 20 of them obtained passage on a steamer which took them on a 50 day zigzag voyage to New York.

The Ruth Alexander was a 5,000 ton cargo vessel commanded by Capt. Frederick Willarts. When he arrived at Manila on Dec. 9 he learned of the war. For three weeks he dodged bombers in Manila harbor, then attempted to escape to the Dutch East Indies. After several days at sea, the ship was spotted and sunk by a Japanese bomber, setting the stage for the aerial rescue by the Dutch plane.

LONDON, March 22 (AP).—A great four motored Sunderland flying boat of the RAF has rescued 56 British seamen who were drifting off the African coast after their ship was torpedoed, the air ministry disclosed today.

The pilot, upon locating the seamen, who had been adrift for 16 hours, decided to try to take them all in. He already had aboard his own crew of 12. The big plane roared across the water for a full five miles before it gathered enough speed to take the air.

AN EAST COAST CANADIAN PORT, March 22—(AP).—An allied ship which recently ran aground on the Nova Scotia coast caught fire tonight and burned fiercely.

Take the bull by the HORNS_

FOR thousands of years these simple words have symbolized man's realism in facing troubles, his determination in combating them.

For a hundred years realistic and determined Americans have "taken the bull by the horns" through the medium of life insurance. Aided and advised by skilled life insurance agents, they have built for those dear to them a backlog of security against the unknown future.

And today, as we gird ourselves for a war which will be long and hard, that backlog of family security helps America to maintain the morale so necessary for victory.

navy's patroling has not reached expectations. Skippers have reported seeing only one navy plane in a whole day's traveling off the American coast. The increasing casualties among American seamen are also said to have raised protests that something must be done to correct the situation, else skilled seamen will become scarce along the Atlantic coast.

Since the current submarine campaign the navy has claimed sinking only three submarines in the Atlantic and damaging four more. The army air corps has claimed two successful bombing attacks on subs off the Atlantic coast, and an old American freighter put in its bid last week for credit on sinking a sub with its deck gun after a torpedo had struck.

MUST PRESERVE 2 PARTY SYSTEM, BROOKS ASSERTS

Three Ward Organizations Indorse Candidacy.

BY EDWIN KENNEDY.

Wayland Brooks, candidate for renomination on the Republican ticket in Illinois, declared last night that no matter what turn our war effort may take the people of the United States must preserve the two party system of government to preserve democracy.

He spoke at a testimonial dinner for Joseph J. Arrigo, Republican candidate for associate judge of the Municipal court, in the Midland hotel. He was presented at the dinner with indorsements for his renomination by the Republican organizations in the 11th and 12th wards. He was also informed that the 18th ward Republican organization had indorsed his candidacy earlier.

Face Huge Tax Bill.

Brooks said that the people of this country have not yet felt the impact of the war. "We must face the huge tax bill that will follow our all out effort to produce airplanes, tanks, and ships for the fighting forces," he said.

"Congress has already appropriated or authorized the expenditures of more than 42 billion dollars. Compare this with the last levy of approximately 4 billions in income taxes. We are going to pay the bill and if we discover waste and inefficiency in the war expenditures we have the right to demand that we get a dollar's worth for every dollar spent.

"We must make sure that we do not lose the fight at home while we are winning it at the battle front."

The indorsements of the 11th and 12th wards were announced at the dinner by State Sen. William S. Finucane, committeeman for the 11th ward and chairman of the dinner, and by Hector A. Brouillet, committeeman of the 12th ward. The 18th ward indorsement was announced by George M. Fisher, committeeman.

Resolutions Praise Senator.

The resolutions, similar in tone, stated that Sen. Brooks has carried out all his pledges, has been a loyal, true, and sincere American; has devoted his life to the people of Illinois; has proved his courage as a soldier and as a statesman; came from a line of pioneer Americans, and is best qualified of all the candidates.

Attorney General George F. Barrett, one of the speakers, predicted that the whole Republican ticket would win in the fall.

Many candidates on the city, county, and state tickets attended the dinner. Close to 1,000 persons were present.

'ONE MAN ARMY'S' MOTHER RETURNS, FINDS OWN FAME

Mrs. Clara Wermuth, mother of Chicago's celebrated "one man army," Capt. Arthur W. Wermuth, returned to Chicago last night to find herself almost as famous as her son. She arrived on a Transcontinental and Western Air plane from Philadelphia, where her daughter, Natalie, opens a dancing engagement this week. Mrs. Wermuth is visiting her sister, Mrs. Richard Lorenz, at 2549 Lunt avenue.

The hero's mother said she is "mighty proud" of Capt. Wermuth, who was credited with killing 116 Japanese while fighting in the Philippines with Gen. MacArthur when last heard from on Feb. 13. Mrs. Wermuth has had no letters from him, and altho she has been in Washington with her daughter for some time she said she had not bothered the war department by asking for news of him.

She said: "I want to thank THE CHICAGO TRIBUNE a thousand times for sending me his picture." This was a color picture by Frederic Mizen, Chicago artist, which was published March 2. It was sent the hero's mother in Montreal, Que., where she had accompanied her daughter on a dancing tour.

Army and Navy Nursing Work Will Be Explained

A patriotic rally at the Grant hospital nurses' residence at which student nurses from half a dozen north side hospitals will learn of the opportunities offered by nursing in the army and navy, will be held tomorrow evening. The rally is sponsored by the Chicago chapter of the American Red Cross in conjunction with the navy. Entertainment by a detachment from the Great Lakes Naval Training station and by the nurses will be furnished.

The three were captured after a long automobile chase by Park Policemen Matthew Ryan and Albert Buckley Saturday at 79th street and Ashland avenue, with the assistance of Policeman John Major of the Gresham station. The parolees had in the car a safe which they had taken in a holdup at the Chicago Motors, Inc., automobile saleroom, 8106 South Halsted street. The safe, which was open, had contained $259 cash and more than $1,100 in checks.

Police said the parolees also had taken $191 from Manager Irving Luke, but only $90 was found in the car.

WILEY B. GARVIN AGAIN CONTESTS FOR SCHOOL JOB

Mascoutah Man Seeking G. O. P. Nomination.

[This is another in a series of informal sketches of major candidates for state-wide nominations at the April 14 primary election. The offices to be covered are superintendent of public instruction, congressman at large, state treasurer, and United States senator.]

BY PERCY WOOD.

Illinois schoolmasters enter the political picture only quadrennially, when a new state superintendent of public instruction is to be elected. In general, the party bosses don't pay much attention to this job since most of the patronage is distributed among persons in the educational field, so the teachers can fight it out among themselves.

Wiley B. Garvin.

This year the race for the Republican nomination at the April 14 primaries has attracted three major candidates, and of them Wiley B. Garvin of Mascoutah probably is best known since he was the nominee in 1938.

Schools' Head 10 Years.

Mascoutah, a town of about 2,300 population, lies far down in southern Illinois. For the last 10 years its citizens have been content to have their school system directed by an energetic, smiling little superintendent—Garvin—who has 22 years of teaching behind him, ranging from the traditional country school to professorial rank on a small college faculty—at McKendree, in nearby Lebanon.

Four years ago Mascoutah made quite a fuss when their head schoolmaster was nominated for a state job, and gave him a banquet. He had no primary opposition, it was true, but such distinction does not often come to Mascoutah.

If he wins again on April 14 they'll really have something to celebrate, for this year the nomination isn't going to be handed out on a silver platter, since two other superintendents—Vernon L. Nickell of the Champaign schools and W. C. Handlin of the Lincoln Community High school—are candidates against Garvin.

Only Candidate in District.

This fact doesn't appear to worry him a great deal, but he has evolved a little sectional campaign of his own to make his fellow "Egyptians" conscious of his candidacy. He has gotten up a dodger calling attention to the fact that he is the only candidate for a state office in 47 of the southern counties, which territory, he insists, deserves a voice in the government at Springfield. Garvin seems to think pretty well of his idea, and more experienced politicians admit that he may get a good response to it at the polls.

Garvin was born on a farm near Pittsfield, in Pike county, 48 years ago. He holds bachelor's and master's degrees from the University of Illinois—where he sent his two sons. Mrs. Garvin also has had advanced work in education.

HERE ARE THE FACTS ON WHAT THE RECENT WPB RULING ON CLOTHING MEANS TO YOU!

There have been a lot of stories making the rounds lately about how strange men

are going to look in the new "Victory Models." Newspapers, magazines, and newsreels have talked about—and pictured —men wearing suits with no lapels, suits with extremely short coats, suits with skimpy trousers, etc.

Our answer to all such propaganda is just this: **NO IMMEDIATE CHANGES OF ANY IMPORTANCE ARE GOING TO TAKE PLACE IN THE STYLING OF MEN'S CLOTHING!**

IN THE FIRST PLACE the order only affects clothing *manufactured after March 30th!*

In other words—because we have to plan about 6 months ahead, all of the clothing that we have in stock for spring and summer was ordered—*and tailored*—months ago—and it is absolutely no different in design than the clothing we've been showing this season, last season or the season before.

ACTUALLY, *the only thing that will happen to the clothing you buy from us after March 30th is that the trousers won't be styled with cuffs:*

You'll agree with us, we're sure, that a change as insignificant as this isn't going to cause any great hardship. After all, dress clothes never have had cuffs, and cuffless trousers for regular suits have often been an accepted style in the past.

THE OTHER POINTS covered in the WPB ruling—namely that coats will be shorter (by only half an inch, however), that double-breasted suits will be vestless, that there can be no more two-trouser suits and that trousers cannot have pleats, apply exclusively to clothing *made* AFTER March 30th . . . and, we repeat, such clothing, for the most part, won't be available in our stores until early next fall!

AFTER SEEING THE DETAILS OF THIS RULING IN BLACK AND WHITE, THERE'S REALLY NOTHING TO WORRY ABOUT... NOW IS THERE?

In conclusion, we urge you to remember this: no matter what happens Hart Schaffner & Marx clothes will continue to be the best available in quality, fit and good looks. This has always been true of these famous clothes regardless of the times—and it will hold true as long as Hart Schaffner & Marx are in business!

U.S. TAKES OVER OPERATION OF PEORIA RAILWAY

McNear Is Stripped of Management Power.

BY ROBERT CROMIE.

[Chicago Tribune Press Service.]

Peoria, Ill., March 22.—The federal government tonight at 6 p. m. took over operation of the Toledo, Peoria, and Western railroad, whose president, George P. McNear Jr., had rejected demands to arbitrate a strike which has crippled operations of the road since Dec. 28.

J. W. Barriger.

J. W. Barriger, associate director of the Office of Defense Transportation, who is federal manager of the road, arrived with eight other representatives of the government and met with McNear in the offices of John Elliott, T. P. & W. attorney.

Barriger later said McNear had been "cooperative and gracious thruout it all."

Acts on Roosevelt Order.

He said he had been sent to carry out terms of an executive order, issued yesterday by President Roosevelt, authorizing government seizure and operation of the railroad.

He added that McNear would remain as president of the road, and that his salary "was a matter between McNear and the corporation."

He said title to the road would remain with the company, that revenues received from operations would accrue to the federal manager, and that a table of compensation for the railway would be worked out later.

Return of Road Promised.

He added that the road would be returned to McNear's control "when the labor dispute is settled to the satisfaction of all parties."

Barriger's order officially taking over the road, handed to McNear at 6 p. m., read in part:

"I do hereby take possession of and assume control over all real and personal property, franchises, rights, and other assets, tangible and intangible, of the Toledo, Peoria and Western railroad.

"I shall operate or arrange for the operation of said railroad in such manner and through or with the aid of such public or private agencies as may be necessary for the successful prosecution of the war. In view of the war emergency, all officers, agents, and employés of said railroad, all of its shippers and connections and the public generally are urged to give me the greatest possible degree of coöperation."

Executives to Keep Jobs.

Barriger said he invited all the operating officials except McNear to join the staff of the federal manager in the same capacity in which they have been employed. McNear will have no operational duties.

Barriger said he would set up offices in the Union station, where the T. P. & W. offices are located. Barriger, a former railroad official and former chief examiner for the railroad division of the Reconstruction Finance corporation, said he would remain on the ODT pay roll.

He explained that, on instruction from Joseph B. Eastman, ODT director, all strikers, "with certain exceptions," would be returned to their jobs under the working agreement which existed prior to Dec. 29, when new rules which led to the strike went into effect.

Two to Face Trial

Barriger said the exceptions are those strikers accused of violating a federal district court injunction against violence, including two who are to go on trial tomorrow, with an official of one of the striking railroad brotherhoods, on a contempt citation in connection with an alleged conspiracy to dynamite a T. P. & W. bridge.

Accompanying Barriger to Peoria were:

George Voelkner of Chicago, a member of the ODT railway transport division, who will be chief assistant to Barriger. Voelkner is former general manager of the Lehigh Valley, Chicago Belt, and Chicago and Western Indiana roads.

Otto Beyer, director of the ODT personnel bureau, and Hallam Huffman, assistant general counsel for the ODT, both of Washington.

William Hough, Chicago, of the accounting division of the Interstate Commerce commission, and George S. Douglas and Lawrence H. Allen of Washington, both of the valuations section of the ICC.

Also with the party were Col. Harold T. Weber and Maj. Norman H. Davis Jr., who described themselves as liaison officers of the 6th corps area, sent in by Maj. Gen. John M. Cummins, corps area commander. They would not comment on their duties.

STUBBORN? WIFE ASSERTS M'NEAR JUST PERSEVERES

Recalls Rail President's Battle Upward.

BY ROBERT CROMIE.

[Chicago Tribune Press Service.]

Peoria, Ill., March 22.—The most unusual press conference of the 83 day strike against the Toledo, Peoria and Western railroad was held last night at the request of Mrs. George P. McNear Jr., wife of the president of the little road whose seizure had been ordered by President Roosevelt.

George P. McNear Jr.

Mrs. McNear, nervous and embarrassed, sat in her living room and told news men—with frequent references to a sheaf of penciled notes—that her husband's actions thruout the strike were dictated by principle and that his refusal to arbitrate the dispute was actuated by his belief that he was in the right.

Mrs. McNear, whose 40 odd years have softened what once was flaming red hair, was upset by reports that many persons in Peoria regard McNear as stubborn.

He's Persevering, She Says.

"If you like what some person is doing you call it perseverance," she said. "If you don't like it, you call it stubbornness. George is persevering."

In proof she told how, when McNear was turned down for a commission in the army engineering corps during the World war because he lacked practical experience to fill out his university training, he took a job as a section hand and later was commissioned a first lieutenant.

When he returned from France and found that the engineering concern for which he had worked was in bankruptcy, he turned down a $5,000 a year job with another concern to enter the training school of a New York bank at $100 a month.

"George always had wanted an engineering firm of his own, but he knew nothing of financing," she related. "When he found the firm he worked with out of business he decided the engineers did all the work and the bankers got all the money. So he studied banking."

Studies in Bank Described.

She told how hard McNear studied at the bank and how she complained because he didn't take her out much.

"I was young then," she said.

And she told how he got a job in the financing rather than banking division of the business after finishing his course and later refused offers of a transfer to Paris or a job in the advertising department at increased pay, because his heart was set on learning what he had begun to learn —finance.

Finally a customer of the bank offered him a job at $10,000 a year—twice what the bank was paying—and McNear, to Mrs. McNear's horror —turned it down. He told her:

"If Newman [who made the offer] thinks I'm worth that much to him I ought to be worth that much to myself."

So he opened his own office as an expert in mergers and reorganizations.

It was at this time he began looking for a railroad to put on its feet. He found the T. P. & W.

"He saw no reason why it couldn't be made to pay," she said.

"There's a story that he walked from one end of the road to the other —that's colorful but untrue. But he did ride the line and talked with conductors, engineers, and the men in the shops."

The road finally was ordered sold in bankruptcy, and McNear, who failed in attempts to obtain New York backing, sold all his securities and went to Chicago to seek further backing to raise funds. The sale was held and Mrs. McNear received a telegram: "Bought road for one million three. Love, George."

McNear made a down payment of $65,000, which was 5 per cent of the purchase price.

The rest of the story is well known. He got the backing, altho he himself still is the principal stockholder, and since the final months of 1926, the year he bought the T. P. & W., the road has been in the black.

CRIME REDUCED, COURT RECORDS FOR 1941 REVEAL

Convictions on Increase, Statistics Show.

BY JAMES DOHERTY.

Police, coroner, and criminal court statistics for 1941 officially and emphatically stamp Chicago as a metropolitan city of decreasing crime and increasing convictions, the Chicago Crime commission announced yesterday in connection with figures showing the disposition of cases in the criminal court.

The announcement was based on a report by Rudolph W. Dvorak, assistant operating director of the commission, who found that the percentage of Cook county criminals sent to penal institutions has increased. Dvorak, however, said there has been a growing tendency to try defendants on lesser charges than made in the indictments.

Down After Prohibition Repeal.

Records of the Criminal court for the past 20 years were cited by Dvorak to supplement other figures showing that crime had been reduced greatly in Chicago since the repeal of the prohibition laws in 1933.

Increased efficiency of the police has resulted in the apprehension of a far greater percentage of criminals than ever before, Dvorak said, but the number of Criminal court defendants grows less.

A table prepared by Dvorak shows by years the number of persons whose indictments were disposed of, the number sent to the penitentiary, number sentenced either to the county jail or house of correction, the number of persons found guilty but granted probation, and the number found not guilty either by judge or jury.

Statistics for 20 Years.

The table follows:

Year—	Defendants.	Penitentiary.	Jail.	Probation.	Not guilty.
1922	4,244	717	678	493	701
1923	2,774	455	407	310	398

*Two months of 1942.

During the nine years from 1933 to 1942 the number of persons sentenced to prison was given at 9,382, or 40.6 per cent of the defendants who faced judge or jury in the Criminal court. The percentage for 1941 was 42.5.

The percentage of not guilty verdicts or findings has grown less, it was shown. In 1933 the percentage was 21.9. Last year only 12.8 per cent were found not guilty. The average for the nine years was 14.9 per cent found not guilty. Dvorak pointed out.

BOY, 12, WHIPPED WITH SWATTER, KILLS HIS FATHER

Athens, Tex., March 22 (AP).—Sheriff Jess Sweeten said that David Waldo Rogers, 12 years old, killed his father yesterday and wounded his sister because he had been whipped with a flyswatter.

The father, G. M. Rogers, 69, was shot in the back of the head with a rifle as he sat milking a cow. The sister, Helen, 9, was shot in the chest when she tried to grab the gun from her brother.

Second Negro Dies of Gun Wounds Received in Fight

Thomas Rochford, 24 years old, a Negro, who lived at 3218 South Wabash avenue, died yesterday of wounds received Friday in a tavern at 2901 South State street, when he was shot by the bartender, Sam Miller. William Phillips, 21, of 2970 South State street, also a Negro, was killed outright by Miller. Reports to police Friday night were that Rochford, Phillips, and James Hampton, 21, Negro, of 24 East 30th street, had a fight in the place.

SHIPS OF THE NAVY—II.

Today's article continues a description, begun yesterday, of the vessels of the fleet, as follows:

Destroyers—These are the all-around vessels of the fleet. Their speed, cruising radius, and armament make them able to harass or destroy an enemy vessel, large or small. One of their main weapons is the torpedo, with which they can destroy enemy combat ships or merchant ships. They are equipped with underwater listening devices to locate submarines on which they loose deadly depth charges. They perform important missions in convoying troop or supply ships. Anti-aircraft guns and heavy caliber machine guns aid in protecting them and their escorted ships from air attack. The crews of these vessels number between 100 and 200 men.

Submarines—These are vessels of many uses. With the torpedo as their primary weapon, they can lurk beneath the waves and send their deadly missiles at unsuspecting enemy ships. Defensively, they can be used to plant mine fields and to patrol ports and coasts. They also are able to get within close distance of hostile ports and fleets to obtain important information as to the movement of the enemy. Their complement is between 45 and 90 men.

Other ships of the fleet are the motor torpedo or mosquito boats, mine layers, mine sweepers, gunboats, and submarine chasers which are employed for the important job of guarding our coasts and harbors.

The "train" of the navy, composed of noncombatant vessels of various types, supplies and maintains the fighting vessels of the fleet. The train includes aircraft, destroyers, and submarine tenders. These boats are floating shops, able to perform almost any type of repair work at sea. There also are store and cargo ships, oilers and transport ships, tugs, and ammunition ships.

QUESTIONS.

S. N. writes: "I expect to receive my draft classification soon, and friends tell me I will be turned down for active service because of ½ hernia. Is this true?"

ANSWER: It will prevent your being classified as 1-A [qualified for general active military service]. If your hernia is operable, you will be classified as 1-B [fit for limited military service only]. If your hernia is inoperable you will be classified 4-F [physically unfit for any military service].

Mrs. H. G. H. writes: "My husband has been classified as 4-F because of chronic nephritis. Is this a permanent classification or is he liable to be called for subsequent examinations for the purpose of reclassification?"

ANSWER: Deferments cannot be given for longer than six months at a time. Every six months your husband's case will be reconsidered, and if his condition has not been corrected he will receive another deferment. There is no limit to the number of deferments granted.

Third Member of Family Goes Into V. of F. W. Post

Fireman First Class Carl Anderson, 20 years old, of 14744 South Hamlin avenue, Midlothian, yesterday became the third member of his family to join Post 2580 of the Veterans of Foreign Wars. Anderson is home on furlough after many months with the navy in Iceland. Other members of the post are his father, Fred, who served in Cuba during the Spanish-American war, and his brother, Ralph, 23, an army cook.

WOMAN SLATED FOR TRIAL TODAY IN ABORTION CASE

Mrs. Ada Martin, accused head of a loop abortion ring, is ready for trial today in the Criminal court of Judge John F. Haas, her attorney, W. W. Smith, announced yesterday. Mrs. Martin, whose daughter, Ada Jane, was slain a year ago by Policeman Daniel Moriarity of the state's attorney's office, is under indictment on a charge of conspiracy to commit abortions. Her receptionist, Josephine Kudler, is named as co-defendant.

Mrs. Martin's downtown office was raided by detectives following the shooting of her daughter in the Martin home at 4367 Lake Park avenue April 29, 1941. Moriarity told State's Attorney Courtney he intended to kill Mrs. Martin and shot her daughter by mistake. The policeman confessed to having received bribes from the abortion ring of which he said Mrs. Martin was the head. He was sentenced to life imprisonment and is now in prison.

Mrs. Martin's case has been continued many times. Attorney Smith says she is seeking no delay and expects to be freed of the charges against her. Assistant State's Attorney Gordon Nash announced that the state is ready for trial subject to the will of Judge Haas.

FOUND DEAD IN GARAGE.

Anton Marcin, 62 years old, 4500 South California avenue, was found dead, apparently the victim of carbon monoxide poisoning, on the floor near his truck in the garage in the rear of his home yesterday.

Committee to Begin Plans for Youth Week

Plans for celebration of Chicago's 21st annual Youth week will be formulated at the first meeting of the committee in charge tomorrow. Youth week will be celebrated April 20 to 27 inclusive. The city-wide celebration will have the coöperation of 125 civic, service, religious, and business organizations. Maj. John L. Griffith is chairman this year.

On February 13, Donald M. Nelson, Chairman of the War Production Board, and Jesse Jones, Secretary of Commerce, issued the following statement:

"The rubber that we have today, plus the rubber that is on its way and the rubber that we shall eventually make in our new factories, is all the new rubber we can count on at this time. There is about enough to enable us to complete our great armament program—but there is not going to be any to spare. Unless we restrict all civilian use of rubber to bare essentials, we shall not have enough for our military machine for the next two years."

WHEN THE PRESENT TRUCK TIRES USED BY RETAIL STORES ARE WORN OUT, THERE WILL BE NO MORE

To conserve this supply as long as possible, and so extend the period of time during which customers may continue to receive essential service, the Retailers' War Policies Committee of the Cook County Retail Council, on February 5, appealed to the public to aid in the conservation of tires and trucks, by carrying small packages and avoiding unnecessary returns. Certain limitations were also placed upon telephone and mail orders, special deliveries and C.O.D. orders. In some areas, deliveries were restricted to three a week.

The public's response to these restrictions has been gratifying, but it has become obvious in this trial period of six weeks that truck mileage is still too great and that further curtailment is necessary. The Retailers' War Policies Committee, which represents a large percentage of the stores in this area, therefore announces that . . .

Beginning Wednesday, March 25th, further curtailments will be made in delivery services. Individual stores, or groups of stores, will announce their own schedules.

We again appeal to our customers TO CARRY THEIR OWN PACKAGES whenever possible—to avoid unnecessary returns and exchanges, and to help us in all other ways to save rubber, gasoline, equipment and materials.

Of the gentle art of calling names!

If you have traveled on the 20th Century Limited more than once or twice, the chances are that the train secretary will greet you by name when he meets you on board.

His carefully maintained Train Register makes it possible for family, friends, or business associates to reach you at all times en route

A trifling detail? *Granted!* But the kind of friendly, *personal* touch that makes travelers as much at home on the Century as at their favorite club.

And few clubs are more distinguished than the Century, either for the company that surrounds you or the service you receive.

The incomparably comfortable and restful trip, for which the Century is known, is doubly welcome today with the strain of business so severe. Perhaps that is why more and more men of management agree: *"It pays to ride the Century!"*

"Our Country! In her intercourse with foreign nations may she always be in the right; but our country, right or wrong."
—Stephen Decatur.

THEY WANT US TO PRAISE INCOMPETENCE.

Well informed observers in Washington—among them Mr. David Lawrence—were forecasting an offensive last week. They were talking not about a military operation against the country's enemies but about a campaign of vilification directed against those Americans who have ventured to demonstrate that the conduct of the war to date leaves much to be desired.

No attempt was to be made to refute the evidence of incompetence in the higher reaches of the burocracy. Instead, those who have exposed evils and sought their correction were to be accused of dividing the nation, hampering the war effort, aiding the enemy, etc., etc. Such an attack was calculated to divert public attention from the deficiencies of the administration.

This is an old game which sometimes works. As many a shyster has said, when the case for the defense is weak it's a good idea to denounce the prosecution. The forecast that this would be the line taken appears to have been correct. Spokesmen for the administration have already started upon their course of denunciation and have directed much of their fire upon THE TRIBUNE.

Among those who have joined in the hue and cry is the New York Herald-Tribune, which might have been expected by those who don't know very much about the Herald-Tribune to show better sense. That newspaper says that we are blanketing "great areas of the middle west with every sort of suspicion of the government" and asks its readers to believe that we have hampered the prosecution of the war.

The proprietor of the Herald-Tribune didn't bother to inquire into the facts. Had he done so, he would have found that the area in which THE TRIBUNE is the dominant newspaper is in the forefront in enlistments, in subscriptions to government loans, and in every other significant aspect of the war effort—the place the middle west has always held in times of national danger.

The people of the middle west do not have to be hornswoggled into loyalty to their country. They are strong enough in their faith to hear the truth. They know that the succession of reverses which began with Pearl Harbor has its causes and they want to know what is wrong because only that knowledge can prevent further disasters.

We are in a war and the vast majority of the people of the middle west—and no doubt of the rest of the country as well—know that for Americans it is an American war. It is going to be fought to a victorious end for the good of America and not for any other country. Some few people do not share this view. Along the eastern seaboard, in particular, there are a number of millionaires with sisters or daughters married into the British aristocracy, who appear willing to sacrifice this country to the land of their choice. Prominent among them is the proprietor of the Herald-Tribune. His sister is married into the British aristocracy and his mother spent most of her declining years in England.

The seaboard millionaires don't care what happens to Australia because there isn't a society person to be found in the whole continent. Hawaii is likewise of small consequence in their thinking because it is inhabited by the descendants of missionaries. Western Canada deserves no particular attention because it is peopled by commoners and even our own west coast can be forgotten because it does not contain a single earl's brother-in-law.

The Herald-Tribune is a hyphenated newspaper in more than the typographical sense. Its patriotism is diluted with sea water. Because of that fact, it can join in the abuse of those who are single-minded in their devotion to America.

THE STOCK MARKET.

The thrilling news last week that Gen. MacArthur, on orders from President Roosevelt, had broken thru the siege of Luzon and landed in Australia produced the best market rally in stocks since Pearl Harbor. The rise in prices was an expression of the uplift in the spirits of the nation. Again it was seen that stock prices do not result merely from the capitalization of earnings; national morale has an important bearing upon the quotations.

The MacArthur rally seemed to be over by Wednesday and the Dow-Jones average of 30 leading industrial stocks fell back by the end of the week to within a point and a quarter of the previous week's close. Not since the middle of March, 1935, has a two weeks' average of stocks been as low as in the fortnight which ended last Saturday. Stocks are now selling for about half of what they were at the postdepression peak of 1937. They are not materially above the region to which they retreated after the postmoratorium boom in 1933. They are close to the level at which buying came forth on two occasions in the last nine years.

While stocks in New York have been dropping in the last year, stocks in London have been going up. During January the index of the London Financial Times was higher than at any time in 1939, before the war started. London prices are now nearly 50 per cent higher than when France fell in June, 1940, while New York prices are down 9 per cent in the same interval. British quotations are up 12 per cent from a year ago at this time, American quotations are down 20 per cent. Since September, 1939, our market prices have fallen by one-quarter and British market prices have gone up by one-quarter. We are in the same boat as the British, but our markets are decidedly weak while theirs are strong.

There is one other interesting comparison. From the peak reached on Nov. 21, 1916, before we got into the other war, stocks dropped 40 per cent before touching the bottom for the war period. The drop which has taken place since the peak for this war has so far amounted to a maximum of 37 per cent.

The fact that prices have dropped to levels from which advances have started in the past, the fact that stocks in the market of our ally have turned the corner and had a material advance, and the fact that stocks have dropped about as much as they did at the worst in the World war do not mean that the market is a buy. If, however, the market does not begin to improve soon it will be clear that our economic dislocation is unprecedented in our own experience and is greater than has been experienced by the British. The morale of investors is manifestly low, but this does not keep them from registering joy when there is such good news as we had last week when it was announced that MacArthur had landed in Australia ready for business.

MacARTHUR TO AMERICA.

Gen. MacArthur, on his arrival in Melbourne, spoke to the Australian people, but his words were addressed as well to us in America.

"No general can make something from nothing," he said. "My success or failure will depend primarily upon the resources which our respective governments place at my disposal. My faith in them is complete. In any event I shall do my best. I shall keep the soldier's faith."

No general can make something from nothing. Gen. MacArthur should know, for he came as close to that impossible achievement as is humanly possible. Bataan is an epic equal to any in our history, but there need have been no Bataan had the Philippines had an adequate air force, one too strong and numerous to have been overwhelmed after a few gallant exploits by Capt. Kelly and his comrades. Had MacArthur had the planes, the Philippine story could have been one of massacres of the Japanese on the invasion beaches and aboard the transports instead of a record of skilful withdrawals and dogged resistance by the Americans and Filipinos.

We must not repeat the mistake. We have staked our military reputation and national honor in Australia. The nation expects the administration to act accordingly, to speed every weapon that can be spared, by every available ship. Gen. MacArthur's words make it clear that the lack of equipment is grave.

Every American is taking part in the battle of Australia. An extra part on every shift from every machine in every shop, an extra ton of steel every day from every furnace, a few minutes trimmed off every freight schedule, a few more tons crammed into the hold of every ship—that is our task.

No general can make something from nothing. It is our task to see that Gen. MacArthur has something, that the tragedy of too little and too late is not enacted again.

WOOL.

Dr. Milton Harris of the Textile Foundation reports that research revealing the molecular structure of wool has progressed to a point where the durability of wool may be quadrupled by processing and the manufacture of synthetic wool is now feasible. If the scientific strides are as great as represented, we shall gain greatly not only in civilian uses of wool but in our war effort.

Dr. Harris' statement came as a textile expert, Alexis Sommarippa, was telling a house military affairs subcommittee that to a great degree Hitler's defeat in Russia this winter was caused by lack of wool. Because the Nazis had insufficient stockpiles to provide warm clothing for their soldiers, they were forced to blend wool and rayon. The product lost resilience and warmth and the rayon, because it absorbed water, quickly froze in the bitter winter weather. Sommarippa said that military demands on our own wool supply were so great as to indicate the necessity of blending for civilian uses.

Already the demands have resulted in the order to eliminate the extra pair of trousers from civilian suits, the vest from double breasted suits, and trouser cuffs. All of us can accommodate ourselves to these regulations, but perhaps time will show that they can be relaxed.

Last week we entered a lend-lease agreement with Australia which provides for mutually advantageous swapping of goods and commodities. Australia is the world's leading wool grower, producing one-fourth of the world output. Our ships in ever increasing numbers are to take troops, planes, tanks, guns, and other war materiels to Australia. Rather than have the vessels make the return trip light could we not consider using the available cargo space to bring back raw wool which Australia could place at our disposal to help us meet our greatly increased requirements?

SPOTLESS CHARACTER.

The International Alliance of Theatrical Stage Employés has tightened up eligibility requirements for officers. As drawn, the new constitutional provision bars anybody who has served more than one year in the penitentiary. This, it is explained, will not concern Sam Kaplan, business agent of local 306, who did six months in Sing Sing. It would not have barred Willie Bioff, the pander, who belatedly served a short hitch in the Cook county jail, if Willie had not followed that up with extortion, which will put him away for more than a year. George E. Browne, the former international president, is in the same fix as Willie, and Nick Circella, or Dean, the old Chicago stickup man, presumably also won't get off with less than a year. The IATSE has drawn a nice distinction between degrees of sinning.

Editorial of the Day

KEEP PUNCHING.

[Memphis Commercial Appeal.]

Reports from here, there, and everywhere in the United States are that mounting thousands of American citizens are sitting down, taking pen, pencil, or typewriter in hand, and writing letters to the members of Congress. These plain folks are saying just about the same thing: namely, that they want Washington to wake up and realize that there is a war on. They want strikes and lockouts stopped. They want an end to federal boondoggling. They are tired of seeing their money wasted by do-gooders who are chasing the phantoms of social gains. They are weary of doubledomes, highbrows, bleeding-hearts, and educated fools in places that call for men with the God given gift of common sense polished and improved by days and years of hard work and practical experience. To all these folks we say: "Keep punching. Your fight is a righteously patriotic one, and, unless you win it, the United States can lose this war."

THE AUSTRALIAN LANGUAGE.

The form of English in common use among our allies of Down Under is often called Austrylian because its pronunciation has been strongly affected with characteristics of London's cockney dialect. In fiction and the drama a typical Australian of the lower middle class always turns the long "a" into "ai" or "y."

* * *

The Australian folk-speech contains certain expressions that are as native as the kangaroo, and American soldiers will return from the war to sow these antipodean weeds in the rich field of our own slang. "Bonzer" and "dinkum" are already in the unabridged Webster; the war will probably release them from the bondage of scholarship and make them available for taxi drivers and stenographers.

* * *

When anything is excellent, first rate, swell, just ducky, or the nuts to us, it is "bonzer" to an Australian. The word is believed to be a corruption of "bonanza," and dates from the period when Australia's chief industries were gold digging and bushrangering.

* * *

"Dinkum" is another glory of Australian speech. It is an adjective meaning genuine, honest, reliable, fair, square, and also an adverb meaning truly and honestly. When an Australian wishes to make a listener believe he is speaking the truth and nothing but the truth, he will close his remarks with, "That's fair dinkum." . . . The word seems to come out of the pigeon English spoken to and by the "blackfellows."

* * *

Common also in the mutterings of Australian tough guys is the monosyllable "ta." It means "thanks." Such characters, says Edgar Miller, the Chicago artist, who spent a few years of his youth in Australia, can also say a great deal with grunts.

* * *

"The bush," now widely spread among the British commonwealths and colonies, is an Australian contribution. It refers to the vast arid regions of the interior, covered with low scrub growths. Americans of the pioneering period had a densely forested wilderness to deal with, and called it "the backwoods." In current American slang, "bush leaguer" is our principal bow to this Australian tradition.

TO A YOUNG PIANIST.

And these two hands that have within their grasp
The wizardry to speed a winged note,
Must hold a rifle now with rigid clasp
And learn to loose the death-cry from its throat;
How strange that he, whose fingers loved to sing
The old and treasured songs set down by pen. . . .
That thrilled to spenk of love, and life, and spring
Must silence now the songs of other men!

He smiles, "It is my country's voice I hear,
The land that gave me dreams and made them live,
And when she calls in anguish and in fear
I'll answer with the best I have to give.
What tho my hands grow stiff and lose their skill
As long as freedom's music echoes still!"

Louise.

Little Brown Brothers at the Fair.

To explain the background of the Igorotte Village and its career among American sideshows:

There was an extensive Philippine reservation at the Louisiana Purchase exposition in St. Louis in 1904. It occupied some 30 acres in the southwestern corner of the grounds and was approached by a bridge across Arrowhead lake, a large body of artificial water. The bridge was a copy of that over the Pasig river at Manila, and patrons entered a walled city, complete with barracks and a reproduction of the Manila cathedral.

Over 1,000 Philippine constabulary drilled daily on the parade ground within this walled city. On Arrowhead lake was a large village of Samai Moros, who built their houses over the water, sailed their outriggers and paddled their dugouts. Copper-colored boys dove for tourists' pennies.

Other tribes living in approximations of their native habitats included a large number of Visayans, Lanao Moros, Bontoc Igorrotes, Tinguianes from Northern Luzon, and tree-dwelling Moros. The entire reservation numbered close to 2,000 Filipinos, including their sultans and dattos. The reservation included a large administration building facing on the Plaza Santa Cruz, and extensive agricultural buildings constructed of native timber and thatch.

There was discussion regarding the depredations made on the city dog pound on behalf of the Igorrotes, and I can remember one day, as a curious boy, watching members of this tribe at their noonday meal. One of the natives looked at me, grinned, lifted the cover of a pot, and there—unmistakably—was a fox terrier's head.

PROMISE OF SPRING.

The mournful trees
Stood row on row
In their black frocks
But one bent low
And in an eager
Longing voice
Whispered to me
Of the new green gowns
The tailor, Spring,
Was fashioning
And bringing soon,
"O, very soon," it breathed.

RED AND INFLAMED EYES.

RED and inflamed eyes are common. In fact, catarrhal conjunctivitis is seen by our ophthalmologists more often than any other disorder. The ailment is no respecter of age. Young and old alike may be afflicted.

For the most part, the conjunctiva and adjacent structures bear the brunt of the attack. The former is a thin membrane which lines the lids and covers the anterior portion of the ball. This mucous surface, altho not so frequently infected as that of the nasal passages, may be involved in many instances. Well known causative organisms include the pneumococcus, the streptococcus, and the staphylococcus.

What happens? Inflammation in some other part of the body may communicate itself to the optics. For example, an abscess within a sinus, or a pocket of pus at the root of a tooth may so lower resistance that any one of several microbes may be invited to grow in the vicinity of the organs of vision. In addition, if there is a drop in nutrition because of improper food or lack of rest, anemia may develop and start the ball rolling.

Particularly at this season of the year, when shrubs and trees put forth their blossoms, certain allergic forms may appear. This means that there is a reduction in the stamina of the tissues of the eyes. In consequence, they are more susceptible to irritation. Then, too, we must think of smoke and dust as starters.

The term "pinkeye" is apropos. Furthermore, the patient may complain that when he awakens in the morning he cannot open his eyes. This is explained by the fact that the mucouslike secretions have glued together the borders of the lids. As a rule, there is little pain. The chief sources of distress have to do with scratchy sensations as tho a particle of dirt were interfering with winking. Instinctively, the victim will shun bright light.

Acute cases will last from two to eight days, often terminating abruptly. Unless something is done, however, the condition may settle down into a chronic state, hanging on for months.

In addition to keeping the area clean, the reserve should be raised with more rest. Some mild antiseptic, prescribed by the physician, may be employed. Saturated boric acid solution will be beneficial.

During the acute stage, strain must be avoided. In other words, reading periods may be limited and close work should not be attempted, at least for a few days.

But cleanliness is the main consideration. An excellent eye wash, and one that may be used as a preventive, is composed of a half dram of common salt, the same quantity of baking soda, of boric acid, and glycerine. These four ingredients are added to a pint of distilled water. When used with an eye cup or dropper, the ensuing flushing will help to allay irritation.

If the malady persists or is severe, a visit to a specialist is suggested. The reason that skilled treatment is required is because complications may ensue. Here sulfanilamide ointment is of considerable value. This is usually applied following each irrigation.

BLADDER INFECTION.

E. L. writes: What does "inflammation of the bladder" mean?

REPLY.

The malady is known as "cystitis." Bacteria growing within the urinary pouch have set up inflammation, with swelling of the lining membrance. Symptoms include frequency, burning, and the presence of pus.

INFECTION MAY TRAVEL.

D. C. writes: Can bad teeth affect the heart?

REPLY.

Yes, if toxins are absorbed. Occasionally, bacteria themselves will gain entrance to the circulation.

NOT AT ALL.

R. S. writes: Should a person with epilepsy refrain from meat?

REPLY.

There is no contraindication to a balanced diet which contains meat.

BICYCLE LOCKS.

Chicago, March 13.—The stealing of bicycles has always been a major problem during peacetime, especially in the larger cities. With the curtailment of production of bicycles to 42 per cent and the ever increasing demand, it is obvious that the theft will become an uncontrollable menace.

Several progressive bicycle manufacturers have recognized this menace and have for the last nine years equipped their bicycles with built-in locking devices that have definitely proven their value by the mere fact that bicycles so equipped may be insured at a very low rate. Unequipped bicycles cannot be insured at any rate.

The WPB examined these locks and, altho they have approved of their use, have ordered them off because they contain essential war material. [Keys and tumblers are made of brass.] Ironically enough, they have suggested that the purchaser of a bicycle go to his local hardware store and buy a suitable lock which, incidentally, not only contains essential war material but weighs from 10 to 20 times as much as these modern, built-in devices. If you can figure that out you are a better man than I.

Locking devices are compulsory on all vehicles in England, including bicycles. The purpose is to render these vehicles useless in the event of invasion. It seems that these WPB officials refuse to learn this simple but important lesson from the British.

OSCAR TAMAN.

THUMBS UP.

Evanston, Ill., March 19.—It came as an inspiration—this suggestion for the 62d coördination to win the war. "Simon says thumbs up—or down." No expense attached, no particular instruction needed; can be played anywhere, any time, by any one; thousands coming to work on bus, "L," street car, or train could occupy the time thumbing at the order of a chosen captain; can be played over the counter in stores. Every public gathering could well give the first five minutes to this thrilling execution. Even chance passers on the street could exchange at least one thumbing. Better than a Nazi salute, and if it becomes nation-wide, why, we could thumb our way to victory.

THUMBS UP.

MAP FANTASY.

Galesburg, Ill., March 16.—I am wondering if you see the map of North America as the members of my family and myself see it. We see it as a large bull, snorting, with eyes bulging, heading for Japan. The Aleutian Islands form his horns, the Hudson bay region his front legs, Labrador and the Gaspé the hind legs, and Mexico and Central America his tail. I am sure with all the determination expressed in the bulging eyes and the very position of the body there is no chance for Japan.

NEW YORKER WANTS GAS MASKS.

New York, March 17.—It is important for the people to obtain gas masks at once and not wait until it is too late.

No one knows when the first air raid will take place, either on the west coast or the east coast, and we should have at least 10 million gas masks in the vicinity of New York before April 10. We cannot wait too late for deliveries, with the uncertainties and dangers involved.

ARTHUR S. LELAND.

HALLECK AND ROSECRANS.

Springfield, Ill., March 19.—I read with much interest your editorial in today's paper entitled "Genius for Defeat." I do not wish this letter to be construed as a defense of Gen. Henry W. Halleck, who was admittedly weak and incompetent, but it looks to me as tho the writer of this editorial started out to make a case against Halleck and let his imagination run away with him. Many of the statements in the article are true, however, many others are either gross overstatements or pure imagination.

For instance, the editorial states that Halleck's failure to reënforce Rosecrans was the reason the Union army was defeated at Chickamauga. Rosecrans, with as many as or more men than Gen. Bragg had in the Confederate army, needed no reënforcements whatsoever. The defeat at Chickamauga was due not to lack of numbers, but to the fact that Rosecrans divided his army in the presence of the enemy and was forced to draw back his wings quickly and fight a battle for which he was not fully prepared. It was due only to the bungling of Gen. Bragg and the Confederate commanders that the Union army was not completely annihilated at Chickamauga. As it was, all that saved the army was the gallant stand of Gen. Thomas' command.

Halleck impeded the Union cause most while he was the principal commander in the west. After he went to Washington, he became such a nonentity and was by-passed to such an extent that it is hardly fair to say that he was a serious impediment to the Union success.

INVOLUNTARY ALIEN.

Chicago, March 18.—I am 19 years of age, and I was born in England. I was raised and educated in America. My parents never got their citizenship papers, leaving me still an alien. I have my first papers, but I cannot become a citizen until I am 21. Now after working in the radio trade for a year and a half I find I cannot get a defense job or join the armed forces. At present I am unemployed, altho the tests I took at various factories received high grades. They didn't hire me because I am an Englishman. I fail to see why because I am of English birth this should stop employment or enlistment when Americans are working and fighting in England.

PERPLEXED.

BOMBPROOFS FOR PLANES.

Rockford, Ill., March 14.—The Japs destroyed 7 grounded planes at Wake Island. It cost them several days' time and some naval loss to destroy the 8 which were in the air.

Malta has been bombed over 1,300 times, but is still a base of air power. Why? Because the British built concrete hangars when the war started.

Do you think a few bags of cement and some foresight at Hawaii, Manila, Singapore, and Java would have stopped the Jap ships, and saved 100 billion American dollars and a million American lives? Do you think we should send some cement to Alaska and Australia?

I have read that Henry Ford erected a two foot concrete canopy over his new bomber plant. Should we protect the coastal airplane plants?

Lindbergh said long ago that all German airplanes are kept underground.

THE DRAFT LOTTERY.

Chicago, March 18.—The politicians are greatly dismayed over the criticism of the present administration in Washington. They claim it interferes with war production and only hinders what might be a quick, successful conclusion of the war.

However, if I am not too unpatriotic, I would like to ask how Mr. Average Citizen can have any hope of winning this war when the boys can't even conduct a simple lottery without getting all mixed up?

Chicago, March 19.—[Legal Friend of the People.]—Our baby was injured in an automobile accident in Chicago May 1, 1940. Inside what number of years can a suit be filed in Illinois?

The ordinary limitation period on personal injury suits is two years but since the statute of limitations does not in general run against minors, it is possible that the suit might be brought after the child becomes of age. Nevertheless, the memory of witnesses becomes less reliable and in general, we would consider it preferable for you to employ an attorney at once.

1. Mesa Verde park is noted for which of the following? **Boulder Dam Cliff Dwellings Painted Rocks Caverns.**
2. Which one of the following is of most value to the police department? **Carrier Pigeon Parrot Stool Pigeon Canary.**
3. Which one of these patients is afflicted with strabismus? **The Blind Deaf Feebleminded Cross-Eyed.**
4. In current warfare the word "tomahawk" should make one think of **Tanks Warships Airplanes Submarines.**
5. The type of sugar found in cow's milk is called **Maltose Lactose Sucrose Fructose.**
6. Try to associate the following tools or instruments with the people who generally employ them in their normal duties. You are entitled to one point for each correct judgment.

[a] Mangle	[v] Plumber
[b] Goggles	[w] Pharmacist
[c] Stillson wrench	[x] Housewife
[d] Harrow	[y] Welder
[e] Gram	[z] Farmer

Score yourself as follows: 0-2, poor; 3-6 average; 7-8, superior; 9-10, very superior. [Note—The last question counts five points.]

40 RADIO FIRMS' WAR CONTRACTS HIT HALF BILLION

125 Millions a Month by End of '42 Expected.

BY LARRY WOLTERS.

Contracts of one-half billion dollars for war communications equipment have been awarded to 40 radio manufacturing companies, the production division of the War Production board has announced. Production of communications equipment for military services is expected to reach $125,000,000 a month by the end of the year, it was announced. Building of radios for civilians will end April 22.

The program for war communications material, including that delivered, on order or yet to be allocated, runs to 2 billion dollars. About half of this, the WPB announced, will go for detector equipment, 20 per cent for aircraft and navigation equipment, 20 per cent for tank sets and "walkie talkies," and the remainder for telegraph, telephone, and miscellaneous equipment. "Walkie talkie" is the army term for portable transmitter-receiver equipment, styled "pack" transmitter-receiver by radio technicians.

$75 to $85,000 Per Unit.

More than 120 individual types of receivers are included ranging in cost from $75 to $85,000 per unit. Since civilian receivers are sold for as low as $6, radio listeners may wonder about the cost of military communications devices.

This disparity between the cost of civilian and military radio, the WPB announced, is caused mainly by the necessity for superior quality in equipment for war uses.

All equipment is built to rigid specifications of the army and navy in order that it may undergo strenuous usage.

Must Take Bumps.

"No one would think of pushing a home radio off a table and expect it to go on performing," the WPB explained. "It might take a major overhauling to get it in shape. But a military radio quite often is dropped, or is given hard knocks and bumps. It must take this without failing to function. It must continue to operate in a wide variety of temperatures and humidities. It must bring in clear signals despite interference."

To build such radios requires more skill, time and better material with resultant increases in costs.

Some Distant Cousins.

Besides shock proof receiving sets, military communications systems require many intricate mechanisms that are only distant cousins of parlor radio. These strictly military units include aircraft locators, altitude finders, direction indicators, and numerous other devices.

Since most military sets are operated by battery or power units, there is less demand for transformers which generally are used in home sets. Loud speakers are not needed in anywhere near civilian quantity.

There is less demand for tone control and more demand for filters to eliminate static interferences caused by the motors of jeeps, motorcycles, tanks and planes in which the sets are carried.

DISCUSSION ON JAPAN.

Henry Wei, a native of China and graduate student of international relations at the University of Chicago, will be interviewed by John Holbrook on W-G-N at 8:15 p. m. today on the subject of Japan's vulnerability to air raids. Wei traveled in Japan in 1935 studying the country's school system.

SEE TWO MILLION JOBS FOR WOMEN AS WAR WORKERS

More than 2,000,000 women soon will be needed to supplement men working in war industries and to replace men called for military duty, speakers at the University of Chicago Round Table who discussed "Women and the War," agreed yesterday.

War-time with its segregation of millions of men from civilian life has increased the freedom of American women and given them an opportunity to assume new responsibilities toward national defense, William G. Ogburn, University of Chicago sociologist, pointed out at the Round Table yesterday.

But use of this new freedom will soon be needed in the war industries, Col. Joseph Battley, chief of the man power and liaison division of the war department, contended.

FUTURE CITIZENS SHOW SALUTES SULLIVAN HIGH

Sullivan High school was saluted on the Citizens of Tomorrow program over W-G-N yesterday. The program was transcribed last Wednesday when 600 Sullivan students, teachers, and friends were studio guests. The program is sponsored by THE CHICAGO TRIBUNE.

Herbert C. Hansen, principal, told the history of the school. Philip Maxwell of THE TRIBUNE's editorial staff served as master of ceremonies. The Sullivan Symphonic choir, under the direction of Miss Winifred Sheel, sang several selections.

Two more names were added to the Citizens of Tomorrow roll of honor: Lorraine Jones, a senior at Sullivan, and Hilton Hotchkiss, Beloit, Wis.

Officials to Discuss Tax Problem of Cook County

City, county and state officials and civic leaders will meet in the Palmer House hotel lobby today to discuss Cook county's delinquent tax problem. The county's tax delinquencies total approximately 400 million dollars for the last 10 years. Among those scheduled to attend are Gov. Green, Mayor Kelly and Clayton F. Smith, president of the county board.

SYNOPSIS.

Because Dave Wallace asked Ed Seegrist, Chevron ranch hand, about the death of Tip Macy, Ed directed Dave to waterless tanks in the desert where he almost perished before a stage picked him up and took him into Vermilion. Beth Hilliard, who inherited two-thirds interest in the Chevron Cattle company from her father, is on the same stage, returning home after two years' absence, only to learn from her partner, Jess Gove, that the hard winter killed most of their cattle and that she is now penniless. Arriving in Vermilion, Dave knocks Ed down and is ordered out of town by Sheriff Sam Kinsley when Arnie Chance, Chevron foreman, furnishes an alibi for Ed. Ed claims Macy died in a blizzard but Dave, doubting his story, decides to talk to Martha, Tip's widow, before leaving Vermillion, but he learns that Martha has been whisked to Hilliard, the cattle company town. Dave goes straight to Hilliard when he finds Ed in Con Buckley's saloon with Pete and Ray, two other Chevron men, and beats Ed up again while the rest look on, including old Ives, friend of Beth's father. Neither old Ives nor Buckley trust Jess Gove, and when Dave makes a getaway on a Hilliard horse, Ives follows him and talks him into seeing Martha before clearing out. Dave finds out at the Hilliard hotel that Martha has been taken to Chevron so he rides out there and gets into a shooting scrape. Only Beth's arrival saves him from being killed. Jess admits to Beth and Dave that Macy did not die in a blizzard but was murdered. He says a note in Macy's pocket indicated he had been in with cattle thieves and that the murder had been hushed up to spare Martha. Beth believes Jess, but Dave is sure the story is untrue and he is more determined than ever to talk to Martha. Beth tells Dave she is selling her share of the cattle company to Jess. Dave goes to old Ives' camp and tells him the news which Ives spreads in Hilliard.

INSTALMENT XIX.
PROPOSITION.

A look of gratefulness crept into Kinsley's face. Ives knew, as did the whole slope, that Sam Kinsley was Jess Gove's friend. Of all the people who honored Jess Gove's gray hairs, his gentle ways, his generosity, none honored them in quite the manner of Kinsley.

It was with a mixture of humility, worship, and privilege. He would have liked Gove if only because Gove was a partner of Beth Hilliard. To Kinsley no sane man would ask more of this world than to be the husband of Beth Hilliard and the friend of Jess Gove. And since the one was lacking, he made up for it by coveting the other.

Kinsley said slowly, "Well, it would help, Ives. But you earned the money."

Ives scratched his head in feigned perplexity. "Don't get me wrong," he said in his irascible voice. "I ain't a buzzard. On the other hand, I got my rights. If Gove's got money enough to buy Chevron, he might have money enough to pay me. On the other hand, I wouldn't want my claim to stop him."

"But it would," Kinsley said quietly.

Ives was immediately skeptical. "He tell you?"

Kinsley hunched forward in his chair. "This is strictly between us, Ives. You understand?"

"It is so far," Ives said dryly.

"Gove hasn't got any money," Kinsley said. "He was wiped out this winter. He had all his savings invested in that Texas herd that was winter killed. Two thousand head."

"Then how's he buyin' out Beth?"

"Borrowing."

"Then why can't he pay me?" Ives asked truculently. "I'll take a bank's money any day."

"Hear the rest of it," Kinsley said seriously. "Gove isn't borrowing from any bank, and he hasn't any backer, Ives. Every man with money in this country is waiting until the Chevron grass money falls due in a couple of weeks. They know Gove hasn't the money to pay for the Ute lease, and they also know if he can't pay then the lease will be thrown open to the highest bidder. So why should they loan Gove money when they can take that same money and lease the grass that Chevron used to have?"

"You mean Gove ain't goin' to keep the lease?"

"He can't. He hasn't the money to pay for it."

Ives scowled. "Then what the devil is he buyin' from Beth?"

"Chevron."

"But there ain't any graze there. That's just a pretty house set on a pasture."

Kinsley nodded. "That's it. That's all Gove wants. Just a place to keep him alive until he dies."

Ives was silent. He was thinking of Con Buckley and how Con offered to loan Gove money and was coldly turned away. And now Gove was claiming he couldn't borrow the money to pay the grass lease.

"Who's he borrowing from, then?" Ives asked bluntly.

"A friend."

"You," Ives said.

Kinsley hesitated and then nodded reluctantly.

Ives said in his cantankerous way, "I got a right to know how much, ain't I?"

"A thousand," Kinsley said. "Because, without the reservation graze, Chevron is just a postage stamp spread or a line camp. Bell, over at Pitchfork, offered $300 for the house to use as a line camp, so you see what it's worth. Jess set a reasonable price at $1,500 and Beth agreed. Beth's two-thirds share of the Dun River Cattle company would come to $1,000 then, and I loaned it to Jess."

"And the company dissolves?"

"It's all Jess'. It won't do him any good, but he'd like to keep it going for reasons of sentiment."

Kinsley paused then and looked at Ives and shook his head and made a wry face. "Beth wants to go back east. It'll give her a little money and give Jess a home till he dies. I guess that's all that's left of Joe Hilliard's Dun River Cattle company, Ives."

Ives nodded. He felt a terrible urgency within him but he didn't move. He seemed to be thinking and presently he asked, "When does it change hands?"

"Day after tomorrow morning. Rollins over at the store is a notary, and I'll be the witness."

That was all Ives wanted to know. He sat a moment longer, then stood up. He said harshly, "You tell Gove to forget the bounty money. He can pay me whenever he wants to."

Kinsley rose now, smiling in his slow, heavy way. "That's kind of you, Ives. Mighty kind."

Ives was afraid to look at him for fear he would say what was in his mind. He merely waved his hand in a deprecatory gesture.

"Keep it to yourself," Kinsley said.

Ives stopped and looked at him. "You said that once."

Kinsley sighed. Ives' moment of reasonableness, of generosity was passed, and Kinsley supposed he couldn't expect more. He said mildly, "So I did," and walked back to his newspaper.

Ives chatted a moment with the hostler at the bar and then went back to Con's office. He went in without bothering to knock, closed the door behind him, and before Con Buckley could turn around and greet him, Ives asked, "How much money can you get hold of and in how short a time without a damn person knowin' it?"

Fat Con Buckley didn't move. He seemed to be staring at his desk, and Ives sat down. Presently Con turned to him and said, "Fifteen thousand in a week or 10 days."

"How much can you lay your hands on now?"

"Five thousand."

"Give it here," Ives said.

When Ives reached camp, Wallace was still there. The rain had stopped and Ives staked his horse out and came back to camp.

He approached the tarp and threw a heavy sack of coins on the blanket and peeled out of his slicker.

Wallace eyed him suspiciously, while he stoked the fire. Ives knelt there, holding his cold hands over the mounting blaze.

He looked up at Wallace then and said quietly, "How bad you want to find out about Tip Macy?"

"Bad," Wallace said slowly.

"I'll make a deal with you."

When Dave frowned Ives said quietly, "I want somethin' bad too, Wallace. I want to find out why Beth Hilliard is sellin' Chevron. I want to find out so bad that I aim to buy Chevron to keep Gove from getting it."

Dave said nothing.

"The deal is this. You buy Chevron with the money I give you. You help Beth Hilliard every way I tell you. Do that and I'll find out how Tip Macy died. I'll fix it so you can talk to Martha without Gove knowing it."

"No," Dave said flatly.

Ives scowled. "Why not? It's a fair trade. Any move you make toward Martha Macy, Gove nails you. I can talk to her any time. Any move I make toward helpin' Beth, Gove stands ready to stop me."

"No," Dave repeated.

"What's wrong with it?"

"One thing," Wallace said quietly, "I don't like Beth Hilliard. I wouldn't help her."

"Why not?" Ives asked blankly.

"I don't like her. She's a fool girl, not worth anybody's help."

Ives rose slowly, his face suddenly gone white. "I ought to kill you for that," he said quietly.

"You asked me. You found out," Wallace said bluntly.

GOOSE ISLAND'S TAVERN FINALLY CLOSED—BY FIRE

For the first time in 75 years Langan's tavern and café at 921 North Branch street, on Goose Island, was closed last night. But it took a fire to do it. St. Patrick, his harp, and 50 Irish dolls were consumed in the flames, blamed on defective wiring. They were the decorations.

Langan's, started by John Langan when he first arrived in Chicago from Ireland, has been carried on by Joseph, his son, now 63 years old. Joseph has never married. He pulls a cot from a back room at night and makes his home where he has made his life's work. The building is an aged brick, in the heart of what is now a great industrial district.

Four years ago Joseph decided the place needed some modernizing. He put in real marble washrooms, at a cost of $3,000, and air conditioned it. But he still wore his Windsor tie and blue work shirt.

Damage caused by the fire was estimated at $1,000.

Chicagoans Try Sun or Snow at Vacation Spots

BY JUDITH CASS.

EAGER for the arrival of spring, or reluctant to see winter go, Chicagoans are scattering south or west in search of holiday weather to suit their tastes. The next fortnight is the height of the spring season at Sea Island, Ga., where a number of Chicagoans are sunning themselves on the sandy beaches along the Atlantic coast.

The Henry P. Ishams of Lake Forest are at the Cloister in Sea Island for their usual spring visit. Their sons, George S. and Robert A. Isham, who are Yale students, have joined them for the spring vacation. Henry P. Isham Jr. will join his family later.

Parent and Child Golf Tournament Next Friday.

The annual spring golf tournament ended last Friday, but of particular interest to the young people on school holidays is the annual parent and child tournament next Friday. That night the third annual ball will be held in the auditorium of the Beach Casino. Dedicated to the American farmer, the party is known as Sea Island's "back to the farm ball."

Mr. and Mrs. Allyn D. Warrens stopped at the resort on their way to Palm Beach. Another Yale student at Sea Island is Peter Anderson, the W. France Andersons' son; Darwin Curtis of Winnetka also is there.

The younger crowd at the resort always turns out in full force for the oyster roasts held on a bluff curtained with moss hung live oaks, overlooking the Hampton river. There will be a roast on Thursday night, with music by the colored Washboard band, and dancing by the Cloister's colored waiters.

The gentle approach of spring is as good as a death warrant on skiing as far as most Chicagoans are concerned. Not so with members of the Snow Chase club, who are planning a post-season reunion at Sun Valley. By next week-end the first group of Snow Chasers will head west for "corn" snow and long hours of sunshine on the open slopes of the Sawtooth mountains. Several members who can't get away so soon will be joining them the following week.

Snow Chasers to Enjoy Skiing at Sun Valley.

Among the Snow Chasers who soon will be skiing down Baldy are Miss Barbara Hobart, Miss Rae Johns, Mrs. S. Louis Reinhardt, Walter Edwards, Everett L. Millard, Theodore De Boer, and Lawrence E. Denman. Sun Valley holds many sentiments for Mrs. Reinhardt, as she and Mr. Reinhardt were married there in January. "Spider" Reinhardt won't be returning with the Snow Chasers, however, as he is serving in the navy.

Mrs. E. John Hicks and Mrs. Homer H. Johnson and two of the latter's daughters, Miss Isabelle Johnson and Mrs. G. Brainerd Chapman III., are packing to leave on Friday for Sun Valley. The length of their stay is indefinite. Mrs. Paul L. Fentress, who expected to stay at Sun Valley for six weeks, has been there since the last of February.

Mr. and Mrs. Henry H. Brigham Jr returned to Glencoe a week ago after a vacation at the Idaho resort. The junior Edgar Stantons, who were with them, had to cut their visit short when they were called back to Chicago by the death of Mrs. Stanton's mother, Mrs. Edward L. Baker.

Paul Stone left on Friday for Sun Valley, accompanied by Robert Pabst of Milwaukee, Wis. Mr. Stone plans to stay in the west until his orders come thru next month to report for duty.

The Abraham K. Seiz's daughter, Miss Barbara, is in Sun Valley with two of her friends, Miss Nancy Rothschild and Miss Louise Nathan. They plan to return to Chicago the end of this month.

Morley W. Readings on Florida Honeymoon.

Mrs. Geraldine Faxon Marsh and Morley W. Reading, who were married on Friday, have gone to Coral Gables, Fla., to spend three weeks with the bride's sister, Mrs. Richardson Revell, and Mr. Revell. The ceremony took place at 4:30 o'clock in the Highland Park Presbyterian church, the Rev. Louis W. Sherwin officiating. Only members of the immediate families were present. The bride, a daughter of Harry D. Faxon of Highland Park, has two children, Harry Dean and Geraldine Marsh. Mr. Reading has a little girl. After the middle of April Mr. and Mrs. Reading will be at home in Highland Park.

Mr. and Mrs. Roy A. Cook of Evanston were at home yesterday afternoon to announce the engagement of their daughter, Lisbeth Ann, to Richard Harold Van Galder, son of Mr. and Mrs. Harold C. Van Galder of Niagara Falls, N. Y. Mr. and Mrs. Van Galder were here for the party.

Miss Cook is a graduate of Penn Hall Junior college. Mr. Van Galder attended Mercersburg academy and Franklin and Marshall college in Lancaster, Pa. He is in business in Chicago.

At the same time yesterday Mr. and Mrs. Cook introduced to their friends the fiancée of their son, Geoffrey Cook. She is Miss Jane Watkins of Chicago. Young Mr. Cook is in the army air corps in Texas.

Capital Social Life Whirls On; It's for Morale

[Chicago Tribune Press Service.]

Washington, D. C., March 22.—The gayest social season in the history of the capital is being defended by capital society reporters as a major part of the nation's war effort in that the brilliant parties aid in promoting business deals and uphold morale.

The cocktail parties, receptions and dinners among civil and military officials have brought indignant suggestions from Chicago and other points that Washington black out its partying while Americans are dying at Bataan. These suggestions were dismissed by Hope Ridings Miller, local social editor, as resulting from a "misconception."

Acknowledging that her mail from Chicago protesting against capital gayety has been heavy, Miss Miller said that while there are more and better parties today, the parties are helping national morale by keeping capital life flowing along normal channels.

"Society for society's sake died a natural death on the banks of the Potomac when the first bomb burst over Pearl Harbor," Miss Miller wrote.

"Parties go on, yes. Celebrations for a cause, rioting with a reason, if you please. Even in peace times capital entertaining is generally a matter of promoting contacts, pulling political wires, grinding axes, partying with a purpose, getting to know big shots at little dinner parties, brushing shoulders socially with men of importance by way of paving a path toward business dealing later.

"Everybody in Washington knows that more jobs are cinched over dinner tables and around the town's wassail bowls than across any desk you can name. . . . And it should go without saying that tea and international treaties and understandings flow simultaneously and regularly at diplomatic receptions.

"Today the onslaught of defense officials and high ranking army and navy officials—to say nothing of the continuous parade-to-town of visiting notables, both foreign and domestic—has given rise to a social whirl that on the surface seems merrier and madder than ever before.

"Actually, however, two considerations have done more to foster an increase in the capital's partying picture than all the others put together—the morale angle, and the growing conviction that life must go on normally as possible, as long as possible. . . . There are more ways than one to help defeat Hitler and the minions of Hirohito. . . ."

In the meantime, capital social columns offered many examples of the type of "morale" parties under way. Following are items gathered from various columns:

The secretary of the navy and Mrs. Frank Knox are giving a series of informal dinner parties and she is being hostess also at some informal luncheons. Tomorrow the secretary and Mrs. Knox will entertain a small group of old friends on his yacht, the Sequoia.

The assistant secretary of war and Mrs. Robert P. Patterson attended the luncheon and dinner at the Mayflower hotel, under the auspices of the institute of women's professional relations.

Maj. Gen. and Mrs. Oliver P. Echols will entertain at a dance Saturday evening at the officers' club, Army War college, in honor of their daughter and her house guest.

Col. and Mrs. Raymond Lee entertained at a cocktail party in honor of the Pan-American Union. Col. Lee is chief of army intelligence.

White Collar GIRL

BY RUTH MACKAY

Could Be Worse Note.

A young woman who signs herself "Private secretary—reformed" says that she spent her lunch hour "discovering that all things are only relative after all, and, as one white collar girl to another," she writes, "thought you ought to know." She'd been thinking for some months that the life of a private secretary can be pretty hectic . . . and wearing . . . and thankless, but she takes it all back.

And here's why. She was having lunch at the counter during the busiest part of the rush hour when a flighty female clambered up on the stool beside her. Spaghetti, she ordered, and "don't forget the French bread." Cheese with the spaghetti, and black tea with two pitchers of cream and two pots of hot water and two pats of butter! Five minutes later the flighty female wanted another pat of butter . . . "and don't forget the extra pot of hot water."

By this time the confused waitress had brought our "secretary-reformed" coffee instead of milk, but she didn't have the heart to ask her to change it while her neighbor was demanding her salad and reminding the harassed waitress of various oversights.

"Anyhow, I came upstairs resolved to beam sweetly and patiently on the boss when he says to-night at 5:30, 'O, there's just a couple of letters here . . .'"

Truth or Consequences.

"If an employment agency tells you to lie about your age when applying for a job what do you do?" queries a reader. Age, like murder, "will out." Sooner or later, if only in connection with social security, the company which employs you will learn your age. The consensus among personnel directors, placement bureaus for business colleges, and employers seems to be—tell your correct age.

Salaries and Wages.

Salaries in 1940 [from figures recently made available] totaled slightly more than 44 billion dollars. . . . The total compensation to officers of corporations and the heads of unincorporated businesses accounted for a little more than 25 per cent of the national income from private production during the years 1936 to 1938. . . . The average wage of 31,009,389 workers covered by the social security act is $844 a year.

Dere Mable's Back.

Thoughts while reading a book: It's a short time between wars . . . and "Dere Mable," written for the "rookie" of 1917, is reprinted now for the soldiers of 1942 . . . and the Dere Mables . . . left behind. . . . And there it all is—"You wouldn't understand that, it's tecknical." . . . and "That's me all over, Mable." . . . and "Yours till you here otherwise," and Bill's interminable troubles with his horse, "Isleta." And tho you read it and weep, don't miss the foreword by the author. It has a simple heading. It begins: "Dere Son."

Brailowsky Puts Enemies of Liszt Sonata to Flight

BY EDWARD BARRY.

Local enemies of the Liszt piano sonata are in full retreat this morning as a result of the performance which Alexander Brailowsky gave the piece in Orchestra hall yesterday.

He proved that it is not at all the pretentious, grandiloquent, almost empty work it once seemed to be, but rather a superbly integrated and overwhelmingly powerful expression of a view of life and an esthetic philosophy which—tho dated—have in them enough of the timeless to command respect even in 1942.

The unbridled romanticism—the swooning, the declaiming, the soul searching—of the 19th century represents a stage thru which man actually passed. It constitutes, therefore, a legitimate, tho at present an unfashionable, subject for artistic treatment.

Just why did Brailowsky succeed where other good musicians have failed? Probably because he undertook to believe wholeheartedly in the piece. He made no attempt to present it as something objective, but went passionately and vehemently to work to extract from it every drop of drama it contains.

His playing was uninflated and unforced. The grandeur of the scale on which the whole performance was built was always present to a listener's consciousness, and the details fell into place with an intoxicating naturalness.

Later in the afternoon Brailowsky's vivid imagination and steel strong fingers worked wonders with the Chopin A Flat Polonaise, we had never thought of this as quite so angry and proud a piece as it seemed yesterday. It had a fearful cumulative power, too.

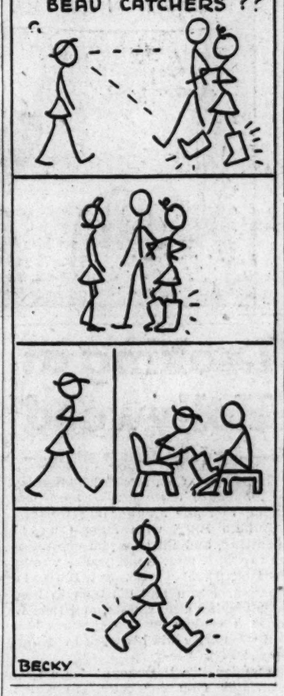

Other examples of the grand manner were the Vivaldi D Minor Concerto, Liapounoff's "Lesghinka" and—in lesser degree—Chopin's G Minor Ballade. Quieter interludes were the Scarlatti A Major Sonata, the Rachmaninoff G Major Prelude, Debussy's "L'Isle Joyeuse," Ravel's "Ondine," and such Chopin pieces as the Fantaisie-Impromptu, the D Flat Nocturne, and the E Flat Waltz.

By Mae Tinée.

Good Morning!

[Bette Davis was with "The Man Who Played God" . . . Now she's with "The Man Who Came to Dinner" and he plays devil. . . . What's the girl got, anyhow?]

The tremendously successful Kaufman-Hart play makes a fiendishly clever movie—so clever that sometimes it almost wears you down. . . . There's not a dud line in the piece. . . . Too, the hybrid's comedy is so closely inlaid with near tragedies fomented by the wheel chair egomaniac, that you're just a little sick—even when you're laughing hardest. . . .

Said egomaniac is a famous traveling lecturer and author whose radio broadcasts have made him the idol of a public that knows nothing about him personally . . . Reluctantly he accepts an invitation to dinner at the home of the Stanleys who live in Messalia, O. . . . Exuding insult, and spitting vitriol into the accustomed ears of his capable and disillusioned secretary [Miss Davis] he arrives . . . And falls down the icy steps of the Stanley home. . . .

He's carried in . . . The old doctor tells him [mistakenly, as you discover later] that he has a fractured hip . . . Threatening the Stanleys with a damage suit for $150,000, he installs himself and his secretary on the lower floor, kicks massa and missus and the kids upstairs, commandeers telephone—and some highly intrigued servants, and proceeds maliciously to prepare for his Christmas broadcast and to scatter discord how and where he may. . . .

He advises the daughter of the house to elope with an undesirable . . . Persuades the young son to set forth in the world on his own . . . when he discovers that his indispensable Maggie Cutler has fallen in love for the first time — and thoroly — with the local editor, he summons from one of her hunting grounds a beautiful Delilah [Ann Sheridan] to charm the youth away. . . .

The place becomes a madhouse, due to the presence of the modern Mephistopheles, whose violences are interlarded with moods of sweetness and light, as beautiful and as terrible as scenic quicksands. . . .

The ending? Well—according to the picture there is, apparently, going to be no ending . . . For icy steps can trip a man as well going out as coming in. . . . Light ahead, tho for Maggie and her young man!

There was never anything more perfect than Monty Woolley's performance . . . Looking a cross between Satan and Bernard Shaw, he acts likewise. A feather in his cap that he can make Whiteside, with all his wit, ingenuity and nasty charm, seem so shoddy in comparison with duller and more genuine folks!

Miss Davis' portrayal is many faceted—and completely fascinating. . . . Ann Sheridan is skilful—and gorgeous. . . . Billie Burke, Grant Mitchell, Elisabeth Fraser, George Barbier, Mary Wickes, and Richard Travis are splendid in chief supporting rôles. . . . I liked the direction—and all the rest of it.

Same to you.

See you tomorrow.

Looking at Hollywood

—By John Chapman—

Hollywood, Cal., March 22.—**Sunday**—A Sabbath roundup: Warners' are going to make another big western, "Buffalo Bill," with Mike Curtis directing, and I'll give you one guess as to who'll star. Nope, you're wrong. It isn't Errol Flynn, but Ronald Reagan. Flynn had his turn in long hair playing Gen. Custer, and Reagan rates a vehicle on two grounds—his fan popularity and his work in "Kings Row."

Monday—To Paramount for a look at "This Gun for Hire," in which Alan Ladd, Laird Cregar and Tully Marshall make a great trio of villains. . . . Rita Johnson, instead of Dorothy Comingore, goes into Ginger Rogers' "The Major and the Minor." . . . Oscar Levant will play a songwriter in the Colbert-MacMurray "No Time for Love." . . . What a pair of careers! Paramount has signed Producer Harry Sherman for two more years, so Harry pomptly signs Bill Boyd and Andy Clyde for two more years. In seven years Sherman has made and Boyd has acted in 42 Hopalong Cassidy westerns. The 43d will be "Lost Canyon."

Tuesday—To Republic, where Binnie Barnes and John Wayne are making one about the Sacramento gold camps called "In Old California." First western Binnie has been in for a long time—and it's her first romantic lead in some time, too. She looks mighty pretty in a period dress, but she says it's awful heavy standing around on the back lot. . . . I hear that Metro is bringing Freddie Bartholomew, one time boy wonder, back in Mickey Rooney's picture, "A Yank at Eton." Time was when Mickey was playing supporting rôles and Freddie was the star, as in "Captains Courageous." . . . Robert Young gets the lead opposite Jeanette MacDonald in "Shadow of a Lady." . . . Novelette in ad section of local paper: "For Sale. Hollywood's Killing Me. I'm a Writer, Bought a Lovely New Home. . . . Studios Don't Appreciate My Writing. I'll Take Loss and Return Where I Come From. . . . Make Offer."

Wednesday—Desk work all day, and then to the première of "Reap the Wild Wind." Having seen the picture, I watch the show outside. Everybody agrees it's the best in a long time. The only reminder of the war is that all of the sun arcs are pointed at the buildings and not aimed into the air. . . . I go inside in time to catch the end of the film and to see the theater. Once a legit house, El Capitan, it has been remodeled and called the Paramount Hollywood. Architect William Pereira has done a splendid job of streamlining the place, and the acoustics are notably good. Costliest seats are in the balcony—because they are love seats whose arms can be folded away. . . . As I watch the last reel of the movie I think I have solved De Mille's literary secret: Every line of his script seems to be a silent picture caption.

THURSDAY—To Metro for visits with William Saroyan, Ann Sothern, and Norman McLeod. McLeod is putting Wallace Beery and Marjorie Main thru "Jackass Mail," which also is about Sacramento in the gold rush. Miss Sothern is affecting a southern accent in "Get Rich Quick Maisie," which is based on the New Yorker's "Jollity Building" series. Ann takes movie making easy; she enjoys it and nothing bothers her. She always has a phonograph boy on the set and there's music between takes. Pleasant habit, the phonograph thing. Joan Crawford and Norma Shearer do it, too.

FRIDAY—For a call on W. C. Fields, who looks thin and fit and drinks only a little beer with salt in it. More later on Bill.

SATURDAY—Up at 6 to do a day's work early, and then with a trainload of stars to Esenada, Mexico, where a show will be put on for the Mexican army tomorrow.

Louis Cheskin, painter and author, is to give the noon hour book talk Thursday at the Chicago Public library. He will speak at 12:15 o'clock on "Living with Art."

New Anderson Voice Warms Up to Old Radiance

BY CECIL SMITH.

Once again every seat in the Civic Opera house was occupied for Marian Anderson's annual recital yesterday afternoon. Supplementary chairs were put in the orchestra pit, and the stage was handsomely filled by a large contingent of army and navy men.

Altho the great contralto's vocal method changes somewhat from season to season, her voice never loses its universality of appeal. As always, the opening classic airs were a little cold in tone quality and a little too impersonal in projection to carry much meaning. Once she had passed the initial warming up period with 18th century music [and I wonder why she always imposes so rigid a program scheme upon herself] her voice quickly took on its wonted luster and radiance. There is nothing else in the world quite like its combination of reedy penetration and soft sheen, and the response of the audience to its special appeal is complete.

Miss Aderson sings more like a soprano than she used to. In the first half of the program, which was all my schedule permitted me to hear, she scarcely drew at all upon the wonderful cavernous chest voice which used to add a note of eerie majesty to her singing.

But the upper part of her voice is brighter and more cheerful than ever before, and she has eliminated the tremolo which was becoming bothersome a year or two ago. Her vocal line is now spontaneous and unbroken, except when she reaches down to the treacherous transition into her relatively disused chest register.

In a group of Brahms songs she achieved high expressive beauty. "Botschaft" had a fleet and nimble charm, "Die Schnur" attained exquisite melodic sweetness, and "Sehnsucht" was emotionally powerful and climactic. A little known aria from Gounod's forgotten opera, "Cinq-Mars," was relatively ineffective as a preintermission finish, not because she did not sing it intelligently and forcefully, but because the music is second rate and maundering.

The second half of the program contained a Russian group by Gretchaninoff and Rachmaninoff, and a final group of Negro spirituals. Franz Rupp was the accompanist.

"The Romance of Old Mexico," presented at the Eighth Street theater with a few serapes in the background, sounded and looked like a featured item in a small summer Chautauqua program of 25 years ago. The participants in the unattractive little variety show were Greta Rubio, soprano; Velma Montoya, dancer; Col. Ricardo de Escamilla, master of ceremonies, and assorted instrumentalists.

Eighty representatives of the armed forces were guests of the parish at a dinner and dance held after the service. The service was conducted by the Rev. James Nestor, pastor, assisted by the Rev. Nicholas Karras, deacon.

★ Your Stars Today ★

—By WYNN—

Monday, March 23.

A flood of new ideas are due today for most of us, but they are not likely to prove a hundred per cent foolproof; so let's take them under advisement wherever possible, especially if they have to do with self-pity. Don't sacrifice the future.

Your Year Ahead.

Your year ahead from your anniversary today brings mental and emotional growing pains and need for major decision — make them thoughtfully. More domestic happiness, travel, possible. Danger: April 22-May 1; July 7-22; Jan. 23-30, 1943.

Tomorrow.

Avoid low emotions, in self as well as in others.

You can be your own decorator with yards and yards of attractive borders that look like wallpaper but require no paste or glue. You simply wet the back with water and stick them up. They come in several widths and in eight styles. One especially pretty one has little pots of red geraniums on a light yellow background with touches of white in the design. Another shows a red apple alternating with blue grapes in squares. Use these borders on your wooden valance, or as a frame for a kitchen or bathroom or dinette window, or around a door. Rally of Holy Name Societies Hears Stritch

BY THE REV. JOHN EVANS.

Archbishop Samuel A. Stritch pleaded yesterday afternoon with 2,000 representatives of more than 400 Holy Name societies of the Catholic archdiocese to make the Holy Name union accept its lay-apostolate in making "the sacrifice of Christ on the cross a success." He spoke at a Holy Name rally at the Coliseum.

The archbishop referred to a statement in a preceding address by Dean William F. Clarke of De Paul university law school which pointed to "the heavy responsibilities which rest on the shoulders of an archbishop." The prelate recalled other references to his heavy administrative responsibilities as head of one of the largest corporations.

"It is true," said the archbishop, "that the archdiocese with its many churches, schools, and institutions is a heavy administrative responsibility, but to regard the administration of a great corporation as the responsibility of an archbishop gives me a feeling of hollowness. My chief responsibility as your archbishop is the salvation of the souls of my men, women, and children."

Pointing to the cross of Passion Sunday, Archbishop Stritch declared it to be the answer to all questions. He asked the Holy Name society in its drive for thousands of new members "in the face of fierce aggressors" who would "silence the voice of conscience and mock the longing of the human soul for God," to aid him in his task of bringing men to Calvary's cross.

The Rev. E. J. Kelly, archdiocesan director of the society, described the society as one of the oldest confraternities in the world. He said it was established 666 years ago following the Council of Lyons, which approved the institution of the Confraternity of Holy Name of Jesus as a countermeasure against the Albigenses, who denied the divinity of Christ and profaned his name. The movement, which was based on reverence for the name of the Savior, spread to many countries and finally to the United States.

Father Kelly said that under the leadership of Archbishop Stritch, during the last two years, the Chicago Holy Name union, with its 175,000 members, is now "the largest in the whole Christian world." Father Kelly added that there are 7 million Holy Name men thruout the world and 3 million in the United States. Archbishop Stritch asked that each of the 400,000 laymen in the archdiocese be enrolled in the society.

1,000 Policemen Offer Prayers for MacArthur

One thousand policemen, all members of the St. Jude league, said special prayers for Gen. Douglas MacArthur and all the armed forces at their annual corporate communion at Our Lady of Guadalupe church, 91st street and Brandon avenue, yesterday morning. Archbishop Samuel A. Stritch was celebrant of the mass and was the speaker at a breakfast held after the service.

According to Culbertson

(Copyright: 1942: By Ely Culbertson.)

The mark of a resourceful bridge player is the ability to produce a logical bid [or play] in any given situation. Note the highly expressive bid which South produced in the following deal:

West, dealer.
North-South vulnerable.

NORTH
♠9 5
♥A J 3
♦K Q 10 7 5
♣K J 6

WEST
♠A K Q 6 2
♥K 8
♦9 3 2
♣9 5 3

EAST
♠J 10 7 4 3
♥7 5 4 2
♦8
♣10 7 4

SOUTH
♠8
♥Q 10 9 6
♦A J 6 4
♣A Q 8 2

The bidding:

West	North	East	South
1 spade	Double	2 spades	3 spades
Pass	4 diamonds	Pass	6 diamonds
Pass	Pass	Pass	

After North's take-out double and East's mild shut-out bid of two spades, South found himself in a great dilemma. He had an excellent hand opposite a vulnerable take-out double, and realized that, not only was a game sure if the right trump suit could be found, but that a slam probably would be an odds-on chance. But what could South bid over two spades that would adequately express his holding? Of course, he might bid three hearts, on the assumption that North was inviting a response in the "other major suit." But, looking ahead, South saw that such a bid would tie him up completely if North, as was to be expected, merely raised to four hearts. South then would have to start mentioning his other suits at the five level in order to investigate slam possibilities, and would not be inclined to do this because he would be in great doubt as to the length and solidity of the combined trump suit, hearts.

From South's point of view it was highly desirable to get *North* to name a trump suit, because South could support any suit North named and, in this way, could be sure that the partnership was selecting the correct denomination. Hence, South deliberately chose the one bid that could effect this result, namely, a bid in the opponents' suit. True, his three spade cue bid purported to show first round spade control and a good hand outside, but his "lie" was well justified by the extraordinary strength [considering that his partner had made a take-out double] in three suits.

South's ingenuity worked very well. North named his five card diamond suit, and South, visualizing just such a holding as North actually had, jumped all the way to the slam that easily was fulfilled merely by finding the heart king "on side," where it figured to be, considering West's opening bid.

Pretty Apron Fashions

WOMAN'S AND MISS' APRONS.

Hostessing is of the most informal sort these days, and in other ways, too, women are finding themselves in the kitchen more than ever before. Of course, aprons are a necessity and these four patterns are perfect. Three of them are so economical that a yard of fabric is all any one requires.

Style No. 3504 is designed for sizes 14 and 16, and 36, 38, 40, 42, 44, and 46 inch bust measurements. Size 36 requires 4 yards of 39 inch material.

Style No. 3172 is designed for one size [suitable for 12 to 20]. One yard of material plus 2½ yards of rickrack.

Style No. 2909 is designed for sizes small, medium, and large. One yard of 39 inch fabric, 2½ yards of ruffling.

Style No. 3415 is designed for one size adaptable to any figure. One yard of material, 3 yards of binding.

Each pattern costs 10 cents.

Address orders for Clotilde patterns to Chicago Tribune, P. O. Box 537, Grand Central annex, NEW YORK CITY, including 10 cents in stamps or coin, plus 2 cents for mailing costs (coin preferred—wrap it carefully) for each pattern ordered. IMPORTANT: Be sure to state clearly the number of the pattern and the size desired and write your name and address plainly. The spring pattern book costs 15 cents—10 cents if ordered with a pattern.

Women in War Work

By India Moffett

[The Women in War Work department reports on women's activities in war and defense work and will answer questions of women wishing to take part in these activities.]

Mrs. Frederic W. Upham and state Representative Bernice T. Van der Vries, co-chairmen of the committee on women's organizations of the Illinois State Council of Defense, have called a meeting for Thursday in the Palmer House to map a comprehensive program of war work in which it is hoped to enlist every woman in Illinois. More than half a million clubwomen will be represented at the all day meeting. Mrs. Joseph T. Bowen, the only woman who served on the Council of Defense in the World war, is honorary chairman of the committee.

The morning session at 10:30 o'clock will be devoted to reports by vice chairmen on group activities and a discussion of how these activities can be coördinated and expanded so that every woman in the state can take part in them. Every field of women's participation in the war effort, from home to factory, and from gardening to civil protection, will be explored.

The afternoon session, which will begin at 2 o'clock, will be devoted to talks by various persons, including Henry Pope Jr., rationing administrator of the Illinois Council of Defense; Capt. William F. Waugh, a member of the council and chairman of the civil protection committee; Dr. William H. Conley, regional representative of the consumer division of the OPA; Dr. H. L. Pettitt, assistant state medical officer and a member of the council's public health committee, and Miss Maude B. Carson, of the nurses' advisory committee of the public health committee.

Army, navy, and Red Cross nurses will discuss nursing careers in the armed services at a patriotic rally tomorrow evening in the auditorium of the nurses' residence of the Grant hospital, 536 Webster avenue. Student nurses from six or more north side hospitals will be guests. A highlight of the program will be songs by an octet of bluejackets from the Great Lakes Naval Training station choir.

Ensign John J. Borland will command the bluejacket color guard, David L. Schillinglaw, past Illinois commander of the American Legion, will be among the speakers. Nurses from the Grant hospital will present a tableau on the history of nursing and members of the Children's Memorial hospital staff will give a skit on nurses' enlistment procedure to complete the program.

The rally is sponsored by the Chicago chapter of the Red Cross in conjunction with the navy. Miss Ella Van Horn, chairman of the Red Cross nursing committee, has been assisted in arranging the program by Mrs. Bess Coolley Andree, secretary; Miss Amy Chamberlin of Augustana hospital; Miss Alice Haffie of Children's Memonial hospital; Mrs. Charles Diesel of St. Joseph's hospital, and Mrs. Katherine Christiansen of Illinois Masonic hospital.

Fashion note of interest to nurses: When a registered nurse is accepted for army service, the government supplies her with six white uniforms, two wool field uniforms [one blue and one gray], one heavy trench coat, one overseas cap, and one white and one black pair of shoes. It is reported that the nurses in training at Fort Custer, Michigan, are being measured for shorts.

Nurses enter the army as second lieutenants and a chief nurse has the rank of first lieutenant. A lieutenant at Fort Knox, Ky., reports that the nurses find the officers sometimes disobedient, but they have no trouble with the privates. Rank counts in the hospital as well as on the field, and a private says "yes, sir" and obeys when an officer, even a feminine one, gives an order.

Volunteer war workers among the Vassar almunæ and students active in campus defense activities will describe their work at a luncheon of the Chicago Vassar club at 12:30 o'clock Wednesday at Marshall Field & Co. Representing the Red Cross will be Mrs. Bruce Thorne of the Gray Lady service, Mrs. Edmund J. Doering II. of the motor corps, Mrs. Scott McKeown of first aid, Mrs. Edwin L. Gilroy of production, and Miss Evelyn Gordon, a staff assistant. Mrs. McKeown also will speak about the Victory center, Mrs. Percival G. Hart about the Service Men's center, Mrs. Ruth Campbell Meeker about the women's defense course at the Illinois Institute of Technology, and Mrs. Thomas Creigh about Bundles for America.

Student speakers, who will be at home for their spring vacations, will be Sidney Meeker, Laura Winston, and Elizabeth Austin. Mrs. Carl G. Bingham, president, will preside.

An interesting way to raise money for a defense project was successfully carried out by Matrix, an organization of women writers, which recently made $100 on an auction. Mrs. William Donahey, president, was hostess for the event. The money will be used to buy table top games, stationery, and stamps for the recreation room at Navy pier. Among the items that exchanged hands at a fair price thru the glib coaxing of Miss Josephine Bessems, auctioneer, were a blue and white turkey platter, an inlaid cigaret box, a chocolate beater, two Spanish fashion prints, costume jewelry, and homemade preserves and jellies. Men friends of the members were invited to contribute articles and to take part in the auction.

The British War Relief society, which supports the American hospital in Oxford, England, is appealing for $300,000 to maintain the work for 1942. In addition, the society has 300 ambulances in Britain which it must continue to operate, and an obligation to help care for thousands of European refugees. Charles F. Glore, chairman of the Illinois committee of the society, in a letter asking for donations points out "Great Britain is the only outpost we have left in Europe and now that our own American boys are there, we must make doubly sure that that outpost is firm and strong." The Chicago office is at 30 North Michigan avenue.

It's time for spring salads again! The calendar says that two days of spring have come and gone already, and there's nothing like a crisp fresh salad to let every one know that you know spring is really here. You'll find many vegetables on the market now. Iceberg and leaf lettuce, cabbage, celery cabbage, celery, curly endive, watercress, dandelion leaves, spinach, parsley, green peppers, and carrots are a few of the basic salad ingredients which are in season. Keep an eye out for bright colored oranges, tart grapefruit, and red apples, not all "spring" fruits, but they'll make you feel like spring, in salads. Take home a small box of strawberries to make a fruit salad gay.

Chef's Salad.
[Serves 6]

¾ head lettuce
¾ head chicory
1 cup coarsely cut celery cabbage
3 tablespoons minced parsley
1 cup loosely packed watercress
1 cup coarsely shredded carrots
Fresh dressing

Chop lettuce and chicory. Combine with other ingredients. Just before serving, pour on French dressing and mix lightly. Serve from a wooden salad bowl.

With whisperings of spring outside, almost every homemaker gets a sudden urge to entertain. This luncheon salad will be the perfect answer to her problem of what to serve.

Spring Fruit Salad.
[Serves 6]

6 stewed prunes, pitted
3 medium sized oranges
1 pint strawberries
6 lettuce cups
Fruit dressing

Place a prune in center of each lettuce cup. Remove all membrane from orange sections and arrange in petal fashion around prune. Wash strawberries and hull. Arrange strawberries between orange sections. Top with fruit dressing.

Fruit Dressing.
[Two and one-half cups]

1 cup honey
½ tablespoon flour
¼ teaspoon mustard
1 tablespoon paprika
½ cup vinegar
2 teaspoons onion juice
1 cup oil
1 tablespoon celery seed

Mix together honey, flour, mustard, paprika, and vinegar. Cook over medium heat for two minutes. When cool, add onion juice obtained by scraping onion. Slowly add oil, beating into cooked honey-flour mixture. Add celery seed. Store in covered jar.

College Club to Be Host to School Art Director

The Chicago College club will entertain at dinner tonight for Miss Elizabeth W. Robertson, art director of the Chicago public schools, who will speak on "Children's Art Expression" and illustrate her lecture with original material and slides.

TODAY'S PRIZE RECIPE

Don't serve too much else when these waffles are on the breakfast table. The recipe for these crunchy and filling waffles wins today's prize of $5 for Mrs. Helen Wise, 7515 Kingston, Chicago. The nutmeats add to their goodness but may be omitted for the sake of economy.

That very special recipe of yours also may be worthy of one of the $5 prizes given daily in the Mary Meade Recipe contest. Write it in standard form, listing ingredients [all measurements level] in order of use, and giving clear and complete instruction for mixing and baking.

Crunchy Waffles.
[3 or 4 waffles.]

½ cup cornmeal
½ cup whole wheat
½ cup cup sifted all-purpose flour.
3 teaspoons baking powder
½ teaspoon salt
2 eggs, separated
¾ cup milk
3 tablespoons melted shortening or bacon fat
½ cup chopped walnut meats [optional]

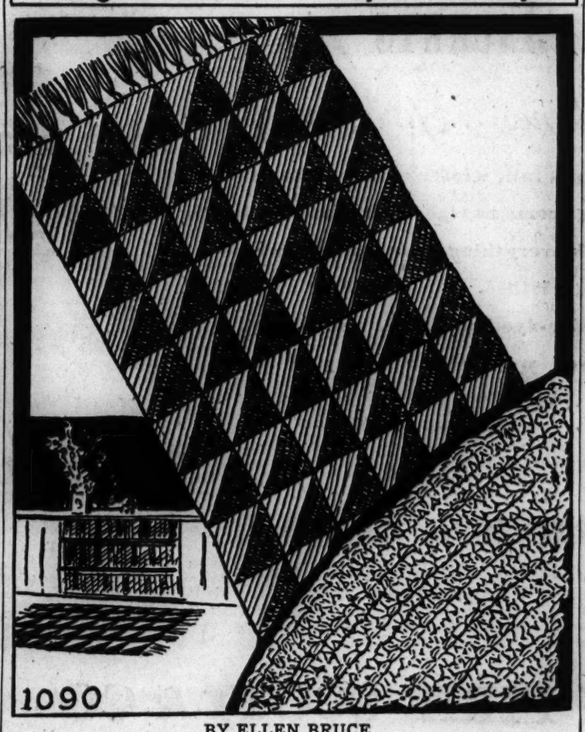

Mix cornmeal and whole wheat, and add to flour which has been sifted with baking powder and salt. Mix together well. Beat egg yolks slightly and add milk and melted shortening. Add liquid ingredients to the dry, stirring just enough to blend well. Fold in stiffly beaten whites and nutmeats. Bake in hot waffle grid until done.

[Send in your favorite recipe.]

Rug Made of Carpet Warp

BY ELLEN BRUCE.

Crocheted rugs created of carpet warp are durable as well as good looking. This two-tone rug is worked with double strands of carpet warp in green and white, and is not a difficult crochet trick to accomplish.

For instructions in crocheting the two-tone rug, No. 1090, send 10 cents in stamps or coin, plus 2 cents to cover mailing cost, to the Needlework Bureau, Chicago Tribune, 220 Fifth avenue, New York City.

Front VIEWS and PROFILES

BY MARCIA WINN.

If the Plates Fit, Take Them.

In this column's dubious and undefined rôle in the affairs of the world it is the recipient of many oddments and many strange queries. Nonetheless, it was with distinct surprise that we opened a fat envelope Saturday, for the envelope contained a set of women's false teeth.

Now, back in January an anonymous lady asked our help. Wandering down West Madison street one dawn, a procedure she considered quite usual, she had leaned against a cozy ledge, removed her new teeth, and dozed. After a refreshing nap she had wandered on, forgetting her essential and pretty plates there on the ledge. On the assumption that this could never be a satisfactory case of "finders keepers, losers weepers," we published her plea. The note which accompanied Saturday's fat envelope referred to it, adding: "No obligation, have expurianced a similer incident."

We are sure, as the anonymous lady pointed out in January, that the teeth make her much more attractive. We also are sure that they are not necessary to the conduct of this column. In their place they doubtless are both ornamental and useful, but we would like to see them restored to their place. Any takers?

No, Don't.

Final item in a British pamphlet for the guidance of air raid wardens:

Warning: Don't encourage people to be so suspicious that they won't take orders from any one.

Quandary.

The young sailors forming a guard of honor at the recent Bundles for America benefit were confused. *Gen. Joseph M. Cummins* was due any minute, and how should they salute him? Finally they consulted a near-by lieutenant. "O," he said gravely, "act just as if he were *Adm. Downes.*"

South Africa in Chicago.

Any one looking into a north side back yard one sunny spring afternoon not long ago would have seen a strange phenomenon. A man, a woman, and three children, all barefooted, solemnly walked up and down its confines, treading carefully thru the dried brown grass. Inch by inch they traversed it and finally were rewarded. The bare toes of one of the children collided with the diamond lost from the father's cuff link.

Hu, Hu.

Guy Murchie was in a London club last month. Behind him droned the conversation of two Englishmen high in the social scale:

"I heard something in the news the other day about an American poet."

"O, I didn't know they had poets in America. . . . Hu, hu."

"Yes, I believe they do, actually."

"Hu, hu. . . . I can't think of any."

"Yes, don't you remember Longfellow? He's the one who wrote *Hiawatha.* Didn't you read that in school?"

"O, indeed. . . . Hu, hu. . . . I remember now."

"I think there are a number of other American poets, too, and they probably have some good, modern verse. I'm not sure, tho. . . . Actually."

Sammy, the Indian.

Eight Jemez Indians from their pueblo near Santa Fe, N. M., have been in town the last few days, dressed in ordinary clothes but wearing colored ribbons around their heads so the populace will not think them Japs. The last name of all is *Fraqua,* and the youngest of the group is *Sammy,* who is 7. Escorted by officials of the Santa Fe railroad, they have seen all the sights, from aquarium to zoos. Sammy received all these visions of urban splendor with a fine reserve, but the Board of Trade building finally brought speech from his lips. "Ummm," he said, "how many pine trees high is that?"

Perfect Spring Clothes Found for Slim Folk

BY REA SEEGER.

When a smart boulevard shop launches a new collection of modestly priced spring clothes for shoppers with both a small clothes allowance and a petite streamline, you may be assured these new fashions are tops not only in quality but snap and distinction. If you wear suits, coats, and dresses size nine to sixteen and have to juggle the contents of your cash bag like a magician, this is your shop. For here you will find some of the best looking daytime dresses priced around seventeen dollars and up you've ever yearned to own.

There are dozens of stunning prints, dozens of snappy navy blue costumes accented with snowy white frills, with swishy contrasts of striped taffeta, with wide belts and wide band cuffs of brilliantly colored prints like Paisleys, and with solid colors like emerald green, coral, scarlet, and green gold.

For slightly more money, select any of the very trim, slim, and exceptionally young looking two piece dress suits, or the clever two piece jacket and skirt combines that double for a suit or can be worn as a dress. There are any number of very distinctive suits for the career girl made of such fabrics as smooth gabardine, swank plaids, and checks of the unobtrusive variety for indoor wear.

The coats are equally smart and unusual. Buttons, distinctive detail, flared skirts, flattering high round necklines and casually cut sleeves make them unbelievable finds at the price. If you like white dotted materials you'll like the many clever ensembles. If you crave that unmistakable feminine sound of silk, you'll more than like the simply cut daytime dresses that combine taffeta with thin wool so effectively that such models are smooth high fashion ideas for any occasion. In this same haven for the cash limited shoppers are amazingly low priced hats, bags, and gloves to complete any of the costumes.

Red Cross Class.

The Alliance Francaise has started a first aid class under auspices of the Red Cross to be held on Mondays from 11:45 to 1:45 o'clock. The instructor is Dr. Victoir Lespinasse.

THRU THE LOOKING GLASS

After science gets thru with its war work we hope its august attention will be devoted full strength to the problem of superfluous hair. There aren't many superficial ailments that bring so much unhappiness and irritation in their wake.

Women with an extravagant growth of hair on face, arms or legs have a real problem to cope with. For permanent removal electrolysis offers the best solution. It's tremendously important here to avail oneself of the best in the way of treatment.

Only an expert, and a reputable one, should be trusted with the task of removing the growth. Oftentimes your dermatologist or family physician will give you the name of a competent person to do the work, in which case you are undertaking it under the best possible conditions.

In some cases the hair can be bleached so that it is less noticeable; if this is possible by all means bleach it steadily and safely. If the growth is embarrassingly heavy, however, it's usually the best psychology to have it removed by one means or another.

The depilatories offer temporary relief. They are of various kinds and what you choose will depend pretty much on what you can use most deftly. In every case, tho, it's vitally important to read directions carefully and follow them exactly. The manufacturers, in their research, know the best methods of use and you are making a great mistake if you do not take advantage of their careful efforts to get the best results from their product.

Finds Chez Is Cheap At Twice the Price

Critic Enjoys Theater-Restaurant's - Show Now Starring Carol Bruce

By Wolfe Kaufman.

THE good part of being a boss is that you can pick your spots. And going to the Chez Paree is always picking the best. . . . . .

There is a special attraction at the Chez currently, of course, which automatically would lure this reporter. Carol Bruce is the new star of the show at the theater-restaurant, and Carol Bruce is wonderful. Not that I'm prejudiced, or anything like that. I'm just in love with her, that's all. (And if her boy friend, who is a well-known movie actor and about six-foot-two, is reading this, I'm only kidding, of course.) . . .

I sat there last night, at the Chez Paree, thinking things. Here, I thought, is one of the best show values in the world. Here is one of the few places in the world where you can get very good food and a very good show at the normal price of either one alone. . . . .

The show started with those unbelievably beautiful Fred Evans Adorables. One of the best lines in the country. Not only well routined, good dancers, beautiful costumes, original routines, but lovely to look at. Really beautiful. . . .

Willie Shore. He's one of the great talents of show business.

Well, and here's the steak. A truly wonderful steak. Cooked just exactly right. I'm not a steak-eater, normally. But this is a steak to relish and chew and remember. . . . .

The Chandra Kaly dancers are in a class of their own. . .

And that Boyd Raeburn is a doggone good leader. His orchestra is good and he is good. If I knew how to dance I would want to dance to music like his. And where he is playing for the acts in the show and good, too. An entirely different type of music, and he handles both. . . . .

Here comes Carol Bruce.

Sally Requests Wheel Chairs for 2 Invalids

BY SALLY JOY BROWN.

[Activities of the Sally Joy Brown department are sponsored by Chicago Tribune Charities, Inc.]

If any reader possesses a discarded wheel chair, we would like very much to have it for Mrs. W., who has endured a great deal of misfortune.

She has been blind for the last five years. Several months ago she became very ill and was hospitalized. Amputation of one leg was necessary. Now in her own home she is living on a very small income. Although she has made an effort to get around on crutches her lack of sight makes it extremely difficult. As a consequence she has fallen several times, but she cannot afford either to rent or purchase a wheel chair. The assisting agency will arrange transportation.

Mrs. D. writes from the north side of the city:

"Dear Miss Brown: Would you please try to help me get a wheel chair for my husband? He has severe arthritis in both legs, and also has heart trouble. The doctor advised that he be taken outdoors when the weather is pleasant, and I know he would enjoy it, because he has been ill for over a year.

"He is 68 years old and I am 63. Since I have had several major operations, it is hard for me to care for him. He receives old age assistance but we can't possibly buy a chair.

"It would make him very happy to go out even occasionally, since we live in a two room basement flat in the rear of the building."

THE Kitchen Kibitzer

BY MARIAN CARTER

A look over the shoulder of the kitchen manager in an attempt to speed, lighten and add some security to her daily routine.

That pretty bouquet of mixed herbs might look most attractive pinned on your lapel, but it'd find more practical usage as a seasoning for meats, soups, and stuffings. (You can get it in the dried form, too.)

* * *

Curdled custard doesn't make a very appetizing appearance at the table, so cook it over simmering, not boiling, water just long enough for the mixture to coat a metal spoon. It'll be smooth and creamy then.

* * *

Provide inexpensive little plastic knives along with the snack tray of crackers and cheese. They're attractive and most useful for buffet service.

* * *

If there's no vinegar or lemon juice on hand to produce sour milk as your recipe requires, use ¼ cup grapefruit juice, instead, for each cup of milk to be soured.

* * *

Are those leftover rolls becoming stale? Scoop out their centers, butter and toast them lightly, and use as containers for some creamed food at your next meal.

* * *

Like a deep red mahogany cake? Use a recipe that calls for baking soda and let the batter stand 10 or 15 minutes before baking. That will do the trick!

* * *

The English call it "cheddar," but we call it dairy cheese—both names referring to the product made from cow's milk.

* * *

Time can often be saved by cooking over direct heat rather than in the double boiler, but you'd better guard against scorching by placing an asbestos pad under the pan. And don't forget to stir the mixture frequently.

BY IRVING VAUGHAN.
[Chicago Tribune Press Service.]

Los Angeles, Cal., March 22.—The White Sox went about their spring chores in businesslike fashion again today, bowling over the Cubs, 8 to 4, with a shower of 16 hits. Thus the Sox acquired a 3 to 1 edge in preseason affairs with their home town rivals, who now have lost seven straight.

Bill Nicholson.

The Cubs did nothing to relieve Pilot Jim Wilson's worries over their ineffectiveness at the plate. They punctured the atmosphere with only six hits, or one more than yesterday's total, and for this improvement they voted a card of thanks to John Rigney, who came in after Bill Dietrich had dropped nine of them in a row. Rigney surrendered five hits and four runs in his three inning term, after which Joe Haynes gave further evidence that his ailing arm is as good as new. The ex-Senator permitted one hit.

Olsen Hit Hard, Hurt.

Vern Olsen, the Cub lefty, saw more than he bargained for in a stretch covering the first three innings. He was shelled for eight hits good for four runs and was pained in another way. He deflected Myril Hoag's grounder to end the third inning and two fingers on his right hand were bruised. Bob Bowman, the ex-Giant, then appeared and the Sox were somewhat gentle for two innings. But in the sixth, after a Cub outfield blunder, they gave him such a pasting he welcomed the conclusion of his workout. Jess Flores, the Los Angeles rookie, handled the last three innings, and was annoyed only by three harmless singles.

The Sox attack found Don Kolloway continuing the streak launched in the second of the series with the Cubs a week ago. He made two singles and a double today for 14 hits in the last six exhibitions. For this afternoon, at least, he was pressed by Bob Kennedy, who doubled off Olsen and nicked Bowman and Flores for singles. Leo Wells, the kid shortstop, hung close with three singles, and also continued to show that as a fielder he doesn't need any lessons from the missing Luke Appling.

Nicholson Has a Lapse.

One of the intermittent lapses to which Bill Nicholson is addicted aided the Sox to get their first inning run. Kolloway opened with a single Lou Stringer couldn't handle. Wally Moses flied to right and should have been retired, but the ball popped out of Nicholson's hands in Nick Altrock fashion. Stan Hack helped Olsen by making a one handed catch of Joe Kuhel's popup bunt. Wells then singled to left and Kolloway scored.

Taft Wright touched off the stormy three run second by singling to center, and Sam West assisted with an infield hit. Kennedy rifled his two bagger down the left field line, Wright scoring. Mike Tresh lined a single into center, West and Kennedy counting.

Lowrey Drives in Two.

As soon as Rigney went to work in the fourth the Cubs managed to find their way to base—with Rigney's assistance. To show 'em how it could be done he walked Hack and Charley Gilbert. Peanuts Lowrey then drove them home with the first of his two doubles. He was out trying to reach third, tho.

It appeared as if Rigney needed a

CUBS 'B' PLAYERS DEAL SAN DIEGO 2D LOSS, 4 TO 3

Cuyler's Squad Keeps Its Slate Clean.

BY EDWARD BURNS.
[Chicago Tribune Press Service.]

San Diego, Cal., March 22.—Kiki Cuyler's B squad, the Cub team which wins ball games, kept its slate clean this afternoon by again beating the San Diego Padres of the Pacific Coast league. The score today was 4 to 3 but the Cublets' traveling secretary had to rush in with the bases loaded, two out and a count of two wide ones on the batter to keep the success string intact.

The game was played before a colorful military crowd of 5,661 paid, a much larger turnout than the A team has been able to attract in California this season.

It was a good ball game from the start to the exciting finish. Since the windup was the most unusual part of the contest, we'll give you the details of the San Diego ninth.

Raffensberger Is Wild.

Walter Lanfranconi, who had yielded only one single in three innings of pitching prior to the ninth, had given way to a pinch batter. So Ken Raffensberger was asked to wind up the San Diego half of the final inning and protect a one run lead.

Ken got the first two batsmen, then seemed to become conscious of his promotion from the Cub A squad to the B squad. Jack Calvey lined a single to right. Then Mal Skelly walked on four pitches. George Detore went up in a pinch rôle and walked on five pitches, loading the bases.

Hal Patchett came up and Raffensberger sent up two offerings, each of which missed the plate by several feet. Traveling Secretary Tot Pressnell, who had sensed a minute earlier that Raffensberger was falling apart, hastily warmed up with two or three tosses. With the 2 and 0 count Secretary Pressnell went in. His first pitch was wide, but he came in with the next two and Patchett grounded out to Cy Block to end the game.

Collect 13 Hits.

The Cublets looked at some good pitching by Larry Heber and Bill Thomas, but nevertheless managed to sock out 13 hits at opportune times. Rip Russell had two doubles, Eddie Waitkus a double and two singles and Barney Olsen, Len Merullo and Dom Dallessandro a double and a single each.

Lanfranconi had no trouble at all in holding the Padres and became the winning pitcher by virtue of the tie breaking run which Dallessandro and Merullo fashioned with doubles in the eighth inning.

The B team has now defeated the Padres twice, the Champion Seattle Rainiers, the Runner-up Sacramento Solons, and the Los Angeles Angels.

CHICAGO GLOVERS STRONG ENOUGH TO RETAIN TITLE

BY HOWARD BARRY.

Chicago's Golden Gloves squad is conceded a strong chance to retain its supremacy in several of the weight classes which this city's representatives swept in last season's intercity matches.

Chicago's fighters last year took both the championship and alternate bouts in the bantamweight, featherweight, and welterweight divisions. In addition they won the 160 and 175 pound championship events and the 112 and heavyweight alternate encounters.

The squad will leave Wednesday for the east and will meet New York in Madison Square Garden next Monday in the 15th annual intercity matches.

Chicago Bantams Strong.

In the bantamweight division, where Ray Brown and Dick Menchaca took full control for Chicago last year, the present squad has Jack Graves, Harold Dade, Charles Riley, and Tommy Burns. Graves is the champion and Riley the runner-up. Dade was beaten by Graves in a quarter-final bout.

The champion is assured of his position on the squad which actually does the fighting. It's up to the other three to fight it out among themselves for the right to represent Chicago in the alternate spot.

It is generally believed that Dade, by virtue of his superior experience and past achievements, has the inside track in the race for the bantamweight alternate assignment. Twice in previous seasons, he was the flyweight Golden Gloves champion. He lost his intercity match last year to Diogenes Leon by a decision so close that the verdict brought prolonged boos.

Graves Shows Class.

If Graves and Dade should be Chicago's representatives, New York will have to come up with something pretty good to win either bout in the bantamweight class. During the Golden Gloves tournament, Graves scored successive victories in one evening over Chuck Hunter of Cleveland and over Dade, thus defeating within the space of a couple of hours the fighters who had been considered the outstanding bantams of the tournament.

In the New York bouts Graves will oppose Al Turner, champion of the east, and if Dade is chosen as Graves' running mate, he will meet whoever

Maple Leafs Defeat Rangers Again; Red Wings Triumph

New York, March 22 (AP).—The Toronto Maple Leafs defeated the New York Rangers tonight, 4 to 2, in the second game of their best of seven National Hockey league playoff serious. The Leafs won the opener, 3 to 1, in Toronto Saturday. A crowd of 14,696 saw tonight's game.

The third game of the playoff series will be played here Tuesday.

From start to finish the Maple Leafs, second to the Rangers during the regular National league season, played just about as they pleased. Their offense was faster and more effective than that of the Rangers, whose passing and shooting was more deliberate. Lineup:

RED WINGS WIN, 2-1

Detroit, Mich., March 22 (AP).—Center Don Grosso scored both goals as the Detroit Red Wings defeated the Montreal Canadiens, 2 to 1, here tonight before 12,371 in the opening game of their best two-out-of-three National Hockey league Stanley cup playoff series.

Grosso, the Red Wings' leading scorer, beat Goalie Paul Bibeault midway in the opening period and then drilled the puck past him for the game winning goal soon after the period started.

For two teams whose last regular National Hockey league games ended in near riots tonight's game was comparatively mild. Only two penalties were assessed and both, for minor infractions, were in the first period against Detroit players. The second game will be played Tuesday night in Montreal. A third, if necessary, will be held here Thursday night.

TOKLE FAILS IN TRY FOR 300 FT. LEAP ON SKIS

Salt Lake City, Utah, March 22 (AP).—Torger Tokle, North American title holder, leaped 235 feet at Ecker hill today but ski experts' hopes of a 100 yard record breaking jump was dashed by sticky snow.

Tokle, who holds the record at 289 feet, made the 235 foot leap in his first official jump at the intermountain championship meet. He leaped again, but his distance was a foot less.

Alf Engen of Sun Valley, Idaho, made 234 feet his first try but fell back to 229 on his second attempt.

Art Devlin jumped 225 and 222 feet.

BY CHARLES BARTLETT.

The Boston Bruins still have Frankie Brimsek and Roy Conacher. The Chicago Blackhawks have plenty of the old college try, but not enough hockey. That, in brief, was the story of the Bruins' 2 to 1 victory over the Hawks in their opening Stanley cup game last night in the Stadium. A crowd of 17,103 watched the defending champions win in 6 minutes and 51 seconds of sudden death action, after the Chicagoans had tied the score with only 70 seconds of regulation play remaining.

The two teams now travel to the Boston Garden where they will meet in the second game of the series tomorrow night. If a third game be necessary, it also will be transacted on the Bruins' rink, Thursday evening. The psychological advantage now lies with the champs, who are noted as the toughest team in the National Hockey league to beat on its own ice.

Just Too Much Brimsek.

To return to Master Brimsek, the Eveleth, Minn., boy who has just won the Vezina goalies' trophy for the second time in his brief major league career, it is said that he asks the Bruins for one early goal before he goes on the ice each time. Frank must have said "Please" in especially fervent tones last night, for Conacher obliged him in the 12th minute of the opening period. From there on Brimsek took charge, at least until the 59th minute. He gave a Vezina trophy exhibition all the way, making at least a dozen unbelievable stops against the earnest, if futile, Hawk wings.

Bill Cowley, Boston center, who has just returned to work after a broken jaw put him out for 20 games, and little Eddie Wiseman were given assists on the Conacher goal, but it wouldn't be amiss to credit Earl Seibert and Art Wiebe of the Hawks with assists, also. The two Chicago defense men suffered one of those mental blanks to permit Conacher to waltz thru them for an easy shot at Goalie Sam Lo Presti.

Max Bentley Ties Score.

The Hawks fought valiantly, tho clumsily, until it looked like that one goal would be sufficient for Boston. Then three young men from Saskatchewan got to work on Brimsek. They were Mush March, the Hawks' oldest playing hand, and the Bentleys, Max and Doug. They ganged up on Brimsek in a closeup duel that finally saw Max nudge the puck past Frankie at 18:50. It took Stadium attendants five minutes to clear the resultant debris from the ice before play could be resumed, and when it was, the speedy Bentleys were in

WEIGHT LIFTER BREAKS 20 YEAR OLD WORLD MARK

Brown of North Avenue 'Y' Raises 365 Pounds.

Harold Brown of the North avenue YMCA set a world's record in the press on back event, lifting 365 pounds in the 11th annual Central AAU weight lifting tournament yesterday in St. Philip gymnasium. Brown, weighing 161 pounds, broke the heavyweight mark of 363 pounds set by Joe Nordquest 20 years ago.

Tannin Sets Mark.

Harry Tannin of the Hyde Park "Y" defeated Ray Flyer of the West End Physical Culture club of Chicago, setting a new world mark in two hands curl event. Tannin lifted 152½, half a pound over the record set by Arthur Verge of England 14 years ago. Flyer lifted 145 pounds.

Frank Kay of the Chicago Weight Lifting club led his team to its fifth Central AAU title by scoring 840 pounds, 10 above his own Central AAU record. The total points scored was 11, followed by three teams tied for second with eight. They were the Hyde Park "Y," Northwest Weight Lifting club, and the Chicago Park district.

Sailors Have a Duel.

The closest battle was in the heavyweight class in which two navy champions battled for first place. The winner was Erwin Roger Central AAU champion who totaled 790 pounds, while runnerup honors went to Hubert Curtis with a total of 745.

George Hanus of the Chicago Weight Lifting club tied the middleweight two hands clean and jerk record in winning the division title. His lift of 290 pounds tied the record set by Tony Petroline five years ago.

Attendance at Tropical Park Up and Down

Miami, Fla., March 22 (AP).—Tropical Park officials, puzzled over sharp ups and downs in attendance figures, were hopeful today that two stake races on this week's program would attract enough fans to keep their spring meeting in the black.

Attendance has been somewhat below last year since the meeting started March 9, just as the turnstile figures were off during the winter meeting at nearby Hialeah Park.

Reached Bottom Friday.

This state of affairs reached its worst point Friday afternoon, when a 6,429, smallest crowd of the meeting, turned out. The men who took over the operation of the track this year for the first time were a little worried.

Then a surprising thing happened —the meeting's biggest crowd of 9,313 was on hand the next day to see Charles S. Howard's Mioland break the track record in winning the $7,500 Coral Gables handicap.

That seemed to indicate that the public likes the stake races, especially those in which the stars of the turf participate.

Will Watch Figures.

So obviously the track's backers will watch the attendance figures closely on Wednesday, when the $2,500 Viscaya purse is scheduled, and on Saturday, the day set for the $5,000 De Soto handicap.

Altho neither race is expected to draw an entry list comparable to that in the Coral Gables handicap, there are indications that a capable field will compete in each.

Dreamy Eyes and Snow Swirl are the early favorites in the Viscaya, a half-mile dash for filly juveniles. Augury, which equaled the Tropical Park 6 furlong record in its lone Florida appearance, is regarded as the likely public choice in the De Soto. The De Soto at 6 furlongs is the principal sprint event of the spring meeting.

SIX CLUBS WILL FORM THREE-EYE LEAGUE IN 1942

Decatur, Ill., March 22 [Special].—The Three-Eye league kill operate as a six club organization for 1942. That was decided here today following a report made by Terre Haute and Clinton officials to President Tom Fairweather. Neither city was able to secure major league sponsorship.

An all-star game between clubs representing the northern and southern sections of the league will be staged in the municipal stadium, in Terre Haute, Ind., Aug. 3.

Evansville, Ind., Springfield and Decatur, Ill., will form the southern half of the league with Waterloo and Cedar Rapids, Ia., and Madison, Wis., in the northern half.

A schedule of 120 games was adopted, calling for a May 3 opening and final games on Aug. 30, to be followed by Shaughnessy playoffs among the four top clubs. Cedar Rapids will open at Decatur, Waterloo at Evansville and Madison at Springfield. After six games, the clubs have an idle Saturday and then move to the northern cities for a second opening.

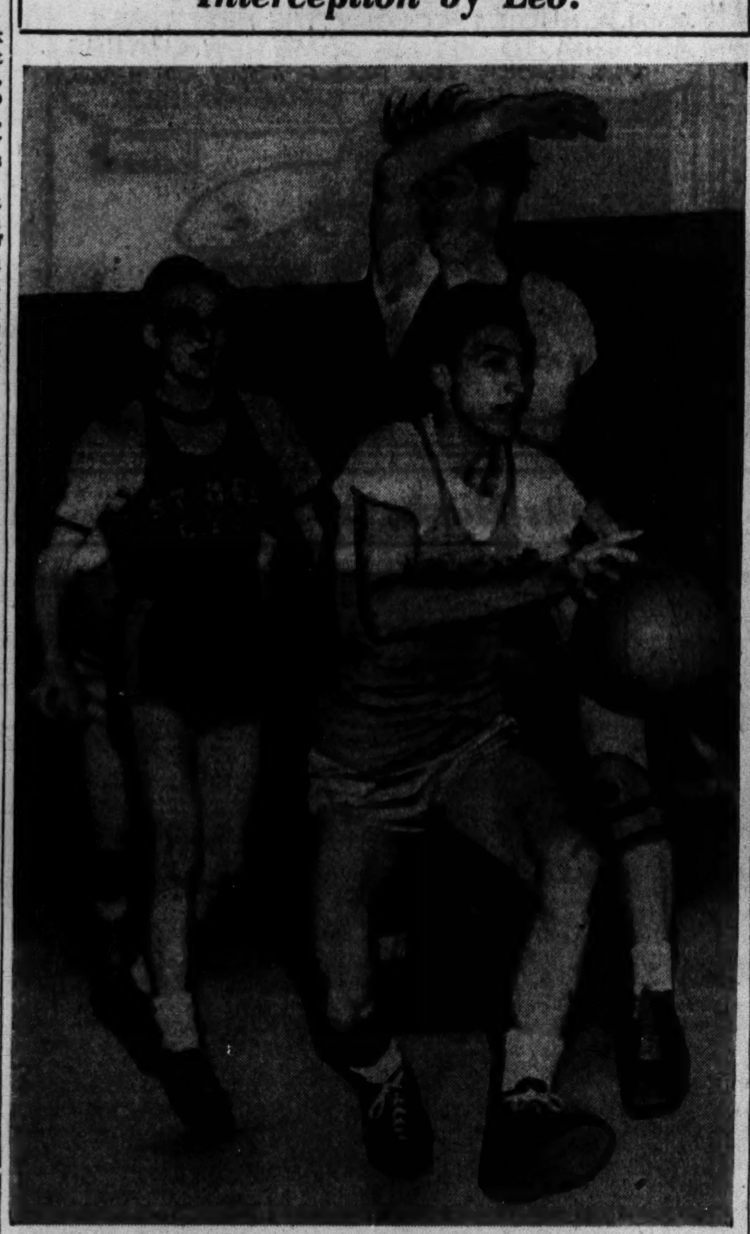

Roberts Wins Shoot-Off at Glen View Traps

S. M. Roberts won the shootoff in the singles trap shoot event with a score of 96 at Glen View club yesterday. Roberts and S. S. Gorham tied in the regulation shoot with scores of 98. The doubles event also resulted in a tie between Glen Smith and L. S. Gordon with 46 each. Smith won the shootoff with 22. The protection event was won by Paul Clovis and Fred McNally with a combined score of 95½. J. A. Thomas and W. K. Jaques tied in the men's skeet shoot with 49. Mrs. David Crawford won the women's with a score of 49. Mrs. Crawford also won the special class F skeet shoot.

St. Louis Pair Lands Second in ABC Meet

Columbus, O., March 22 (AP).—A St. Louis doubles team composed of Jacob Schnell and Vic Stauder, veterans of ABC competition, rolled 1,289 today for a second place tie in the American Bowling Congress tournament.

The Phillies Cigars of Philadelphia and the Hoosier Beers of South Bend, Ind., brought about changes in the five man standing tonight. The Phillies tied for third place with 2,956, and the Hoosiers, after a poor 866 opener, came back with 1,050 and 1,015 to score 2,931 for fifth place.

Schnell, 40 year old clerk, and Stauder, 42 year old carpenter, banged out games of 400, 436, and 453.

Norman Kelpe, also of St. Louis, went into sixth place in the all-events with a 1,886 score. He rolled 640 in the team event, 644 in doubles, and 602 in singles.

Ties for Eighth Singles.

Highest singles score of the day was the 682 turned in by Albert Timmerman of Green Bay, Wis., in tieing for eighth place.

Other changes in the doubles leaders put Alex Bukowski and Walter Mikorski of Cudahy, Wis., in seventh place with 1,241, Gene Cramer and Earl Reardon of St. Louis in eighth with 1,240 and Earl Noel and Fred Born of Bay City, Mich., in 10th with 1,230.

Eddie Hartmann and Frank Gacek paced the Chicagoland double teams with 1,215, with Edward scoring 629. Frank Eager and Roy Kulow closed with 1,169 while Jimmy Archer, ex-Cub catcher, turned in a 599 series, as his partner, John Cuthbertson was scoring 568.

Best in the singles among the Chicagoans was 637, scored by Hartmann.

Seven Chicago teams, headed by the Ambrosia Brews of the Classic league, rolled tonight. The Ambrosias scored 2,851 with the veteran Eddie Zajac pacing the team with 605.

Los Angeles Bids for 1944.

Harold Lloyd, movie comedian and producer, will arrive tomorrow with a trainload of Californians to whoop up Los Angeles' bid for the 1944 tourney. The ABC never has been held west of Kansas City. Indianapolis will be the only city to oppose the west coast at the annual convention Thursday, when the 1944 site will be chosen.

Chicago Has Power to Keep Intercity Title

[Continued from first sports page.]

is picked for the No. 2 spot—and every one agrees that his choice had better be good.

In the featherweight class, which Chicago swept last year with Phil Brown and Jack Haley, the 1942 squad has Sammy Derrico, Arlo Roye, and Proctor Heinold. This is going to be a mighty tough one for Chicago to sweep again because one of New York's best fighters, Tommy Rotolo, is champion of this division. It will be Derrico's job to try to take care of him.

Continue Drills Today.

Morris Corona and Bob Burns won both of the welterweight engagements for Chicago last year. This time both boys are champions, Corona having dropped down to the 135 pound class. Together with Burns in the welterweight division, Chicago has Marvin Bryant, Joe Krullitz and Pete Mead. Burns, who was captain of the 1941 squad, will encounter New York's champion, Benny Deans.

The Chicago boys continued their workouts yesterday in the Illinois Athletic club gymnasium. Coach Johnny Behr sent them thru sparring drills and floor work. They'll continue their regular afternoon sessions today and tomorrow and will get a full sized drill Wednesday morning before they go to the train.

Middlesworth Reported New Butler Director

Indianapolis, Ind., March 22 (AP).—The Indianapolis Star said tonight that Hugh Walden [Wally] Middlesworth, city recreation director and assistant football coach at Butler university, would be appointed athletic director at the university for the duration of the war. Athletic Director Paul D. [Tony] Hinkle is on a leave of absence to coach the Great Lakes Naval Training Station basketball team.

Annunciation Retains CYO Senior Crown

Annunciation's basketball team, trailing by nine points at the half, put on a late rush yesterday to defeat St. Anthony of Joliet, 43 to 39, in Loyola university gymnasium and retain its Catholic Youth organization senior championship. It was almost a personal triumph for the Hoffman brothers, Jimmy and George, who accounted for 31 points and deposited the clinching points thru the basket in the final minutes.

Champions Go Ahead.

Late in the fourth quarter, Annunciation tied the score, 39 to 39. Then George Hoffman's fifth basket sent the champions ahead, 41 to 39. Brother Jimmy then sank one from the field to raise his scoring total to 21. The victory gave Annunciation the Bishop Sheil trophy and a trip to Newark, N. J., to compete in a tournament against teams from New York, Brooklyn, and Newark.

St. Anthony had a 25 to 16 advantage at the half, largely due to the sharpshooting of George Mikan, 6 foot 9 inch center. But the champions' defense held their opponents to five field goals in the second half.

St. Leo Junior Winner.

St. Leo won the junior title by beating St. Mel, 25 to 24, on Bill McCoy's goal with less than a minute to play. St. Hedwig's Orphanage scored a double triumph when its prep team whipped St. Bernard, 29 to 23, and its grade school quintet beat St. Barbara, 26 to 21. Lineups:

Albany Senior Quintet Takes BBYO Crown

Three basketball champions were crowned yesterday in the B'nai B'rith Youth organization finals in the Lane Tech High gymnasium.

The Hyde Park Juniors Columbias won from Rothchild A. Z. A., 38 to 35. The Albany Park A. Z. A. seniors beat the Boys' Brotherhood Republic, 37 to 35.

Both the junior and senior winners will meet the Catholic Youth organization champions in an All-Star series Wednesday night at Lane Tech.

The lodge division league trophy went to Cardozo in an overtime victory over Albany Park, 30 to 27. The score was tied at 24 all when the fourth quarter ended.

All-Breed Dog Show Entries Close Today

Belated entrants have until noon today to register their pure breds for the annual All Breed Dog show sponsored by the International Kennel Club of Chicago Saturday and Sunday in the International amphitheater.

A heavy eleventh hour entry is expected to swell the total to over 1,300 nominations. It is reported that entries have been received from more than 25 states and that Canada will also be represented. Importance of the Chicago show has been enhanced because many annual major exhibitions in other cities have been canceled.

Schedule Whippet Races.

Whippet racing was announced yesterday as an added feature of entertainment for the visitors. Whippet races have been scheduled for both days of the show. Each race will consist of a minimum of four heats, and the semi-finals and finals will be run Sunday afternoon.

These fleet footed dogs will race over 100 yard courses. Among the 20 will be Ladysman of Ben Dor, winner of 95 out of 106 races.

Hold Obedience Tests.

Other features will include obedience tests sponsored by THE CHICAGO TRIBUNE and field trial exhibitions. Six events are scheduled for the latter competition, open to both retrievers and spaniels. Post entries will be accepted. The dogs will be worked in water and under field conditions. One of the four exhibit halls of the amphitheater will be converted into a cover for this purpose, flanked by bleacher seats for spectators.

Post entries also will be accepted for the amateur judging contest set for Friday afternoon as a preshow event. The contest is open to boys and girls between 14 and 21 years old. Cash prizes of $105 will be awarded to the six highest scoring boys and girls in judging four classes of dogs, each class consisting of a different breed.

MARATHON GOLF PLAYER TO JOIN THE NAVY TODAY

J. Smith Ferebee, 35 years old, who once played 600 holes of golf in four days to win a bet, will report for active duty today as a lieutenant with the Chicago naval aviation cadet selection board. Ferebee, an insurance executive, lives at 1110 North Mason avenue.

SUTKA TO SEEK REVENGE TONIGHT AGAINST BOLDEN

Nate Is Favorite in Return Bout at Marigold.

Joe Sutka, middleweight fighter from Wyandotte, Mich., will seek revenge for one of his losses in 1940 in a return bout of 10 rounds with Nate Bolden in Marigold Gardens, Broadway and Grace street, tonight. The 1937 intercity Golden Gloves 160 pound winner will go into the contest as a favorite, but Sutka is a highly respected outsider.

That's because of Joe's excellent showing in 10 rounds against Willie [Shorty] Hogue last month. Altho Hogue was awarded the decision, the match was nip and tuck all the way.

Supporting matches:

Willie Joyce, Gary, vs. Jimmy Maddox, Terre Haute [8], 140.
Johnny Rozina, Milwaukee, vs. Jimmy Grimm, Louisville [8], 150.
Dickie Miller, Peoria, vs. Richard Rigall, Chicago [4], 126.
Willie Pryor, Peoria, vs. Eddie [Kid] Carson, Chicago [4], 142.

Pete Schu, Argo heavyweight wrestler, will be Ali Baba's opponent in the windup engagement of a mat show this evening in White City, 63d street and South Park avenue, under the auspices of Fred Kohler. . . . Promoter Earl McClure yesterday canceled a scheduled eight round fight between Billy White, Baltimore welterweight, and Jack Whittinghill of Bloomington, Ill., in Midway arena Wednesday. . . . Tim Dalton, novice Golden Gloves lightweight champion, will meet Jack Smith of the Savoy Athletic club in an amateur fight in Cicero stadium Wednesday. . . . George Nyberg, Port Arthur, Ont., welterweight, who was beaten by Tony Motisi in Chicago last Jan. 26, has joined the Canadian army as a physical instructor.

Play 4 Games Tonight in South End Tourney

Play in the eighth annual South End Open basketball tournament will continue this evening in the 11th street YMCA. Tonight's games:

Joe Farons vs. Pullman Stepaways [N], 6:45 p. m.; Ray's Billiards vs. Beverly Auto [H], 7:45; Red Comb Feeds vs. Maywood [H], 8:45; Grand Crossing vs. Tim Ryans [L], 9:45.

ORPHANS RIDE HOME IN STYLE WITH PREP TITLE

Centralia's Four Year Crusade Ends Happily.

BY RICHARD RAMEY.
[Chicago Tribune Press Service.]

Danville, Ill., March 22.—Orphans of the Storm, a four word nickname for Centralia High school athletic teams, was cooked up one wintry day when Coach Arthur L. Trout herded an entire basketball squad into his automobile and sallied forth to battle. Trout, compelled to operate on a limited budget, was irked over such poor transportation facilities. He originated the monicker sarcastically. It stuck thru bad times and good.

What a misnomer it was this sunshiny morning of a new spring. A caravan of cars trekked out of Danville at 11:10 o'clock southward bound for 145 miles, carrying the 1942 Orphans back home. Comfortably seated were the newly crowned Illinois prep basketball champions, foremost of whom is the fabulous Dwight [Dyke] Eddleman. Trout still was in command, after 28 years on the job, and he, too, went back to Centralia to receive the plaudits of jubilant fellow townspeople and the key to the city from Mayor Wendell Webster. The Orphans learned on arrival in Centralia late today that schools will be closed tomorrow as the home folks continue the celebration.

A Happy Final Ride.

Traveling has been routine for the Orphans. They commuted from Danville headquarters to the 35th annual state tournament in Champaign. But what a happy final 35 mile ride they had, carrying along the championship trophy. For three seasons Eddleman and Centralia teams crusaded for this plaque unsuccessfully. A fourth failure appeared imminent. Centralia was trailing by 13 points with less than six minutes to play and its deft ball handler, Farrell Robinson, had been banished on fouls. Yet Centralia won the game, 35 to 33, breaking the hearts of Paris fans and the 39 game winning streak of a previously unbeaten Paris team.

Eddleman, the nation's school boy hero, at long last achieved the only athletic honor to elude his grasp. Trout became the first in history ever to coach three Illinois championship prep quintets. Centralia equaled Rockford's record of three titles. These feats account for today's rejoicing in the oil country of Marion and Clinton counties.

Twice a High Jump Champion.

Twice Eddleman has won the state prep high jump championship [his best leap 6 feet 5½ inches]. He played his first season of football last fall, rushed his 185 pounds for 127 points and was hailed as an all-state half back. He scored 969 points during the 1940-'41 basketball campaign for a state record. He led Centralia thru a 42 game winning streak that ended in the 1941 state semi-finals. This year he wanted most of all to play on an Illinois championship five. The ambition blossomed into reality yesterday after two of the most sensational rallies in state tourney history. He reached the goal thru the help of his teammates plus his own inimitable performances.

Remarkable, too, is the fact that the four regulars who teamed with Eddleman last year were graduated in June. Eddleman's new mates are Robinson, Bob Wham, Jim Seyler, and Fred Pearson. The reserves are Bernard Schifferdecker, James Edgar, Bill Davies, Virgil Krutsinger, and Farrell Benefiel.

Centralia's only conquerors this season were West Frankfort, 40 to 20; Carbondale, 33 to 28 and 35 to 33; Mount Vernon, 26 to 23 and 32 to 29, and Paris, 47 to 36. The Orphans beat Mount Vernon in a sectional final nine days ago, 44 to 43, to qualify for the state meet; beat West Frankfort in a return match, 32 to 18, and again in the first round of the state tourney, 42 to 28, and climaxed its campaign with revenge over Paris.

Gets Four Important Points.

Six foot, two inch Eddleman has had some big scoring sprees. His high runs this year have been 44, 41, 38, 34 and 31. And he set a state tournament single game record of 26 in the first round Thursday. None of those splurges, tho, provided Dyke such a big thrill as lesser totals gave him in the last three battles. Those were the close ones as Centralia beat Wood River, 31 to 29; Freeport, 45 to 42, and then Paris, 35 to 33.

Eddleman scored none of the points that reduced Centralia's deficit from 30-17 to 31-27 against Paris. But he got the next two. Then, in the last minute, he dropped in two free throws to tie the score at 33 to 33 and the subsequent winning goal. In the semi-finals yesterday he scored four baskets and a free throw in the last four minutes as Centralia's rally wiped out Freeport's six point lead.

Eddleman counted 26, 11, 19, and 16 points, respectively, to lead tournament scorers with a total of 72. Gerry Dirksen of Freeport was second with 59; Nate Middleton of Paris, third, with 52.

HARRISON GETS 68 IN PRELUDE TO NORTH-SOUTH

Pinehurst, N. C., March 22 (AP).—J. W. Roberts of Columbus, O., and E. J. [Dutch] Harrison of Little Rock, Ark., won the amateur-professional golf prelude to the 40th annual North and South Open today with a net score of 32—33—65. Harrison had a 68 and really took charge of the competition when he finished with 2—4—3—3, three of them birdies. Roberts helped on three holes.

The Open starts Tuesday. Among those who will participate are Gene Sarazen, Jim Ferrier, Willie Goggin, Ralph Guldahl, Ben Hogan, Chick Harbert, Lloyd Mangrum, Ray Mangrum, Sam Parks Jr., Henry Poe, Henry Ricard, Tonny Penna, Horton Smith, Joe Turnesa, Craig Wood, and Sam Snead.

DODGER PITCHERS YIELD 3 HITS TO BEAT REDS, 7-1

Cardinals Beat Yankees, 6 to 3.

Tampa, Fla., March 22 (AP).—Chet Kehn, Montreal recruit, hurled six perfect innings as Brooklyn defeated Cincinnati today, 7 to 1. Johnny Rizzo won the game for Brooklyn in the first inning by doubling with the bases loaded. Arky Vaughan hit three singles.

Bert Haas, Red third baseman, singled to start the eighth inning for the first Red hit of the day. He was followed by Hank Sauer, who also hit and Haas scored a moment later on a double play ball that went awry.

CARDINALS, 6; YANKEES, 3.

St. Petersburg, Fla., March 22 (AP).—The St. Louis Cardinals made four runs in the eighth inning today to beat the New York Yankees, 6 to 3.

The Yankees scored in the seventh on Ed Levy's triple and Mike Chartak's single to move out in front after Walker Cooper's home run in the sixth tied the score.

Then came the eighth. With Marv Breuer on the mound, Stan Musial doubled past Phil Rizzuto. Walker Cooper walked and Martin Marion singled to deep short to fill the bases.

Harry Walker batted for Bob Blattner and singled over Joe Gordon's head for the first run. Ervin Dusak took Murray Dickson's turn at the plate and forced Cooper. Jim Brown then rolled to Gordon who tossed to Rizzuto for the forceout and, as the shortstop pivoted for a double play, he fell and the ball sailed to the fence. Dusak was out but Marion and Walker scored. Johnny Hopp brought Brown in with a double.

SENATORS, 6; GIANTS, 1.

Miami, Fla., March 22. (AP).—The New York Giants hit a new low but nothing else today as they tapped out two singles and were defeated for the second straight day by the Washington Senators, 6 to 1. The New York run came in the fifth when Walt Masterson walked Johnny Mize with the bases loaded. Both the Giant hits were made off Masterson, who hurled the first five innings. Bill Kennedy, recruit from Charlotte, N. C., allowed only two New Yorkers to reach first, one on a walk and one on an error.

PHILS' TRADE RUMOR.

Miami Beach, Fla., March 22 (AP).—Rumors of a trade hit the Phils training camp today. Owner Gerry Nugent was believed to have talked with the Giants concerning a trade of a Phils' pitcher and possibly Shortstop Bobby Bragan for Shortstop Joe Orengo and perhaps a Giant outfielder.

The Phils regulars trounced a utility squad, 20 to 6, in a practice game.

Wyatt Leaves Holdout Ranks; Joins Dodgers

Daytona Beach, Fla., March 22 (AP).—Whitlow Wyatt, last of the major leagues' top flight holdouts, today signed a one year contract to pitch for the Brooklyn Dodgers at a reported salary of $17,500.

Wyatt would say only that a satisfactory agreement had been reached with Larry MacPhail, president of the Dodgers, and that his contract carried no bonus clauses.

The Georgia farmer won 22 games and lost 10 for Brooklyn last season and was paid a reported salary of $11,500. This spring he held out for $20,000. MacPhail countered with $13,500 and bonus clauses.

Wyatt arrived this morning and engaged in a routine drill with the club's B team under the direction of Freddy Fitzsimmons. Late in the day MacPhail returned to the camp and the two went into conference.

BROWNS, 2; BRAVES, 1.

Sanford, Fla., March 22 (AP).—The St. Louis Browns scored their fifth triumph in seven exhibition games by defeating the Boston Braves, 2 to 1, today on the three hit pitching of Bob Muncrief and Denny Galehouse.

The Browns got only four hits of their own, but two were doubles by Harlond Clift, who set up one run and scored the other after a walk. The Braves made only one safety off Muncrief, but scored off Galehouse in the eighth when Frank Demaree singled after two men walked. Score:

St. Louis	001	001	000—2 4 0

INDIANS BEAT KANSAS CITY.

Clearwater, Fla., March 22 (AP).—The Cleveland Indians cashed in on all but one of their seven hits today to defeat the Kansas City Blues of the American association, 8 to 4, and even the series at one each.

The Tribe scoring, helped by Fabian Gaffke's home run, took advantage of three Blue errors and eight bases on balls.

PRO-AMATEUR IS WON BY WEHRLE AND SAM SNEAD

St. Augustine, Fla., March 22 (AP).—Sam Snead of Hot Springs, Va., and his amateur partner, Wilford Wehrle, Racine, Wis., today won the $3,000 National Amateur-Professional golf tournament for the second straight year. They defeated Bill Nary of Rancho Sante Fe, Cal., and Freddie Haas, New Orleans, 6 and 5.

The defending champions, playing sensational golf, were 12 under par for the 31 holes played.

Conn Watches Louis, Claims Joe Is Slow

Fort Dix, N. J., March 22 [Special].—More than 2,200 soldiers and visitors watched Champion Joe Louis box six hard rounds with his four sparring partners today in preparation for his bout with Abe Simon in Madison Square Garden Friday night.

At the ringside was Private Billy Conn, from Fort Wadsworth, N. Y., who may face Joe in June for an army relief benefit bout. Conn's only comment was: "Joe's punching a little slower than he should be at this stage of the game."

Difference of Opinion.

Eddie Blunt, sparring mate of the champion, put in a decided dissent when Louis clipped him with a hard fast left hook. Only experience kept Blunt on his feet. Mike Jacobs, too, appeared impressed with Joe's performance today.

Starting tomorrow Louis will spar four rounds each afternoon for three days, winding up his training on Wednesday. Joe will rest on Thursday and leave for New York Friday morning.

Joe's share of the Simon fight will go to the army emergency fund for widows of soldiers.

SIMON SHARPENS TIMING.

Summit, N. J., March 22 (AP).—Abe Simon, Joe Louis' huge foe in Friday's army emergency relief boxing show, sharpened his timing today against a pair of sparring partners and then took to the heavy bags for three rounds.

Jimmy Johnston, manager of the 249 pound New Yorker, said Simon would not box tomorrow but would take his customary five mile road jaunt in the morning.

INDIANA PREP CHAMPIONS GET WILD WELCOME

Washington, Ind., March 22 [Special].—The Washington High school Hatchets, kings of Indiana prep basketball for the second straight year, came home today to a tremendous welcome. Thousands of townspeople and fans from the surrounding countryside shouted the lusty greeting to the team which last night whipped Burris of Muncie, 24 to 18, for the title in Indianapolis.

Hundreds of fans in automobiles participated in a parade from the north edge of the city, with Coach Marion Crawley and players riding atop a city fire truck. The high school band played as the merrymakers wended their way thru the business district.

In the Community gymnasium, after the parade ended, the triumphant coach and his athletes were cheered by the thousands. Short talks were made by Mayor Samuel H. Smith, Principal Harry Wampler and Supt. Clyde Parker of the city schools while Coach Crawley and each of the players said a few words.

It was the third such celebration Washington fans have held. The Hatchets first won a state title in 1930. Today's celebration dwarfed last year's. Several members of former championship teams were present and added their words of praise to the 1942 champions.

ST. SABINA TITLE GOES TO DE PAUL FRESHMEN, 38-24

De Paul university's freshman basketball team last night won the fifth annual Central AAU tournament sponsored by St. Sabina Community center, by defeating St. Elizabeth of the Catholic Youth organization, 38 to 24.

George Mikan led De Paul with 15 points and Nathaniel Clifton topped the losers with 12.

In the playoff for third place the Acme Steel quintet defeated People's Market, 41 to 27. John Jorgenson of People's Market was awarded the most valuable player trophy.

for two more hair raising shots at Brimsek.

That Bentley goal acted as a tonic for the Hawks, since they held the upper hand in the early stages of the overtime. Then Cowley, one of the top play makers of the league, snared the puck just inside the Hawk blue line. He stick handled it until he saw Conacher loose on the north boards. Here, it appeared, the entire Hawk personnel rushed the dangerous Conacher. In so doing, they left Des Smith, Boston defense man and one time Black Hawk, open and alone in front of the unprotected Lo Presti. Conacher slyly batted the disc out to Smith, and Lo Presti didn't have a chance to stop him.

Hawks Miss Many Chances.

The Hawks looked better offensively in the first five minutes of play than they did until the heroics by March and the brothers Bentley. It was this same trio which gave Brimsek his first serious business of the night, following the objection of Jack McGill for charging Max Bentley into the north boards. The Hawks, however, were presently on the defensive themselves, Doug Bentley being sentenced for tripping Smith during a Chicago raid on the Boston net. In spite of Doug's absence, the Hawks carried the puck for most of the two minutes, the best efforts being shots by Seibert and Hamill.

In the eighth minute the Hawks drew another chance, when Crawford was penalized for interference. Here their passing began to bog down, with the result that a blistering drive at Brimsek's toes by Doug Bentley was the only solid shot recorded.

Caught—and Flatfooted!

Came the 12th minute of play, and the aforesaid defensive boner by the Hawks. Conacher, Cowley, and Wiseman were lounging about the Chicago blue line when they suddenly went into action and trapped the puck just inside the line. Bill and Eddie worked it over to Roy, who was floating in center ice, about 20 feet in front of Seibert and Wiebe. Ordinarily Earl and Arthur constitute a fairly solid wall against an onrushing opponent, but they were just so much smoke as the lean Bruin wing slipped between them. Before their frantic lunges at recovery caught up to him Conacher had rifled the puck past Lo Presti.

Izaak Walton League to Open Meet on Thursday

The 20th annual convention of the Izaak Walton League of America will be held in the La Salle hotel for three days starting next Thursday. More than 200 delegates, including many national and state conservation officials, legislators, and scientists, are expected to attend the sessions, many of which will be devoted to discussions of conservation of natural resources with a view toward aiding the war effort.

Karl E. Mundt, congressman from South Dakota and national director of the league, will speak on "Water—Source of All Life," with emphasis on the necessity of maintaining supplies of pure water in the event municipal water systems might be put out of action.

TILT WINS TWO LINCOLN PARK GUN CLUB EVENTS

C. A. Tilt captured two events and tied for another in the weekly shoot yesterday at the Lincoln Park Gun club. Tilt won the .410 gauge AA shoot with a score of 43, and added the .20 gauge AA event with 46. He was tied by Harry Altice in the .28 gauge AA event. Mrs. Potter Palmer III. scored 46 to win the class C .410 gauge event, and William B. Cox scored 48 to win the class D shoot in the same gauge. Results:

Mount Carmel Wins Catholic Junior Title

Mount Carmel High school last night won the Catholic league basketball junior championship by defeating Weber, 28 to 20, in De La Salle High school gymnasium. A crowd of 1,800 saw the north section champions maintain a narrow margin most of the route against the south section standard bearers.

This game ended the 1941-'42 Catholic league season. Leo High previously had won the title in the senior division. The junior champions are coached by Johnny Jordan.

The 12 points hung up by John Kempfer, Mount Carmel center, loomed large in the low scoring game. He made five field goals and two free throws. Weber was held to six goals from the field. Score:

ST. JOHN'S WINS WALTHER SENIOR BASKET TOURNEY

St. John's of Forest Park last night captured the 9th annual Walther league senior basketball tournament at Concordia college in River Forest by defeating St. Andrew's of Chicago in the final, 39 to 33. Wally Benedick paced the attack for St. John's with 11 points, accumulated by five baskets and a free throw.

In the third place game which preceded the feature, St. Stephen's of Chicago whipped Trinity of Villa Park, 34 to 31.

No Goals for Matevich, So Slovaks Lose

BY OFFSIDE.

Pete Matevich, brilliant inside left of the Slovak soccer eleven, was shut out yesterday for the first time in two seasons. The jolt was of such dimensions that the Slovaks, who probably will meet the Chryslers of Detroit in the western division semi-finals of the National Amateur cup tournament, lost their opening Spring league contest to the Kickers, 3 to 2, at Addison street and Kimball avenue.

Matevich was completely throttled by Right Half Ekel and Center Half Shieber of the Kickers, who clung to the Slovak star like flypaper thruout the contest, rushing and harrying him every time he got control of the ball.

Tomecek Scores First.

Smitty Tomecek scored the first goal of the game, driving into the net after 13 minutes to give the Slovaks a 1 to 0 lead. Seven minutes later Hans Ivan tied the score for the Kickers on a shot from five yards out. That ended the scoring until the 35th minute, when Steve Daniels put the Slovaks back into the lead with a goal from 40 yards out on a free kick. A minute later Erwin Metinelt tied it up for the Kickers and it was 2 to 2 at the half.

Error Brings Defeat.

Neither team was able to score during the second half until three minutes were left to play, when a costly error by Ted Dubek gave the Kickers victory. Dubek, trying to save, decided to kick clear instead of catching the ball, and booted it into the onrushing form of Arne Wehr from whom it caromed into the net for the deciding point. Lineup:

Goals—S. Tomecek, Daniels, Ivan, Metinelt, Wehr.

Substitutions: Slovaks—Petroff, Fanor. Kickers—Dorland.

Referee—E. Korer.

Two first division results that will have a bearing on the championship were the 4 to 2 victory of the Molines over the Centers and the 1 to 1 tie between the South Side Swedes and the Linneas. The Sam Redas were dealt another setback, 3 to 0, and Joliet Moose won its first game by beating the Workers, 2 to 0.

little help, so his pals gave it to him in the sixth. The inning opened with Gilbert dropping Kennedy's semi-liner. Tresh, Rigney, and Kolloway immediately assaulted Bowman with two baggers for a batch of four runs, which proved valuable in view of Rigney's embarrassment in the Cubs' half of the inning. Lowrey again doubled and Nicholson drove a homer into the right field seats. Babe Dahlgren also doubled, but was nailed trying to frisk an extra base. Thereafter everything was quiet.

The Cubs will be in Hollywood tomorrow for an argument with Frankie Frisch's Pirates. The Sox will remain at Wrigley Field for a renewal of spring warfare with the Athletics whom they already have spanked twice. The Cubs will employ Jake Mooty and Chief Vallie Eaves on the mound. For the Sox it will be Pete Appleton, making his first appearance of the year, Ed Weiland and Orval Grove.

PARENTS OF FOUR KILLED IN CRASH AT BENSENVILLE

Couple's Auto Wrecked by Milwaukee Train.

Harry Krumwiede, 43 years old, an automobile mechanic, and his wife, Rose, 39, were killed yesterday when their automobile was struck by the Midwest Hiawatha of the Milwaukee road at the Church road crossing in Bensenville. The automobile was knocked clear of the tracks. Both were dead when rescuers reached the wreckage. The accident orphaned the four Krumwiede children, Harold, 16; Leroy, 12; Bobbie, 8, and Audrey, 3.

Police Chief M. Matson of Bensenville said the crossing is protected by flasher type signal lights. The family recently moved to a small truck garden near Lake street on the outskirts of Bensenville.

Crash Injuries Fatal.

John A. Martin, 52, of 1008 Columbia avenue, Oak Park, vice president and general manager of the Wesco Foods company and assistant director of purchases for the War Production board in Washington, D. C., died in Berwyn hospital of injuries suffered Saturday when a train demolished the automobile in which he was riding.

Martin's automobile, according to police, ran into one driven by Louis Christensen, 36, of 3735 West 17th place, at the Windsor and Harlem avenues crossing of the Burlington railroad in Berwyn. Christensen's car was knocked off the crossing but the Martin car came to rest on the tracks and was struck by a westbound train.

Roscoe Seymour, 42, 1745 Brown avenue, Evanston, died early today after he had been struck last night at McCormick road and Church street, Skokie, by an automobile driven by John A. Haman, 23, of 810 Michigan avenue, Evanston.

Dies After Auto Accident.

Morris Posner, 78, 5546 Winthrop avenue, died last night in Swedish Covenant hospital of injuries he suffered Saturday when he was struck at Foster and Kenmore avenues by an auto driven by James O. Foster, 5049 Winthrop. Foster was charged with reckless driving.

Carl Hill, 13, a Negro, 4253 South State street, was fatally injured by a truck at 59th and State streets. Otis Davis, of Indianapolis, was the driver.

Hugo Liebman, 60, of 1903 Cuyler avenue, a painter, died in Martha Washington hospital of injuries suffered March 14 when he was struck by a truck at Irving Park road and Wolcott street. Albert Descamps, 19, of 5102 North Clark street, was the driver.

Edward Veselka, 37, a roofer who lived at 2800 South Spaulding avenue, was killed last night when he was struck at 31st street and Homan avenue by an automobile driven by Wendell Byrne, 19, of 1317 South Harding avenue.

Up to 4 p. m. yesterday, 178 persons had been killed by automobiles in Cook county since Jan. 1. Of these, 140 were killed in Chicago where 4,407 were injured in traffic accidents during the same period.

HERSHEY TELLS FIRMS TO DECIDE ON NEEDED MEN

Wichita, Kas., March 22 (AP).—Brig. Gen. Lewis B. Hershey, national selective service director, advised employers today to take stock of the men on their pay rolls and decide "what you can spare and what you need."

"Production of war equipment and food and civilian activities must go on," he told the state convention of junior chamber of commerce. "There will be a scarcity of people to do the job and it means that every one must work harder and longer if we are to accomplish the things that must be done.

"You have men in your plants who are 1A's. Therefore it is up to you to decide what men you can spare. . . . If you believe you've got to have a certain man to keep up production, you must share the responsibility with the draft board for keeping that man back."

Men in 3A classification who "married recently to escape the draft must be taken now," he said, adding that other physically able 3A men not in essential jobs may go into "defense industries and into those things that must be done."

Bystander Wounded When Barman Fires at Fighters

Walter Bierski, 42 years old, 1006 North Wolcott avenue, was shot and seriously wounded early today in a tavern at 1711 Division street when the bartender fired on one of five men who had started a fight. The bartender is Walter Zarzycki, 39, of 1238 North Damen avenue. One of the five patrons threw a stein at Zarzycki, who loosed a blast in return from a 12 gauge shotgun, wounding Bierski, who was sitting at the bar.

Milk Mixture for Stomach Ulcer Pains

A recent medical discovery now being used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcer pains caused from excess acid. It is a harmless preparation yet so effective that in many cases the pains of stomach ulcers disappear almost immediately after it is used. Also recommended for gas pains, indigestion and heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of Lurin from their druggist. Lurin contains this new discovery in its purest form. Easy to take. Just mix two teaspoonfuls in a half glass of milk. Costs but little. Try a bottle, it must satisfy or money refunded. Lurin for sale by Walgreen, Stineway, and drug stores everywhere.

LITTLE ORPHAN ANNIE: Tramp! Tramp! Tramp!

TWO EASTER FLOWER SHOWS IN CITY PARKS WILL OPEN SATURDAY

The annual Easter and spring flower shows at the Garfield park and Lincoln park conservatories will open Saturday and will continue thru April 12. The conservatories will be open from 8 a. m. to 10 p. m. daily.

Flowers not available because of war conditions will be replaced by others. Azaleas and rhododendrons will be featured instead of Easter lilies. Lily plants grown in America will be substituted for the plants annually imported for the shows from Japan in previous years. Hyacinths also will be unavailable.

At the Garfield conservatory Angel trumpets will be exhibited. They are treelike plants with foot long white trumpet shaped blossoms. At the Lincoln conservatory the usual large cross of white flowers bordered by purple cinerarias will be the dominant exhibit.

The 23d annual National Flower show closed last evening in a maze of color and fragrance having attracted a record breaking attendance of 175,000 persons thruout the week. More than 25,000 in addition to thousands of service men who were admitted free, attended the show in the International amphitheater yesterday.

LAST ELGIN G. A. R. VET HONORED ON 99TH BIRTHDAY

DeVolois Stevens, the last surviving member of the Elgin Veterans' post 49 of the Grand Army of the Republic, celebrated his 99th birthday yesterday at his home in Wasco, west of St. Charles. Numerous relatives and friends visited him thruout the day and scores of birthday cards from Wasco school children and well wishers thruout the country were received. The veteran served with the 122d New York infantry during the Civil war and was wounded during the Battle of the Wilderness in May, 1864. He came to Kane county 75 years ago and has resided in Campton township since.

JOSEPH F. NAST, SUBURB SANTA, DIES AFTER FALL

Park Ridge's Santa Claus died yesterday as the result of a broken leg he suffered two weeks ago. He was Joseph F. Nast, a picture framer living at 214 Ridge terrace in the suburb. He was 77 years old. For many years Mr. Nast had been a familiar ruddy, roly-poly figure who officiated at the community Christmas tree and at school Christmas celebrations. He leaves four sons and five daughters, and a brother, Christian, the village treasurer. Funeral services will be held at 2 p. m. Wednesday in St. Luke's church, Park Ridge.

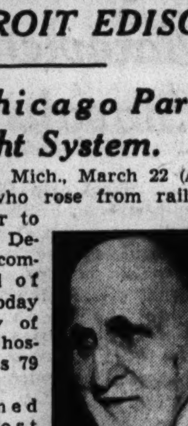

FOURTEEN CASES OF LIQUOR STOLEN.

Kenneth Johnson, official of the P. A. Johnson Trucking company, reported to police yesterday the theft of 14 cases of liquor valued at $350 and two revolvers from the firm's premises at 452 North Jefferson street.

ALEX DOW DIES; FORMER HEAD OF DETROIT EDISON

Built Chicago Parks' Light System.

Ann Arbor, Mich., March 22 (AP).—Alex Dow, who rose from railroad messenger to head of the Detroit Edison company, died of pneumonia today in University of Michigan hospital. He was 79 years old.

Alex Dow.

Often termed Detroit's most useful citizen, Dow relinquished active charge of Detroit Edison in 1940 after 44 years of service to become chairman of the utility's executive committee.

Born in Scotland.

A native of Scotland, Dow was a widely known consulting engineer and at the time of his death was district ordnance chief of the United States army, a post he had held since 1932.

Dow came to the United States in 1882. He served successively with the Baltimore & Ohio railroad, the Baltimore & Ohio Telegraph company, and the Brush Electric company of Cleveland. As an engineer with the latter concern, he supervised the design and construction in 1892 of Chicago's south park lighting system.

Built Detroit Plant.

In 1893, then 31, Dow was appointed municipal engineer of Detroit and designed and supervised construction of a city lighting plant.

He was a past president of the American Society of Civil Engineers and a fellow of the American Institute of Electrical Engineers.

Altho he maintained a residence in Detroit, Dow's family home was in Barton Hills, near Ann Arbor.

He is survived by his widow, the former Vivienne Kinnersley of Baltimore, Md.; two sons, Douglas and Lothrop, of Detroit, and two daughters, Mrs. Margaret Connell and Mrs. Dorothy Parker. Funeral arrangements have not been completed.

CANADIAN FLYER DIES AS CHUTE FAILS TO OPEN

Lee, Me., March 22 (AP).—One flyer was killed and another landed safely in bailing out of a Canadian army plane which crashed in a snowstorm at Prentiss, about 10 miles northeast of here, tonight.

The Lee telephone operator said she had been informed by men who went to the scene that the dead aviator's parachute had failed to open.

The flyers were reported to have come to earth not far from the Springfield-Prentiss road.

Prentiss is a community of scattered farms in heavily wooded country—20 miles north of the wilderness spot where an American army bomber crashed last November, killing all four of its occupants.

OBITUARIES

The Rev. Eugene J. Taillon.

A solemn high mass will be sung at 10 a. m. today by Father Armand, O. M. I., at services for his brother, the Rev. Eugene J. Taillon, 48 years old, pastor of St. Louis Catholic church, 117th and State streets. Father Taillon died Friday in Little Company of Mary hospital of pneumonia. He had been pastor of the church for five years and, previously had been associated with All Saints and St. John Baptist churches in Chicago and the Catholic church at St. Anne, Ill. He was graduated from Quigley seminary and subsequently taught there. Father Taillon is survived by his mother, Mrs. Alphonsine Taillon; three sisters, and four brothers. Burial will be in Mount Olivet cemetery.

Edward C. Schmidt.

New York, March 22 [Special].—Edward C. Schmidt, head of the department of railway engineering at the University of Illinois from 1921 until two years ago, died yesterday in New York hospital after a week's illness. He was 67 years old. In the World war Schmidt was a major in the army ordnance department on detached service with the United States Fuel administration and the United States Railroad administration. His wife, who died in 1937, was the university's first dean of women.

Mrs. Libie A. Knox.

Springfield, Ill., March 22 (AP).—Mrs. Libie A. Knox, 91 years old, playmate of Tad Lincoln, son of the Civil war President, died at her residence today. She remembered seeing the President lying in state at the old capitol building, which now is the courthouse. Two sons, three daughters, and five grandchildren survive.

William M. Schroeder.

Services for William M. Schroeder, 74 years old, 7100 South Shore drive, will be held tomorrow at 2 p. m. at the chapel at 5501 North Ashland avenue. Burial will be in Graceland cemetery. Mr. Schroeder, western manager for Gerts, Lumbard & Co., Grand avenue brush manufacturer, died Saturday in St. Luke's hospital.

Albert Calvin Perrill.

Albert Calvin Perrill, a retired hat company executive, died yesterday in his home at 7606 Bosworth avenue. He was 80 years old and had lived 58 years in Chicago. He leaves his widow, Clara, and three sons, Dr. Irving, Rodney, and Alger. Services will be held at 3 p. m. tomorrow in the chapel at 6959 North Clark street.

Frederick Andrew Bosley.

NEWS OF FINANCE AND COMMERCE

FEDERAL MEAT PRICE CONTROL STARTS TODAY

Affects 90% of Pork Cuts and Products.

First wartime control of meat prices under federal rule starts today. Wholesale prices of more than 90 per cent of all pork cuts and products, including ham and bacon, are affected by the order.

Under a ruling by Price Administrator Leon Henderson, meat packers cannot sell the pork cuts affected by the order for more than the highest price charged for cuts during the period March 3 to 7.

Chicago retail prices per pound probably should not advance much above the following levels, OPA officials announced: Pork chops, 39.1 cents; bacon, sliced, 41.3; ham, sliced, 60; ham, whole, 35.7; salt pork, dry, 28.9.

These are the average prices charged by Chicago retailers during the period March 11 to 18, as determined by the federal bureau of labor statistics, for No. 1 grade meat.

Chicago Prices Relatively Low.

Brunswick A. Bagdon, regional price economist, said these prices are fairly representative of the amount the consumer paid for pork purchased by the retail butcher during the base period used for determining the federal ceilings. He said pork prices in Chicago were lower than those of many other large cities.

The following table shows how the probable retail prices under the federal ceilings compare with the average prices paid for these products a month ago and at the corresponding time last year, as determined by the bureau of labor statistics:

	Current Prices.	Feb. 17 1942.	March 18 1941.
Pork chops	$0.391	$0.356	$0.310
Bacon, sliced	.413	.387	.331
Ham, sliced	.60	.563	.466
Ham, whole	.357	.348	*......
Salt pork	.289	.242	*......

*Last year the bureau did not include whole ham and salt pork prices in its calculations.

Believed Steadying Influence.

The price ceiling on pork is expected by live stock men to be a steadying influence on both the retail trade and live market. They said packers would be unable to lift pork prices above the ceiling levels and, therefore, would not be willing to increase payments for live hogs.

At the same time it will be necessary for them to maintain volume of hog slaughtering in order to meet increased consumer demand and to provide lend-lease buyers with large supplies of lard, and cured, frozen, and canned pork to be shipped abroad.

With the number of hogs coming to market declining seasonally, the packers do not expect wholesale prices to decline much below the ceiling levels.

Mexico Marks Anniversary of Oil Properties Seizure

MEXICO CITY, March 22 (AP).—The fourth anniversary of Mexico's expropriation of foreign oil properties on March 18, 1938, was observed today with a parade of 15,000 workers past the national palace.

Grain Storage Scarcity Held Threat to Price

BY PHILIP WARDEN.

Unless sufficient storage space can be opened up within the next 60 days to accommodate millions of bushels of grain, a large part of the 1942 wheat crop may have to be sold at distress prices, grain men said yesterday.

June usually marks the start of the wheat harvest in the southwest. Growing conditions so far have been reported above average and chances for a bumper crop appear excellent.

But the problem of the disposal of this grain is becoming serious. With the department of agriculture estimating that on July 1 there still will be a year's supply of the bread grain available, storage space comes at a premium.

Farm Stocks Set Record.

Stocks of wheat on the farms are the largest on record. Farm holdings of feed grains are the largest in many years and near an all-time high. Commercial grain storage facilities hold grain grown as far back as 1938.

These facilities are needed by the farmer if he is to obtain maximum prices for the new crop. To qualify for the federal loan payments he must put the grain in approved storage.

"Storage space here is already comfortably filled and there is no room to accommodate anything remotely approaching a normal crop," says a Wichita, Kas., dispatch. "Lack of storage room may prevent many eligible farmers from obtaining government loans, in which case the grain will have to be sold at distress prices."

Market Dips in Week.

The grain markets last week declined under what some old timers described as "spring liquidation." They said every year speculators that have stayed in the market all winter get a whiff of spring in the air, hear a robin, read the first crop reports, and decide it is time to get out of the market.

Wheat, rye, and soy beans sold off to the year's lowest levels last week. Most of them had set five year peaks in January.

TREASURY TO FINANCE BY SELLING TWO ISSUES OF DEBT CERTIFICATES

Washington, D. C., March 22 (AP).—Secretary of the Treasury Henry Morgenthau announced today that he expected to offer early next month two issues of certificates of indebtedness, a type of security not sold by the treasury since 1934.

Morgenthau said the certificates would meet a demand for a "short term marketable security with an interest coupon," rather than discount securities such as treasury bills. Discount securities are sold at less than par and redeemed at face value, whereas the certificates will be sold at face value and bear interest.

Morgenthau did not announce what interest rate the certificates will carry. They are limited by law to one year maturity, will be redeemed in cash, and will carry no exchange privileges.

Six Tractors Waiting.

March 22, 1942.

Spring planting plans for the big Fox river farm have been completed and now the men are waiting for more warm days to dry the fields. When the soil is right the farm manager plans on having six tractors roaring over the 1,332 acres at the same time.

A large number of tractors and men will be needed to plant all of the fields this year. For corn land 312.4 acres will be plowed up. There will be 241.7 acres seeded to oats and 75 acres will be planted to soy beans.

To provide hay and pasture land the men have planned 42.2 acres of alfalfa, 104.3 acres of red clover, and 488.4 acres in blue grass and timothy pasture.

Almost Even Split.

Thus a total of 629.1 acres will be put into grain crops, and 634.9 acres will be devoted to forage and pasture. The remaining 68 acres are taken up by woodland and farmsteads.

Most of the land is ideally suited for planting. The soil stretches out in long flat plains that make corn planting and cultivating easy. Long rows are planted and labor is saved by doing away with frequent turns of the tractors.

The permanent pasture land is rolling and covered with blue grass and timothy. From these acres the big Aberdeen-Angus herd gets all the feed it needs. As the herd numbers 194, a great deal of pasture land is required.

More Land in Soy Beans.

For the first time in a number of years the farm will have a good deal of land in soy beans. War time production has increased the need for their valuable oil, and the farm manager is answering the government's call for increased soy bean acreage.

Last year a few beans were planted but they were mainly to smother out the Canada thistle which threatened a field. This year, however, a 75 acre field will be planted with beans for harvesting. The Manchu variety will be used. The farm manager is worried about getting enough seed as there is a definite shortage.

Many of last year's oat fields were seeded down to sweet clover at the time the oats were sown. The sweet clover got a good start and the fields were not pastured. As a result these fields, when plowed up this spring, will receive large quantities of valuable nitrogen that will increase their yields. This is a common practice at the farm and will be followed again in this year's oat fields.

ARMS AND TAXES.

Are the 1941 earnings of the Remington Arms company available? What has been the trend of sales and profits? To what extent have taxes increased in recent years? Is Remington controled by another company? I would also appreciate a brief description of business and capitalization.—D. J. P.

Answer: Net sales of the Remington Arms company in 1941 were well over twice the 1940 volume and profit increased more than a million dollars. Last year's tax bill, however, soared to nearly eight times the 1940 total. Excess profits taxes amounted to $10,415,000, compared with $475,000 the preceding year. Comparative results follow [last three ciphers are omitted]:

	Net sales.	Taxes.	Net income.
1941	$62,627	$13,376	$3,058
1940	22,983	1,750	1,945
1939	17,147	440	1,392
1938	13,877	232	685
1937	16,961	442	1,509

Remington Arms has been controled by E. I. du Pont de Nemours & Co. since 1933. Du Pont owns almost all the 36,848 shares of Remington 6 per cent preferred and a majority of the 7,493,140 shares of $1 par common stock outstanding. The arms company has no funded debt.

Remington Arms, incorporated in 1920, is an important factor in war production. Since the latter half of 1940 the manufacture of military products, such as small arms ammunition, has been the major activity of Remington's business. The company normally is the largest manufacturer of sporting ammunition and is a leading firearms manufacturer.

SCHENLEY DEBENTURES.

I recall that sometime last December the Schenley Distillers corporation filed a registration statement covering two debenture issues amounting to $27,500,000. Have these debentures been offered? What are the proceeds to be used for?—M. L.

Answer: Schenley Distillers corporation offered a $15,000,000 issue of 4 per cent sinking fund debentures, maturing in 1952, on March 4 this year. On Feb. 13 the corporation amended its original registration statement filed Dec. 30 which covered $10,000,000 of 3¼ per cent debentures and $17,500,000 of 4 per cent debentures. The amendment provided for a single issue of 3¾ per cent debentures amounting to $15,000,000. The corporation also announced that another $15,000,000 would be borrowed from six banks. A few days before the offering, the interest rate on the debentures was changed from 3¾ to 4 per cent. Proceeds from the sale of the debentures and funds from the bank loans are to be applied to the retirement of outstanding bank loans totaling $32,500,000.

OFFER NEW PLAN TO REORGANIZE ASSOCIATED GAS

A compromise plan for reorganization of Associated Gas and Electric company and Associated Gas and Electric corporation has been submitted to trustees of the two corporations and to the Securities and Exchange commission by Henry A. Stix, former vice president and controler of the two companies.

It provides for issuance of $24,500,000 of certificates of indebtedness of a new corporation for present outstanding trustee certificates, Associated Gas and Electric corporation 8 per cent bonds due in 1940, Utilities Employés Securities company obligations, and expenses of liquidating the two trusteeships.

New common stock would be issued for debentures of the company and the corporation at a rate of 1.1 shares for each $100 corporation debenture and 1 share for each $100 company debenture. One-tenth of a share of common would be issued for each $100 of Associated Gas and Electric company convertible obligations and convertible debenture certificates.

11 ORE CARRIERS GET THRU LOWER ST. MARY'S RIVER

Sault Ste. Marie, Mich., March 22 [Special].—Eleven ore carriers of the Cleveland Cliffs Iron company churned their way up the lower St. Mary's river Saturday night behind the ice crushing ferry, Sainte Marie, and today waited in the Sault harbor. They probably will start tomorrow on the second leg of their journey to Lake Superior ports for ore. Opening of navigation on the river was the earliest in history.

The Sainte Marie was taking on coal today preparatory to passing upbound thru one of the Sault locks and smashing a channel thru the upper river and Whitefish bay, which now is a solid sheet of ice about 20 inches thick.

INDUSTRY INDEX RISES TO 173% OF 1935-'39 AVERAGE

Washington, D. C., March 22 (AP).—The federal reserve board reported today that its adjusted index of industrial production rose two points during February and the first half of March to 173 per cent of the 1935-1939 average.

Activity in the durable goods industries—where most of the arms production takes place—accounted for the advance, with output in the nondurable goods and mining industries holding around the levels reached last autumn.

SUPPLY OF STEEL PLATES FOR SHIP MAKING LARGER

Cleveland, O., March 22 (AP).—It believed that "shipbuilding plants will be furnished all the ship plates they need thru the remainder of this year," the magazine Steel reported today. Conditions have improved in respect to plate deliveries, and expansion of facilities for ship construction and plate production seem likely to run an even race, the trade publication said.

National ingot production last week was unchanged at 95½ per cent of capacity.

Sweden Agrees to Supply Wood Products to Germany

New York, March 22 (AP).—The Stockholm radio reported today that Sweden had signed a trade agreement with Germany under which it will export $32,000,000 worth of wood products, cellulose, and paper. Sale prices averaged 15 per cent higher than those of 1941. Half is to be paid on delivery and the rest within 15 months, the broadcast said.

Wanted: A WRITER

With Practical Experience in Labor Relations

For a man with practical knowledge of the human side of labor relations and the operating principles of work supervision we have an interesting proposition. The man desired must be able to write sensibly and with moderated inspiration on the factors that make for good working morale and production. The first assignment will be temporary, but will quickly result in a continuing highly remunerative position. Please do not answer unless you have the experience qualifications as the man needed must perform right from the start without training. Write in full detail giving experience, age, etc. Do not write a selling letter—all we want is facts. ADDRESS H A 445, TRIBUNE.

Act to Speed RFC Loans to Little Business

Immediate steps to speed up loans to small businesses, especially to those participating in war work, will be undertaken by the Chicago loan agency of the Reconstruction Finance corporation, Frank M. Murchison, manager, said yesterday. He has just returned from a conference at Washington between officials of the RFC and the managers of the 31 loan agencies thruout the nation.

Under a new program much of the red tape and delay in making loans to small businesses will be eliminated, Murchison said. Action is being taken under the new lending procedure established by the RFC whereby regional offices are empowered to make loans up to and including $100,000 without getting approval in Washington.

Purposes of Program.

"The new procedure is designed to aid in the defense program, and particularly to assist small manufacturers who hitherto have been unable to participate in war production because of a lack of plant facilities, equipment, or working capital, and to expedite the disbursement of approved loans," Murchison said.

However, in getting a loan the appliant must first prove that he has not been able to borrow the money from private sources. The RFC does not wish to compete with private capital.

Murchison said the RFC is soliciting the coöperation of banks in making the program a success. Applicants unable to get loans from their local banks should apply to the Chicago office of the RFC in the Federal Reserve Bank building, at La Salle street and Jackson boulevard.

Must Get Materials.

Companies not handling war contracts must demonstrate that they are able to obtain the materials necessary for making their products, to get loans. One of the objects of the program is to keep small concerns in business, Murchison said.

The Chicago loan office has jurisdiction over the greater parts of Illinois, Indiana, and all of Wisconsin.

ADVISES USING ADVERTISING TO AID WAR EFFORT

New Brunswick, N. J., March 22 (AP).—Frank B. Hutchinson, professor of journalism at Rutgers university, today urged that the federal government turn to advertising to "transform a half defense minded people into a wholly victory minded nation."

"Advertising," he said, "is arousing, guiding, inspiring the British people to an all-out production effort. This same force is selling victory bonds in Canada at a rate to make us look like a nation fumbling to let some one else pay the check."

People and Events

The University of Chicago, in coöperation with the Illinois Institute of Technology, is offering a free course in planetable mapping, sponsored by the engineering, science, and management defense training program of the United States office of education. Men with two years of civil engineering experience, or two years of college training in such fields as chemistry, physics, mathematics, geology, forestry, architecture, and engineering, or three years of college training in any field including trigonometry, are eligible for the course. Applicants will be interviewed and registered Wednesday thru Friday of this week in Rosenwald hall.

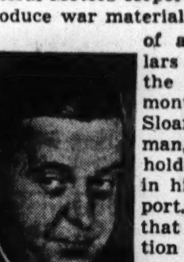

The ninth annual conference of the commercial forces of the electric utility industry, sponsored by the Edison Electric institute, will be held in the Edgewater Beach hotel, Tuesday thru Thursday. R. E. Fisher, vice president of the Pacific Gas and Electric company, will preside.

Representatives of the Office of Price Administration and metal products manufacturers will discuss price ceilings on lead and tin products today at a meeting in the Drake hotel.

GEN'L MOTORS REPORTS WAR OUTPUT IS VAST

1941 Profit Exceeds 201 Millions.

General Motors corporation expects to produce war materials at the rate of a billion dollars annually by the end of this month, Alfred P. Sloan Jr., chairman, told stockholders yesterday in his annual report. He revealed that the corporation last year earned $201,562,508, or $4.44 a share compared with $195,621,721, or $4.32 a share, in 1940. Results were the best since 1936.

Russell R. Brown reports gain for alcohol producer.

Sales, both military and nonmilitary, totaled $2,436,800,937 in 1941, compared with $1,794,936,642 in 1940.

Has Extraordinary Charges.

Earnings were recorded after several extraordinary charges, including $16,598,644, "principally for postwar rehabilitation and to provide for possible costs and contingencies not now definitely ascertainable"; $3,430,000 of inventory writeoffs and commitment losses as a result of the cessation of civilian automobile production, and $2,000,000 "for the cost of removal, storage, and retention of special tools to be used in civilian automobile production after the war."

"During the year, production of war materials in General Motors plants increased steadily and sharply," Sloan said. "Deliveries in the fourth quarter were more than two and one-half times those in the first quarter.

"In 1941 deliveries of war materials by the corporation amounted to $406,149,273. In 1940 such deliveries were $74,857,798."

Tax Bill Immense.

The corporation provided $287,922,343 in 1941 for United States and foreign income and excess profits taxes, compared with $125,027,741 in the preceding year. All "definitely ascertainable taxes" of every kind paid last year, including excise taxes passed on to the consumer, were $424,854,000, or 211 per cent of the net income available to stockholders, Sloan said.

Union Carbide and Carbon corporation reported that net income in 1941 was $42,041,624, equal to $4.53 per share of capital stock, compared with $42,247,274, or $4.55 a share, in 1940.

Income in 1941, before taxes and other deductions, amounted to $106,759,419 against $83,071,101 in the preceding year.

Construction expenditures during the last year totaled $59,797,720. Nearly all of the additional production capacities resulting from these construction expenditures is important to the armament program, the company said.

Makes Big Profit Gain.

American Commercial Alcohol corporation and its wholly owned subsidiary, American Distilling Company of Maryland, reported 1941 net income of $1,052,121 after charges and taxes, equal to $4.03 a share on common stock, compared with 1940 net income $57,847, or 22 cents a share.

Russell R. Brown, president, informed stockholders the directors planned a simplification of the corporation's organization designed to effect economies and involving a share for share exchange of American Commercial Alcohol corporation stock for shares of the American Distilling company.

Brown said that if the stockholders at a meeting April 7 approved the plan it would mean the organization would consist of one company without subsidiaries but with continued affiliation with American Spirits, Inc., and Compania Ron Carioca Distileria, Inc.

9 ADVANTAGES

of Getting YOUR LOAN from 'PERSONAL'

1. Loans made to all employed men and women, whether single or married.
2. Business women and those working in defense plants—borrow here "on your own."
3. A special plan provides loans for defense workers and others on a new job or who have just moved into the community.
4. Between pay-day loans for small amounts and short periods made as readily as other loans.
5. Loans made for purchase of tools, uniforms, car or home repairs, medical or dental attention, payment of old bills, etc.
6. Your account here establishes NATION-WIDE Cash Credit at any of more than 400 'Personal' offices.
7. Monthly payments arranged that you can comfortably afford. Take a year or more to repay.
8. Complete privacy. Loans made on signature, furniture or auto. No wage assignments. Outsiders not involved.
9. Quick, friendly service. No waiting for a "Board" or committee to pass on your loan.

More people from coast-to-coast borrow from 'Personal' than from any other similar company. If you need $10 to $250 or more, phone or come to our nearest office today.

FURNITURE LOANS

At Commonwealth you may take your choice of several loan plans. Actually, however, a furniture loan is by far the most popular. The requirements are so simple that nearly any one keeping house can qualify. The payments, too, can usually be adjusted to fit even the most modest income. If you are hard pressed for cash, investigate the various loan plans Commonwealth has to offer. STOP IN, WRITE, or PHONE for full details.

Troops of the 9th infantry division being trained in the technique of amphibious warfare at Fort Bragg, N. C. Picture No. 1 shows rubber boat employed in landing operations before it has been inflated for use. No. 2: Troops carry the inflated boat toward water. No. 3: Troops in rubber boats attempt landing under simulated artillery fire. The blast resulted from explosives being set off in the water. The training also includes establishment of bridgeheads.
